The For Math Empowerment Rethinking The Subject Of Mathematics:

The Book for Math Empowerment Sandra Manigault,1997 The Book For Math Empowerment is a unique adventure that should be experienced by everyone students parents teachers and especially anyone who has ever been math scared or math scarred

Rethinking School Mathematics Andrew Noyes,2007-05-21 Why is it that so many pupils are put off by maths seeing it as uninspiring and irrelevant and that so many choose to drop it as soon as they can Why is it socially acceptable to be bad at maths Does the maths curriculum really prepare pupils for life This book presents some answers to these questions helping teachers to think through their own attitudes to teaching and learning and to work with pupils towards more effective and inspiring mathematical engagement Part I of the book explores the nature of school mathematics showing how the curriculum has been developed over the years and how increasing effort has been devoted to improving the quality of mathematics teaching with little apparent effect Part II focuses on ways of thinking about classroom mathematics which take account of social cultural political and historical aspects The chapters bring together a collection of activities resources and discussion which will help teachers develop new ways of teaching and learning maths This book will be essential reading for all maths teachers including maths specialists on initial teacher training courses

Rethinking Mathematics Eric Gutstein,Bob Peterson,2005 In this unique collection more than 30 articles show how to weave social justice issues throughout the mathematics curriculum as well as how to integrate mathematics into other curricular areas Rethinking Mathematics offers teaching ideas lesson plans and reflections by practitioners and mathematics educators This is real world math math that helps students analyze problems as they gain essential academic skills This book offers hope and guidance for teachers to enliven and strengthen their math teaching It will deepen students understanding of society and help prepare them to be critical active participants in a democracy Blending theory and practice this is the only resource of its kind

Rethinking the Teaching Mathematics for Emergent Bilinguals Ji Yeong I,Hyewon Chang,Ji-Won Son,2019-11-09 This book focuses on the role of cultural background in Korean public schools and provides essential insights into how Korean teachers perceive and respond to the transition of their classroom situations with Korean language learners It reveals the perspectives and the practices of Korean teachers especially with regard to multicultural students who struggle with language barriers when learning mathematics The information provided is both relevant and topical as teaching mathematics to linguistically and culturally diverse learners is increasingly becoming a worldwide challenge

Democracy and Mathematics Education Kurt Stemhagen,Catherine Henney,2021-05-06 In Democracy and Mathematics Education Kurt Stemhagen and Catherine Henney develop a way of thinking about the nature and purposes of math that is inclusive participatory and thoroughly human They use these ideas to create a school mathematics experience that can enhance students math abilities and democratic potential They locate

mathematics origins in human activity and highlight the rich but often overlooked links between mathematical activity and democratic social practices Democratic mathematics education foregrounds student inquiry and brings to light the moral dimensions of a discipline that has both remarkable utility and inevitable limitations For math educators the book s humanities approach helps to see the subject anew For philosophers it provides an important real world context for wrestling with perennial and timely questions engaging democratic and evolutionary theory to transform school math This alternative approach to mathematics and mathematics education provides a guide for how to use math to make democracy a larger part of school and wider social life 2021 Winner of the AESA Critics Choice Book Award **Statistics for Empowerment and Social Engagement** Jim Ridgway,2023-03-10 This book is a remarkable achievement Gerd Gigerenzer This book offers practical approaches to working in a new field of knowledge Civic Statistics which sets out to engage with and overcome well documented and long standing problems in teaching quantitative skills The book includes 23 peer reviewed chapters written in coordination by an international group of experts from ten countries The book aims to support and enhance the work of teachers and lecturers working both at the high school and tertiary university levels It is designed to promote and improve the critical understanding of quantitative evidence relevant to burning social issues such as epidemics climate change poverty migration natural disasters inequality employment and racism Effective citizen engagement with social issues requires active participation and a broad understanding of data and statistics about societal issues However many statistics curricula are not designed to teach relevant skills nor to improve learners statistical literacy Evidence about social issues is provided to the public via print and digital media official statistics offices and other information channels and a great deal of data is accessible both as aggregated summaries and as individual records Chapters illustrate the approaches needed to teach and promote the knowledge skills dispositions and enabling processes associated with critical understanding of Civic Statistics presented in many forms These include statistical analysis of authentic multivariate data use of dynamic data visualisations deconstructing texts about the social and economic well being of societies and communities Chapters discuss the development of curricula and educational resources use of emerging technologies and visualizations preparation of teachers and teaching approaches sources for relevant datasets and rich texts about Civic Statistics ideas regarding future research assessment collaborations between different stakeholders and other systemic issues **Forthcoming Books** Rose Army,2002
