The Ford Foundation At Work:

The Ford Foundation at Work Richard Magat, 2012-12-06 This report originated in a request to me from the Board of Trustees of the Ford Foundation in the summer of 1975 The trustees aware that there would be a change of leadership at the Foundation before 1980 wanted to make a running start in the process of planning for the future Their first step was to make a study of the great national and international needs that might lie ahead in the next decade and a half and where and how the Foundation might address them They sought advice both within the Foundation and outside it and they engaged in long discussions of their own Although the exercise was directed toward planning for the future the trustees also wished to review our past not exhaustively but at least well enough to have a clear sense of what the Foundation had been up to in the quarter century of its existence as a national and international institution In this connection the chairman of our board Alexander Heard asked for I a canvass of the Ford Foundation's experiences successes and failures during the last twenty five years focused on the broad objectives sought the means pursued to achieve them and the results *Ford Foundation* Dwight Macdonald, 2017-07-12 Thirty years since it was first published Macdonald's masterful book on the Ford Foundation remains the only book length account of this institution that has been published Despite the calls for a book carrying on the story from 1956 on the part of Richard Magat and McGeorge Bundy that book has yet to be written In his stimulating introduction to this new edition Francis Sutton suggests why this is so The Foundation he observes has never again aroused as much public interest as it did in the years Macdonald describes The announcement that a new program would be launched with the riches that 90 percent of the Ford Motor Company's stock would bring captured the attention of the media all across the country Its sheer size was astounding in 1954 the Ford Foundation spent four times as much as the Rockefeller Foundation and ten times as much as the Carnegie Corporation Its expenditures were very large in relation to the budgets of the institutions that looked to it for help Consequently the American public waited expectantly to see what this huge foundation would do But the Ford Foundation was not only big it was controversial in those years and inspired activism in the media Congressional investigations and political wrath Macdonald nicely captures the American ambivalence toward large bureaucratic organizations which the Ford Foundation epitomizes with its own language and one might argue its own values Sutton points out that Macdonald's writing also sets a model for foundation history and indeed philanthropic history with a poised ironic detachment that has remained rare His introduction points out the main themes of Macdonald's book and examines the extent to which they continue to illumine the foundation in the years since this book was first published It looks at how well the Foundation has addressed the objectives it set for itself and nicely captures the giant changes that this giant foundation has experienced through the 1960s and 1970s to the present day **The Ford Foundation's Work in**

recent decades increasingly emphasize the so called globalization of legal education The diffusion of the Juris Doctor JD degree to Australia Hong Kong Japan and South Korea as well as the advent of a very similar Juris Master JM degree in China and a shift in the late 1980s and beyond to a new US influenced format in India exemplify shifts toward US legal education practices Flood 2014 The global and Americanizing trend is evident on the web sites of law schools around the globe with many law schools competing to be the most global in terms of their faculty curricula teaching methods and students Less pronounced but related to the literature on legal globalization is that on transnationalization and transnational processes which is a strong component of the move toward globalization in legal education As this book shows if we look to see what is celebrated as part of globalized law schools and faculties we see increased cross border flows of professors and students teaching of transnational legal subjects development of particular forms of teaching practice such as legal clinics explicit focus on transnational rankings and transnationalized scholarly communities sharing teaching and research methods and approaches across domains of law

American Foundations and the Coproduction of World Order in the Twentieth Century John Krige, Helke Rausch, 2012-05-23 This volume studies the links between politics and science during the 20th century based on the example of the large US foundations If the 20th century can be regarded in many ways as the American Century then the large US foundations such as Carnegie Rockefeller and Ford played a major role in this development And yet they weren't simply stooges for official US power politics The circumstances surrounding their actions were much more complicated and made great demands of the philanthropy of the day This volume with articles in English and German shows the course of US philanthropy in Europe in the time between the world wars and following World War II it demonstrates how Europe became the setting for continually new versions of the postwar political and scientific landscape
