John Andrew Frey, 1999-10-30 Though he wrote more than a century ago French author Victor Hugo 1802 1885 continues to capture the imagination of contemporary readers both in France and around the world In the United States he is best remembered as the author of the novel *Les Misérables* 1862 which has been adapted for the stage and of *Notre Dame de Paris* 1831 more commonly known to Americans as *The Hunchback of Notre Dame* But Hugo was also a poet and dramatist a great religious and social thinker and one of the most important shapers of French Romanticism As a poet he created new verse forms explored historical and mythological themes and criticized social issues of his time Through his drama he united prose and poetry and examined the politics of England and Spain In all of his works he discussed such theological and social issues as the problem of evil the nature of war and peace and the problems of capital punishment The volume begins with a short biography that places Hugo within the context of 19th century France The biography tells of his early years during which he began to form his religious and political views his maturation as a writer and thinker during the 1830s and his political exile during which he wrote some of his finest poetry The alphabetically arranged entries that follow discuss his works characters themes and ideas as well as historical persons and places that figured prominently in his life and writings Many of the entries cite sources of additional information and the volume closes with a selected general bibliography **The Later Novels of Victor Hugo** Kathryn M. Grossman, 2012-03-29 This study places the last three novels of Hugo's maturity *Les Travailleurs de la mer* 1866 *L'Homme qui rit* 1869 and *Quatrevingt-Treize* 1874 within the context of his artistic development after the success of *Les Misérables* 1862 thereby illuminating the shift from a poetics of harmony to one of transcendence **The Mysteries of Paris and London** Richard Maxwell, 1992 In this ambitious and exciting work Richard Maxwell uses nineteenth century urban fiction particularly the novels of Victor Hugo and Charles Dickens to define a genre the novel of urban mysteries His title comes from the mystery mania that captured both sides of the channel with the runaway success of Eugene Sue's *Les mystères de Paris* and G W M Reynolds's *Mysteries of London* Richard Maxwell argues that within these extravagant but fact obsessed narratives the archaic form of allegory became a means for understanding modern cities The city dwellers drive to interpret linked the great metropolises with the discourses of literature and art the primary vehicles of allegory Dominant among allegorical figures were labyrinths panoramas crowds and paperwork and it was thought that to

understand a figure was to understand the city with which it was linked Novelists such as Hugo and Dickens had a special flair for using such figures to clarify the nature of the city Maxwell draws from an array of disciplines ideas and contexts His approach to the nature and evolution of the mysteries genre includes examinations of allegorical theory journalistic practice the conventions of scientific inquiry popular psychiatry illustration and modernized wonder tales such as Victorian adaptations of the Arabian Nights In *The Mysteries of Paris* and *London* Maxwell employs a sweeping vision of the nineteenth century and a formidable grasp of both popular culture and high culture to decode the popular mysteries of the era and to reveal man s evolving consciousness of the city His style is elegant and lucid It is a book for anyone curious about the fortunes of the novel in the nineteenth century the cultural history of that period particularly in France and England the relations between art and literature or the power of the written word to produce and present social knowledge
