The Founding of English Metre John Thompson, 1966 **A New History of English Metre** Martin J. Duffell, 2008 In the hundred years since the last major history of English metre was published dramatic changes have occurred in both the way that poets versify in English and the way that scholars analyze verse Free verse is now firmly established alongside regular metre and linguistics statistics and cognitive theory have contributed to the analysis of both This new study covers the history of English metre up to the twenty first century and compares a variety of modern theories to explain it The result is a concise and up to date guide to metre for all students and teachers of English poetry Book Jacket **The Founding of**

Blank Verse Robert Burns Shaw, 2007 With its compact but inclusive survey of more than four centuries of poetry Blank Verse is filled with practical advice for poets of our own day who may wish to attempt the form or enhance their mastery of it Enriched with numerous examples Shaw's discussions of verse technique are lively and accessible inviting to all **The**

History of English Poetry Thomas Warton, 1840 **A History of English Rhythms** Edwin Guest, 1882 **Sociocultural Dimensions of Lexis and Text in the History of English** Peter Petré, Hubert Cuyckens, Frauke D'hoedt, 2018-07-15 The chapters collected in this volume examine how the sociohistorical and cultural context may influence structural features of lexis and text types Each paper pays particular attention to social labels and attitudes conservative religious ideological endearing or other thereby focusing on their dynamic and historical dimension Changes in these are analyzed in order to explain morphological lexical and textual changes that would otherwise be hard to account for Together they provide a varied window on the effect of historical versions of a dynamic society on lexis and text Examining lexical and textual change in history from a sociocultural perspective teaches us a great deal not just about the past but it also makes us think about similar phenomena in the present enhancing our knowledge about how universally human some of these phenomena are This volume will be of great interest to English historical linguists sociolinguists and scholars of sociohistorical and cultural studies **The History of English Poetry from the Close of the Eleventh to the Commencement of the Eighteenth**

Century Thomas Warton, 1781 **Meter and Modernity in English Verse, 1350-1650** Eric Weiskott, 2021-01-15 What would English literary history look like if the unit of measure were not the political reign but the poetic tradition The earliest poems in English were written in alliterative verse the meter of Beowulf Alliterative meter preceded tetrameter which first appeared in the twelfth century and tetrameter in turn preceded pentameter the five stress line that would become the dominant English verse form of modernity though it was invented by Chaucer in the 1380s While this chronology is accurate Eric Weiskott argues the traditional periodization of literature in modern scholarship distorts the meaning of meters as they appeared to early poets and readers In *Meter and Modernity in English Verse 1350 1650* Weiskott examines the uses and misuses of these three meters as markers of literary time medieval or modern though all three were in concurrent use both

before and after 1500 In each section of the book he considers two of the traditions through the prism of a third element alliterative meter and tetrameter in poems of political prophecy alliterative meter and pentameter in William Langland's *Piers Plowman* and early blank verse and tetrameter and pentameter in Chaucer his predecessors and his followers Reversing the historical perspective in which scholars conventionally view these authors Weiskott reveals Langland to be metrically precocious and Chaucer metrically nostalgic More than a history of prosody Weiskott's book challenges the divide between medieval and modern literature Rejecting the premise that modernity occurred as a specifiable event he uses metrical history to renegotiate the trajectories of English literary history and advances a narrative of sociocultural change that runs parallel to metrical change exploring the relationship between literary practice social placement and historical time
