Education G. Hardy,D. Everett,2015-12-04 In a world economy where rapid change is the only constant what is the best way for business schools to prepare the leaders of tomorrow The authors of this volume argue that a broad and rigorous education is needed one that fuses business knowledge with arts and sciences technology and ethical training The New Builders Seth Levine,Elizabeth MacBride,2021-04-20 Despite popular belief to the contrary entrepreneurship in the United States is dying It has been since before the Great Recession of 2008 and the negative trend in American entrepreneurship has been accelerated by the Covid pandemic New firms are being started at a slower rate are employing fewer workers and are being formed disproportionately in just a few major cities in the U S At the same time large chains are opening more locations Companies such as Amazon with their deliver everything and anything are rapidly displacing Main Street businesses In The New Builders we tell the stories of the next generation of entrepreneurs and argue for the future of American entrepreneurship That future lies in surprising places and will in particular rely on the success of women black and brown entrepreneurs Our country hasn t yet even recognized the identities of the New Builders let alone developed strategies to support them Our misunderstanding is driven by a core misperception Consider a typical American entrepreneur Think about the entrepreneur who appears on TV the business leader making headlines during the pandemic Think of the type of businesses she or he is building the college or business school they attended the place they grew up The image you probably conjured is that of a young white male starting a technology business He s likely in Silicon Valley Possibly New York or Boston He s self confident versed in the ins and outs of business funding and has an extensive Ivy League network of peers and mentors eager to help his business thrive grow and make millions if not billions You d think entrepreneurship is thriving and helping the United States maintain its economic power You d be almost completely wrong The dominant image of an entrepreneur as a young white man starting a tech business on the coasts isn t correct at all Today s American entrepreneurs the people who drive critical parts of our economy are more likely to be female and non white In fact the number of women owned businesses has increased 31 times between 1972 and 2018 according to the Kauffman Foundation in 1972 women owned businesses accounted for just 4.6% of all firms in 2018 that figure was 40% The fastest growing group of female entrepreneurs are women of color who are responsible for 64% of new women owned businesses being created In a few years we believe women will make up more than half of the entrepreneurs in America The age of the average American entrepreneur also belies conventional wisdom It s 42 The average age of the most successful entrepreneurs those in the top 01% in terms of their company s growth in the first five years is 45 These are the New

Builders Women people of color immigrants and people over 40 We re failing them And by doing so we are failing ourselves In this book you ll learn How the definition of business success in America today has grown corporate and around the concepts of growth size and consumption Why and how our collective understanding of entrepreneurship has dangerously narrowed Once a broad term including people starting businesses of all types entrepreneurship has come to describe only the brash technology founders on the way to becoming big Who are the fastest growing groups of entrepreneurs What are they working on What drives them The real engine that drove Silicon Valley s entrepreneurs The government had a much bigger role than is widely known The extent to which entrepreneurs and small businesses are woven through our history and the ways we have forgotten women and people of color who owned small businesses in the past How we re increasingly afraid to fail The role small businesses are playing saving the wilderness small towns and redlined communities What we can do to turn the decline in entrepreneurship around especially be supporting the people who are courageously starting small companies today
