States Maria Los, 2016-01-13 This book analyses and compares the unofficial economies and their control in ten marxist states the USSR Poland Hungary Romania Yugoslavia Cuba Nicaragua China Angola and Tanzania It provides a vivid mosaic like panorama of the hidden economies in these countries The book breaks with the view that the unofficial economy is simply a by product of the official economy It shows an unfolding interplay between these two economies which moulds and limits both the dynamics and the direction of the process of change In her final essay Maria Los develops a theoretical model linking second economies with the process of marxist economic development The key stages of this process are identified as 1 The stage of radical transformation 2 The monopolisation period 3 The reformist phase and 4 Post reformist decadence The

volume throws a new light on the prospects and problems of the reformist movements which have swept the Soviet Union China and several other marxist states in the 1980s **Liberalization and Entrepreneurship** Branko Milanović,1989 This book starts from the premise that economic liberalization reduced state interference in economic life is the common element in the current trend towards privatization and deregulation in the West and economic reform and restructuring in the East In popular parlance privatization and perestroika are its watchwords Margaret Thatcher and Mikhail Gorbachev its heralds But the specific character of the liberalization will be determined by the social characteristics of different societies In order to study the reform process in the two systems it is necessary to dispose of a general conceptual framework capable of embracing both a predominantly market economy and a predominantly centrally planned economy The key objective of this work is to provide such a unified framework and on that basis to analyze the policy conflicts that dominated both systems in the 1980s and the prospects for further change in the years ahead Yugoslavia David A Dyker,2013-12-19 This book first published in 1990 analyses contemporary Yugoslavian development strategy in its historical and political context assessing how corruption negligence and an emphasis on industry to the detriment of agriculture and trade have all played a part in bringing Yugoslavia close to financial and political chaos The book concludes by considering the contemporary prospects for a more integrated policy approach in the midst of the country s political crisis
