Manev,2014-06-11 I was advised to start this book with where I studied and who my teachers where I m not going to do that I
am an ordinary person with unordinary thoughts My autobiography consists of what I ve done mainly discoveries combined
with theory This is what you are holding in your hands now and the incredible applications that follow from them For many
people where they studied and who taught them it is important but for me it does not matter Pierre Fermat was educated as
a lawyer In his spare time he was engaged in mathematics and left to mankind a number of mathematical discoveries
Evariste Galois did not even finish high school and was left without a degree because he could not take the Matura exam in
mathematics However he left humanity almost all modern mathematics Thomas Edison was almost illiterate but this did not
prevent him from becoming one of the most prolific inventors in his time At the same time tens of thousands of scientists
work in institutes leaving piles of books to mankind without any discoveries in them In their scientific works there are only
findings Most of them are convinced that they do not make any discoveries because everything is already discovered The
truth is quite different What we know is limited but what we do not know has NO boundaries I wrote this book because some
omnipotence forced me to do this My research showed that there are amazing events that are associated with rapid
technological and spiritual development and change in the structure of human society All this will be accompanied by natural
cataclysms Therefore some biblical texts are misunderstood and misinterpreted Under these conditions it is impossible to
stay calm Don t let the mathematical formulas scare you You can do without them Read on and you will understand because
it is a theory of reality *Reborn Phoenix's Counterattack* Bai Luoyou,2019-12-30 Yun Luoyou who originally was a loser
was betrayed and tortured to death by her friend At that moment she died another powerful soul came across and poured
into her body The originally loser became a strong person The first thing she was supposed to do is revenge In the mean time
she met a charming man she had never saw They started to conquer the world together About the Author Bai Luoyou a new
internet novelist is good at writing fantasy novels Most of her works have ups and downs in plots diversified narrative
techniques smooth writing her novels are welcome by many readers *Total Feng Shui* Lillian Too,2004-12-07
Internationally best selling author Too puts prosperity and success within everybody s reach as she presents the
fundamentals of feng shui and offers simple steps for employing its principles at home outdoors and in the workplace
