The Formation Of The Christian Bible

Hans von Campenhausen

The Formation Of The Christian Bible:

The Formation of the Christian Bible Hans von Campenhausen,1972 **Formation of the Bible: the Story of the Church's Canon** Lee Martin McDonald,2012 Well known for his scholarly works on the formation of the biblical canon Lee McDonald has written a carefully researched and reasoned explanation on the history of the formation of the Bible expressly for the interested pastor and curious layman Combining a lifelong commitment to the Scriptures both as a pastor and as a scholar McDonald approaches his task with sensitivity to the importance of these sacred texts as well as with the thoughtful practice of a person steeped in the process by which these texts were brought together to form the Bible as the church knows it now From the collection and translations of the Hebrew Scriptures through the collection of the New Testament Scriptures and finally the process of settling on the final forms for these collections McDonald leads his reader right up to the present moment

The Formation of the Christian Bible Hans von Campenhausen,1972 The Formation of the Early Church Jostein Ådna,2005 Essays presented are adapted papers read at the 7th Nordic New Testament Conference in Stavanger Norway June 14 18 2003

The Formation and Significance of the Christian Biblical Canon Tomas Bokedal,2013-12-05 This book offers a fresh cross disciplinary approach to the current discussion on the Christian canon formation process By carefully integrating historical hermeneutical and theological aspects to account for the emergence of the canon it seeks to offer a more comprehensive picture of the canon development than has previously been achieved The formation and continuous usage of the Christian biblical canon is here viewed as an act of literary preservation and actualization of the church's apostolic normative tradition the Scriptures and the Lord addressing first of all the church but also the wider society In order to grasp the complex phenomenon of the biblical canon the study is divided into four parts focusing respectively on linguistic and effective historical textual and material performative and ideational aspects of the canon Attention is given to the scribal nomina sacra convention the codex format oral and written Gospel early Christian liturgical praxis and the Rule of Faith Bokedal argues that the canon was formed in a process with its own particular intention history and direction Throughout the study history and theology past and present are considered alongside each other By using a Gadamerian hermeneutics of tradition the reader's attention is directed to historical dimensions of the canon and its interpretative possibilities for our time The notion of effective history Wirkungsgeschichte as well as the interaction between text community and reader are crucial to the argument The canonical text as text its interpretation and ritual contextualization are highlighted as unifying elements for the communities being addressed

The Formation of the Christian Biblical Canon Lee Martin McDonald,1988 **The Formation of the Christian Scriptures** Margaret Baxter,2015-07-01 The Formation of the Christian Scriptures is the second volume in a two part introduction to the New Testament tracing the processes by which the various parts of the New Testament as we know it came to be written and put together accepted as Scripture and then translated The International Study Guides ISGs are clear and accessible resources

contextual and ecumenical in content and missional in direction The contributors are theological educators who come from different countries and different religious backgrounds and bring practical emphasis alongside contemporary scholarly reflection The Oxford Handbook of Early Christian Studies Susan Ashbrook Harvey, David G. Hunter, 2008-09-05 The Oxford Handbook of Early Christian Studies responds to and celebrates the explosion of research in this inter disciplinary field over recent decades As a one volume reference work it provides an introduction to the academic study of early Christianity c 100 600 AD and examines the vast geographical area impacted by the early church in western and eastern late antiquity It is thematically arranged to encompass history literature thought practices and material culture It contains authoritative and up to date surveys of current thinking and research in the various sub specialties of early Christian studies written by leading figures in the discipline The essays orientate readers to a given topic as well as to the trajectory of research developments over the past 30 50 years within the scholarship itself Guidance for future research is also given Each essay points the reader towards relevant forms of extant evidence texts documents or examples of material culture as well as to the appropriate research tools available for the area This volume will be useful to advanced undergraduate and post graduate students as well as to specialists in any area who wish to consult a brief review of the state of the question in a particular area or sub specialty of early Christian studies especially one different from their own **The Formation of the Hebrew Bible** David M. Carr, 2011-10-12 In *The Formation of the Hebrew Bible* David Carr rethinks both the methods and historical orientation points for research into the growth of the Hebrew Bible into its present form Building on his prior work *Writing on the Tablet of the Heart* Oxford 2005 he explores both the possibilities and limits of reconstruction of pre stages of the Bible The method he advocates is a methodologically modest investigation of those pre stages utilizing criteria and models derived from his survey of documented examples of textual revision in the Ancient Near East The result is a new picture of the formation of the Hebrew Bible with insights on the initial emergence of Hebrew literary textuality the development of the first Hexateuch and the final formation of the Hebrew Bible Where some have advocated dating the bulk of the Hebrew Bible in a single period whether relatively early Neo Assyrian or late Persian or Hellenistic Carr uncovers specific evidence that the Hebrew Bible contains texts dating across Israelite history even the early pre exilic period 10th 9th centuries He traces the impact of Neo Assyrian imperialism on eighth and seventh century Israelite textuality He uses studies of collective trauma to identify marks of the reshaping and collection of traditions in response to the destruction of Jerusalem and Babylonian exile He develops a picture of varied Priestly reshaping of narrative and prophetic traditions in the Second Temple period including the move toward eschatological and apocalyptic themes and genres And he uses manuscript evidence from Qumran and the Septuagint to find clues to the final literary shaping of the proto Masoretic text likely under the Hasmonean monarchy **The Formation of the Biblical Canon: Volume 2** Lee Martin McDonald, 2017-01-26 Lee Martin McDonald provides a magisterial overview of the development of the biblical canon the emergence of the list of

individual texts that constitutes the Christian bible In these two volumes in sum more than double the length of his previous works McDonald presents his most in depth overview to date McDonald shows students and researchers how the list of texts that constitute the bible was once far more fluid than it is today and guides readers through the minefield of different texts different versions and the different lists of texts considered canonical that abounded in antiquity Questions of the origin and transmission of texts are introduced as well as consideration of innovations in the presentation of texts collections of documents archaeological finds and Church councils In the first volume McDonald reexamines issues of canon formation once considered settled and sets the range of texts that make up the Hebrew Bible or Old Testament in their broader context Each individual text is discussed as are the cultural political and historical situations surrounding them This second volume considers the New Testament and the range of so called apocryphal gospels that were written in early centuries and used by many Christian groups before the canon was closed Also included are comprehensive appendices which show various canon lists for both Old and New Testaments and for the bible as a whole
