Manufacturing and Energy Sustainability A.N.R. Reddy, Deepak Marla, Margarita N. Favorskaya, Suresh Chandra Satapathy, 2021-04-02 This book includes best selected high quality research papers presented at the International Conference on Intelligent Manufacturing and Energy Sustainability ICIMES 2020 held at the Department of Mechanical Engineering, Malla Reddy College of Engineering Technology, MRCET Maisammaguda, Hyderabad, India, during August 21-22, 2020. Mobility and Migration in Film and Moving Image Art Nilgun Bayraktar, 2015-12-07 Mobility and Migration in Film and Moving Image Art explores cinematic and artistic representations of migration and mobility in Europe from the 1990s to today. Drawing on theories of migrant and diasporic cinema, moving image art and mobility studies, Bayraktar provides historically situated close readings of films, videos and cinematic installations that concern migratory networks and infrastructures across Europe, the Middle East and Africa. Probing the notion of Europe as a coherent entity and a borderless space, this interdisciplinary study investigates the ways in which European ideals of mobility and fluidity are deeply enmeshed with forced migration, illegalization and xenophobia. With a specific focus on distinct forms of mobility such as labor migration, postcolonial migration, tourism and refugee mobilities, Bayraktar studies the new counter-hegemonic imaginations invoked by the work of filmmakers such as Ayşe Polat, Fatih Akin, Michael Haneke and Tony Gatlif, as well as video essays and installations of artists such as Kutlu Ataman, Ursula Biemann, Ergin Avcu, Maria Iorio and Raphaël Cuomo. Challenging aesthetic as well as national, cultural and political boundaries, the works central to this book envision Europe as a diverse, inclusive and unfixed continent that is reimagined from many elsewhere, well beyond its borders. **Power and**

Literature Florin Oprescu, 2018-08-21 At the core of this book lies the relation between Power as a socio-political phenomenon and the novel as literary discourse. It shows that in a society facing the excess of power in its various forms, novelistic fiction mediates knowledge about societal Power structures and uses specific strategies to subvert and denounce them. The first part of the study is theoretical; it presents some of the most prominent theories of Power from Plato, Machiavelli, Nietzsche to Weber, Dahl, Lukes, Parsons, Bourdieu or Foucault. After offering a critical approach to the concepts of Power defined in the

social political and philosophical fields it articulates the relations of Power imprinted in literary discourse within a typology of four categories In the second part of the book this taxonomy of Power is applied to four key novels in the context of Romanian literary crossroads showing how novelistic fiction not only assume a critical and subversive position against the excess of Power but also unveils our fragility when experiencing History **Technology and Reality** J.K.

Feibleman,2012-12-06 In the following pages I have endeavored to show the impact on philosophy of tech nology and science more specifically I have tried to make up for the neglect by the classical philosophers of the historic role of technology and also to suggest what positive effects on philosophy the ahmost daily advances in the physical sciences might have Above all I wanted to remind the ontologist of his debt to the artificer tech nology with its recent gigantic achievements has introduced a new ingredient into the world and so is sure to influence our knowledge of what there is This book then could as well have been called Ethnotechnology An Explanation of Human Behavior by Means of Material Culture but the picture is a complex one and there are many more special problems that need to be prominently featured in the discussion Human culture never goes forward on all fronts at the same time In our era it is unquestionably not only technology but also the sciences which are making the most rapid progress Philosophy has not been very successful at keeping up with them As a consequence there is an enormous gulf between scientists and philosophers today a gulf which is as large as it has ever been 1 I can see that with science moving so rapidly its current lessons for philosophy might well be outmoded tomorrow **No More Masterpieces**

Lucy Bradnock,2021-01-01 This groundbreaking account of postwar American art traces the profound influence of Antonin Artaud Proposing an original reassessment of art from the 1950s to the 1970s No More Masterpieces reveals how artistic practice in postwar America was profoundly shaped by the work of the rebellious French poet and dramatist Antonin Artaud 1896 1948 A generation of artists mobilized Artaud s countercultural ideas to imagine new forms of representation and to redefine the relationship between artist and audience The book shows how Artaud s radical writings inspired the experimental theatrical work of John Cage Rachel Rosenthal and Allan Kaprow the attack on artistic and social conventions launched by assemblage artists Wallace Berman and Bruce Conner and the feminist work of Carolee Schneemann and Nancy Spero Lucy Bradnock traces the dissemination of Artaud s writings in America and demonstrates how his interest in political and cultural disorder the dangers of authority and the unreliability of representation found fertile ground in the context of the Cold War disillusionment with the ideals of Abstract Expressionism and the early years of identity politics
