Sbrega, 2015-06-12 With over 5 200 entries this volume remains one of the most extensive annotated bibliographies on the USA's fight against Japan in the Second World War Including books articles and declassified documents up to the end of 1987 the book is organized into six categories Part 1 presents reference works including encyclopedias pictorial accounts military histories East Asian histories historiographies Part 2 covers diplomatic political aspects of the war against Japan Part 3 contains sources on the economic and legal aspects of the war against Japan Part 4 presents sources on the military aspects of the war embracing land air and sea forces Religious aspects of the war are covered in Part 5 and Part 6 deals with the social and cultural aspects including substantial sections on the treatment of Japanese minorities in the USA Hawaii Canada and Peru *Naval Eyewitnesses* James Goulty, 2022-11-04 Goulty tells the story from the perspective of the ordinary sailor or officer who was there The Northern Mariner Although many books have been written about naval actions during the Second World War histories and memoirs in particular few books have attempted to encompass the extraordinary variety of the experience of the war at sea That is why James Goulty's vivid survey is of such value Sailors in the Royal Navy and the Merchant Navy experienced a war fought on a massive scale on every ocean of the world in a diverse range of vessels from battleships aircraft carriers and submarines to merchant ships and fishing boats Their recollections are as varied as the ships they served in and they take the reader through the entire maritime war as it was perceived at the time by those who had direct personal knowledge of it Throughout the book the emphasis is on the experience of individuals their recruitment and training their expectations and the reality they encountered on active service in many different offensive and defensive roles including convoy duty and coastal defence amphibious operations hunting U boats and surface raiders mine sweeping and manning landing and rescue craft A particularly graphic section describes in the words of the sailors themselves what action against the enemy felt like and the impact of casualties seamen who were wounded or killed on board or were lost when their ships sank A fascinating inside view of the maritime warfare emerges which may be less heroic than the image created by some post war accounts but it gives readers today a much more realistic impression of the whole gamut of wartime life at sea The Era of World War II Louise A. Arnold-Friend, 1979 **Blowing up the Rock: German, Italian and Spanish Sabotage attacks on Gibraltar during the Second World War** Bernard O'Connor, 2020-01-05 During the Second World War Gibraltar faced the threat of invasion by Italy Germany and Spain The Abwehr the German Intelligence Service rather than use their own saboteurs paid young Spanish men to undertake over

sixty sabotage attacks on military installations and shipping with limited success The Italian Decima Flotilla MAS a specialist team of underwater frogmen launched eight attacks which were relatively successful and Spanish Falangists made several unsuccessful attempts The British Secret Intelligence Service endeavoured to stop or at least limit such attacks Using contemporary files from the National Archives in Kew autobiographies biographies histories and newspaper articles this documentary history investigates the successes and failures of these attacks on Gibraltar and the roles played by intelligence officers agents double agents in discovering and preventing such acts The book sheds light on an unusual and largely overlooked aspect of Gibraltar s history
