

The background of the cover is a painting of a serene landscape. In the foreground, a calm body of water reflects the sky and the distant shore. A dark, silhouetted tree stands on the shore, its form reflected in the water. A vibrant rainbow arches over the tree, its colors blending into the soft, hazy sky. The overall mood is peaceful and contemplative.

THE FUGITIVE SELF

New and Selected Poems by
John Wheatcroft

The Fugitive Self

Alan Levine, Daniel S. Malachuk

The Fugitive Self:

The Fugitive Poets William Pratt, 1991-12-03 The indispensable anthology of poetry from the Fugitive group this collection chronicles the impact of literary modernism on these Southern poets as their region took a backward glance before coming to terms with the modern world Southern Classics Series

The Self-Liberation of Parson Sykes David J. Mason, 2022-09-30 The Self Liberation of Parson Sykes is a documentary novel based on a true story and actual events and was drawn from a variety of historic sources including published government materials and family chronicles A trilogy the story profiles Private Parson Sykes evolution from enslavement in Southampton County Virginia followed by his enlistment into the Union Army and culminating with his emancipation and return to the county The initial part subtitled Enslavement in Southampton County Virginia of the trilogy takes place in 1864 near the end of the American Civil War on the slave holding Jacob Williams middle class family farm in Southampton County Virginia During the 1831 Southampton Insurrection the farm came under attack by Nat Turner and his insurgents which haunts Jacob Before the Civil War started Parson began discussing human rights and the political implications of the abolition of slavery with his two brothers In December 1864 he planned to liberate himself by running away from Jacob Williams farm and following an eastward path along the Seaboard and Roanoke Railroad to reach Norfolk Virginia which was a Union occupied city Upon reaching Norfolk and in the hands of Union troops Parson had liberated himself from bondage The Self Liberation of Parson Sykes also functions to draw attention to the important role Black soldiers and their White officers played during the Civil War as members of United States Colored Troops USCT Though less heralded the USCT regiments were the precursors to Black army units famously nicknamed as the Buffalo Soldiers Smoked Yankees the Harlem Hell Fighters Tuskegee Airmen and the Red Ball Express

A Political Companion to Ralph Waldo Emerson Alan M. Levine, Daniel S. Malachuk, 2011-09-16 From before the Civil War until his death in 1882 Ralph Waldo Emerson was renowned and renounced as one of the United States most prominent abolitionists and as a leading visionary of the nation's liberal democratic future Following his death however both Emerson's political activism and his political thought faded from public memory replaced by the myth of the genteel man of letters and the detached sage of individualism In the 1990s scholars rediscovered Emerson's antislavery writings and began reviving his legacy as a political activist A Political Companion to Ralph Waldo Emerson is the first collection to evaluate Emerson's political thought in light of his recently rediscovered political activism What were Emerson's politics A Political Companion to Ralph Waldo Emerson authoritatively answers this question with seminal essays by some of the most prominent thinkers ever to write about Emerson Stanley Cavell George Kateb Judith N Shklar and Wilson Carey McWilliams as well as many of today's leading Emerson scholars With an introduction that effectively destroys the pernicious myth about Emerson's apolitical individualism by editors Alan M Levine and Daniel S Malachuk this volume reassesses Emerson's famous theory of self reliance in light of his antislavery politics demonstrates the importance of transcendentalism to his politics and explores the

enduring significance of his thought for liberal democracy Including a substantial bibliography of work on Emerson s politics over the last century A Political Companion to Ralph Waldo Emerson is an indispensable resource for students of Emerson American literature and American political thought as well as for those who wrestle with the fundamental challenges of democracy and liberalism

Rites of August First Jeffrey R. Kerr-Ritchie,2007-08-01 Thirty years before Lincoln issued the Emancipation Proclamation the antislavery movement won its first victory in the British Parliament On August 1 1834 the Abolition of Slavery Bill took effect ending colonial slavery throughout the British Empire Over the next three decades August First Day also known as West India Day and Emancipation Day became the most important annual celebration of emancipation among people of African descent in the northern United States the British Caribbean Canada West and the United Kingdom and played a critical role in popular mobilization against American slavery In Rites of August First J R Kerr Ritchie provides the first detailed analysis of the origins nature and consequences of this important commemoration that helped to shape the age of Anglo American emancipation Combining social cultural and political history Kerr Ritchie discusses the ideological and cultural representations of August First Day in print oratory and visual images Spanning the Western hemisphere Kerr Ritchie s study successfully unravels the cultural politics of emancipation celebrations analyzing the social practices informed by public ritual symbol and spectacle designed to elicit feelings of common identity among blacks in the Atlantic World Rites of August First shows how and why the commemorative events changed between British emancipation and the freeing of slaves in the United States a generation later while also examining the connections among local regional and international commemorations While shedding light on an important black institution that has been long ignored Rites of August First also contributes to the broader study of emancipation and black Atlantic identity Its transnational approach challenges local and national narratives that have largely shaped previous investigations of these questions Kerr Ritchie shows how culture and community were truly political at this important historical moment and most broadly how politics and culture converge and profoundly influence each other

Social Cognition, Motivation, and Interaction: How Do People Respond to Threats in Social Interactions? Eva Jonas,Christina Mühlberger,2018-01-12 If we want to understand people s responses to threats in social interactions we can distinguish between three levels of analysis On a social level of analysis we can describe people s interpersonal behavior on a cognitive level we can identify corresponding information processing mechanisms and on a neural level we can specify neural systems which underlie these processes In this Research Topic we want to present research connecting these three levels of analysis and propose their functional interconnection in social interaction We propose that threats in social interactions activate basic motivational processes which manifest in neural processes related to behavioral inhibition vs activation in a social situation This shapes our attention to new information and affects our cognitions about social identities belief systems and worldviews These changes in social cognition in turn affect people s behavior in social interactions and lead to corresponding reactions on

behalf of the interaction partner Thus we assume that people s reactions to threat in interactions can be described as sequences of broader attentional processes resulting from basic motivational tendencies leading to specific social cognitions and subsequent behavior within social interactions We can analyze this sequence in order to contribute to a better understanding of social interactions The three levels of analyses social cognitive neural shed light on social interactions from different angles On the social level we can analyze how the behaviors of the interaction partners mutually affect each other and how this is accompanied by specific cognitive emotional and motivational processes On the cognitive level we can analyze people s perception of a social situation leading to attentional and reasoning processes with regard to their interaction partner s which may be accompanied by certain emotional and motivational processes and determines the behavior towards the partner s Finally we can focus on the neural mechanisms underlying cognitive emotional and motivational processes in social interactions

The Statutory Rules and Orders Revised Great Britain,1951 *The Most Absolute Abolition* Jesse Olsavsky,2022-08-17 Jesse Olsavsky s *The Most Absolute Abolition* tells the dramatic story of how vigilance committees organized the Underground Railroad and revolutionized the abolitionist movement These groups based primarily in northeastern cities defended Black neighborhoods from police and slave catchers As the urban wing of the Underground Railroad they helped as many as ten thousand refugees building an elaborate network of like minded sympathizers across boundaries of nation gender race and class Olsavsky reveals how the committees cultivated a movement of ideas animated by a motley assortment of agitators and intellectuals including famous figures such as Frederick Douglass Harriet Tubman and Henry David Thoreau who shared critical information with one another Formerly enslaved runaways who grasped the economy of slavery developed their own political imaginations and communicated strategies of resistance to abolitionists serve as the book s central focus The dialogues between fugitives and abolitionists further radicalized the latter s tactics and inspired novel forms of feminism prison reform and utopian constructs These notions transformed abolitionism into a revolutionary movement one at the heart of the crises that culminated in the Civil War

Tropical Freedom Ikuko Asaka,2017-10-19 In *Tropical Freedom* Ikuko Asaka engages in a hemispheric examination of the intersection of emancipation and settler colonialism in North America Asaka shows how from the late eighteenth century through Reconstruction emancipation efforts in the United States and present day Canada were accompanied by attempts to relocate freed blacks to tropical regions as black bodies were deemed to be more physiologically compatible with tropical climates This logic conceived of freedom as a racially segregated condition based upon geography and climate Regardless of whether freed people became tenant farmers in Sierra Leone or plantation laborers throughout the Caribbean their relocation would provide whites with a monopoly over the benefits of settling indigenous land in temperate zones throughout North America At the same time black activists and intellectuals contested these geographic based controls by developing alternative discourses on race and the environment By tracing these negotiations of the transnational racialization of freedom Asaka

demonstrates the importance of considering settler colonialism and black freedom together while complicating the prevailing frames through which the intertwined histories of British and U S emancipation and colonialism have been understood

To Tell a Free Story William L. Andrews, 2022-10-17 *To Tell A Free Story* traces in unprecedented detail the history of Black autobiography from the colonial era through Emancipation Beginning with the 1760 narrative by Briton Hammond William L. Andrews explores first person public writings by Black Americans Andrews includes but also goes beyond slave narratives to analyze spiritual biographies criminal confessions captivity stories travel accounts interviews and memoirs As he shows Black writers continuously faced the fact that northern whites often refused to accept their stories and memories as sincere and especially distrusted portraits of southern whites as inhuman Black writers had to silence parts of their stories or rely on subversive methods to make facts tellable while contending with the sensibilities of the white editors publishers and readers they relied upon and hoped to reach

The Political Poetess Tricia Lootens, 2016-12-20 *The Political Poetess* challenges familiar accounts of the figure of the nineteenth century Poetess offering new readings of Poetess performance and criticism In performing the Poetry of Woman the mythic Poetess has long staked her claims as a creature of separate spheres one exempt from emerging readings of nineteenth century women s political poetics Turning such assumptions on their heads Tricia Lootens models a nineteenth century domestic or private sphere whose imaginary apolitical heart is also the heart of nation and empire and as revisionist histories increasingly attest is traumatized and haunted by histories of slavery Setting aside late Victorian attempts to forget the unfulfilled sentimental promises of early antislavery victories *The Political Poetess* restores Poetess performances like Julia Ward Howe s *Battle Hymn of the Republic* and Emma Lazarus s *The New Colossus* to view and with them the vitality of the Black Poetess within African American public life Crossing boundaries of nation period and discipline to connect the dots of Poetess performance Lootens demonstrates how new histories and ways of reading position poetic texts by Felicia Dorothea Hemans Elizabeth Barrett Browning Dinah Mulock Craik George Eliot and Frances E W Harper as convergence points for larger engagements ranging from Germaine de Sta l to G W F Hegel Virginia Woolf Elizabeth Bishop Alice Walker and beyond
