Political Parties and the Maintenance of Liberal Democracy Kelly D. Patterson, 1996 The highly publicized obscenity trial of Radclyffe Hall s *The Well of Loneliness* 1928 is generally recognized as the crystallizing moment in the construction of a visible modern English lesbian culture marking a great divide between innocence and deviance private and public New Woman and Modern Lesbian Yet despite unreserved agreement on the importance of this cultural moment previous studies often reductively distort our reading of the formation of early twentieth century lesbian identity either by neglecting to examine in detail the developments leading up to the ban or by framing events in too broad a context against other cultural phenomena Fashioning Sapphism locates the novelist Radclyffe Hall and other prominent lesbians including the pioneer in women s policing Mary Allen the artist Gluck and the writer Bryher within English modernity through the multiple sites of law sexology fashion and literary and visual representation thus tracing the emergence of a modern English lesbian subculture in the first two decades of the twentieth century Drawing on extensive new archival research the book

Challenges to Party Government John Kenneth White, Jerome M. Mileur, 1992 Former British Prime Minister Benjamin Disraeli once commented that in times of great political change and rapid political transition it will generally be observed that political parties find it convenient to rebaptize themselves Fifty years after the publication of E E Schattschneider's *Party Government* and forty two years after the publication of *Toward a More Responsible Two Party System* distinguished scholars including Everett Carl Ladd Wilson Carey McWilliams John S Jackson III Sidney M Milkis and scholar congressmen David E Price D NC and William M Thomas R CA reevaluate the long standing assumptions that surround the responsible parties argument In this collection of essays edited by John Kenneth White and Jerome M Mileur contributors voice their perspectives on the challenges confronting the party system of government in the United States Elections in which the party system fails to frame issues satisfactorily and the rise of an American state without the helping hand of parties to run it have all contributed to a political crisis of confidence in party government Indeed White recently termed Ross Perot's candidacy a wake up call for Democrats and Republicans Still while their analysis of current party government acknowledges problems these authors favor a resurgence of the party system arguing that political parties are the indispensable instruments of communication between our country's voters and their elected officials For those political scientists elected officials and voters who share their wish immersing these once grand institutions into the born again waters of a Disraeli type baptism remains the single most important challenge of the decade ahead

Shapiro, 2012-06-04 Getting past No in an age of partisan noise In an age when partisan politics has reached a deafening and arguably impotent pitch how does the real work of politics get done This book opens the door on backroom politics and gives readers an insider's perspective on the efforts of policymakers from three presidential administrations to get past the naysayers and effect real and lasting policy changes The editors take a comparative approach offering a thorough overview of policymaking during the Clinton and George W Bush administrations with further discussion of President Obama's successful and failed attempts to build coalitions and get past no The contributors a national network of prominent political scientists reveal the sausage making of politics and policy Readers can almost see the political players in the proverbial smoke filled room shirtsleeves rolled up and BlackBerrys in hand developing the strategies and hammering out the compromises designed to hold the party base while winning over independent voters Combining an insider's perspective with actual case studies the volume examines the policymaking behind such programs as No Child Left Behind tax cuts Social Security privatization Medicare prescription drug reform education and immigration reform environmental policy judicial politics national security Covering all major areas of policymaking *Building Coalitions Making Policy* gives instructors in political science public administration and policy
