Globalization and Environmental Challenges Hans Günter Brauch, Úrsula Oswald Spring, Czesław Mesjasz, John Grin, Pál Dunay, Navnita Chadha Behera, Béchir Chourou, Patricia Kameri-Mbote, P. H. Liotta, 2008-01-23 Put quite simply the twin impacts of globalization and environmental degradation pose new security dangers and concerns In this new work on global security thinking 91 authors from five continents and many disciplines from science and practice assess the worldwide reassessment of the meaning of security triggered by the end of the Cold War and globalization as well as the multifarious impacts of global environmental change in the early 21st century

The Modern Defense Industry Richard A. Bitzinger, 2009-10-15 Whether it's guns and ammunition or multidimensional anti terrorism systems the defense industry is dynamic complex and ubiquitous It is also mysterious powerful and controversial involving thousands of players worldwide from suppliers and producers to government and military procurers to shadowy figures that trade in the black market This comprehensive two volume reference will explore on a global scale the various issues concepts problems and controversies surrounding the rise of the modern defense industry Unparalleled in its scope and insight The Modern Defense Industry will prove invaluable to the industry's critics and champions alike The phenomenon of a more or less permanent defense industry especially one so wide in scale breadth air sea land and space technology and geography is still relatively new Until now its implications for politics economics and technology have not

been adequately discussed in an authoritative accessible format for scholars and researchers business people journalists policymakers and interested laymen The Modern Defense Industry addresses the period from 1945 to the present covering the United States Europe Russia China Israel and other important arms producing and arms procuring countries Including essays by experts from around the world a glossary data on firms and governments laws and policies primary documents case studies and a host of other elements this set will be a unique resource for anyone interested in the arms industry It will also offer penetrating insights into topics like international relations and diplomacy arms proliferation and contemporary politics Volume I comprises chapters by experts in the field on topics like the relationship between the industry military and government how new modes of warfare are changing the industry the implications of globalization on the industry the black and gray areas of the arms trade and much more Volume II features an extensive A Z glossary of terms lists of defense firms and government agencies annotated primary documents lists of leading defense contractors and key weapons systems an analysis of key legislation and professional organizations The Modern Defense Industry sets the standard for state of the art overviews of an industry that has for better or worse come to infuse nearly every aspect of world affairs in the early twenty first century

Mathematical Modelling for Sustainable Development Marion Hersch, 2006-01-02 Many people are convinced that Sustainable Development and Mathematics are completely unrelated Sustainable Development in its role of a value laden imperative for polluting and over consuming societies seems to be totally unconnected to mathematical reasoning and ignorant of the values behind its symbols Still they are not only connected they need each other Mathematics needs Sustainable Development When science was gradually reinvented in European medieval societies it was legitimised as contributing to the disclosure of God s divine creation The conflicts that emerged became well known as a result of the clash between Galileo and the Church Science found a new legitimacy through recognition that it was a powerful force against superstition In the Enlightenment the argument was pushed forward by attributing Progress to the advancement of science science could produce a better world by promoting rationality In our modern society science has become intimately linked to technology Science for its own sake unfortunately rarely has positive outcomes in terms of research grant applications Meanwhile science and technology and the progress they are supposed to produce meet with wide scale scepticism We all know of the current global problems climate change resource depletion a thinning ozone layer space debris declining biodiversity malnutrition dying ecosystems global inequity and the risk of unprecedented nuclear wars Science has to engage with these problems or lose its legitimacy

Military and Democracy in Nepal Indra Adhikari, 2015-06-12 This book explores the development of the military as an organization and looks at the patterns of civil military relations that have emerged in modern Nepal especially after the rise of King Prithvi Narayan Shah who founded the unified state of Nepal It combines astute analyses with up to date data to present a comprehensive account of the relations between monarchy military and civil government and their impact on the democratization process in the country The author underlines the pressing need for

establishing civilian supremacy over the military through developing and strengthening civilian supervisory mechanisms The book will be an important resource to researchers scholars students of politics military studies peace and conflict studies and history particularly those concerned with Nepal It will also interest policy makers security experts and military personnel

That Sweet Enemy Robert Tombs, Isabelle Tombs, 2009-06-17 That Sweet Enemy brings both British wit Robert Tombs is a British historian and French panache Isabelle Tombs is a French historian to bear on three centuries of the history of Britain and France From Waterloo to Chirac's slandering of British cooking the authors chart this cross channel entanglement and the unparalleled breadth of cultural economic and political influence it has wrought on both sides illuminating the complex and sometimes contradictory aspects of this relationship rivalry enmity and misapprehension mixed with envy admiration and genuine affection and the myriad ways it has shaped the modern world Written with wit and elegance and illustrated with delightful images and cartoons from both sides of the Channel That Sweet Enemy is a unique and immensely enjoyable history destined to become a classic

America: The New Imperialism Victor G. Kiernan, 2020-05-05 The invasion and occupation of Iraq have sparked considerable discussion about the nature of American imperialism but most of it is focused on the short term The classical historical approach of this book provides a convincing and compelling analysis of the different phases of American imperialism which have now led to America becoming a global hegemon without any serious rivals Victor Kiernan one of the world's most respected historians has used his nuanced knowledge of history literature and politics to trace the evolution of the American Empire he includes accounts of relations between Indians and white settlers readings of the work of Melville and Whitman and an analysis of the way that money and politics became so closely intertwined Eric Hobsbawm's preface provides an insight into his own thoughts on American imperialism and a valuable introduction to Victor Kiernan's work Together they shed useful light on today's urgent debates about the uses and misuses of seemingly unlimited military power a lack of respect for international agreements and the right to pre-emptive defense

Good-Bye Hegemony! Simon Reich, Richard Ned Lebow, 2014-03-23 Many policymakers

journalists and scholars insist that U S hegemony is essential for warding off global chaos Good Bye Hegemony argues that hegemony is a fiction propagated to support a large defense establishment justify American claims to world leadership and buttress the self esteem of voters It is also contrary to American interests and the global order Simon Reich and Richard Ned Lebow argue that hegemony should instead find expression in agenda setting economic custodianship and the sponsorship of global initiatives Today these functions are diffused through the system with European countries China and lesser powers making important contributions In contrast the United States has often been a source of political and economic instability Rejecting the focus on power common to American realists and liberals the authors offer a novel analysis of influence In the process they differentiate influence from power and power from material resources Their analysis shows why the United States the greatest power the world has ever seen is increasingly incapable of translating its power into influence Reich and Lebow use their analysis to formulate a more realistic place for America in world affairs Non-Proliferation Export

Controls Daniel Joyner,2017-03-02 This volume provides a comprehensive and interdisciplinary examination of the Multilateral Non Proliferation Export Control system and the national and international context within which it functions Key features **Asia-Pacific Geopolitics** Joseph A. Camilleri,2007-01-01 Despite significant cultural exchange mutual trust and understanding remains fragile between Asia Pacific countries The community faces complex and seemingly intractable problems violent civil conflicts geopolitical tensions and economic uncertainties proliferation of nuclear weapons and flashpoints that may lead to war The authors of this book argue that common reflection and dialogue is imperative Their achieved aim is to bring together distinguished scholars and experts on public policy social ethics defence human security and sustainability to consider the future of the Asia Pacific region and appropriate responses by both states and civil society

Conceptual and Contextual Perspectives on the Modern Law of Treaties Michael J. Bowman,Dino Kritsiotis,2018-10-31 In recent years there has been a flourishing body of work on the Law of Treaties crucial for all fields within international law However scholarship on modern treaty law falls into two distinct strands which have not previously been effectively synthesized One concerns the investigation of concepts which are fundamental to or inherent in the law of treaties generally such as consent object and purpose breach of obligation and provisional application while the other focuses upon the application of treaties and of treaty law in particular substantive e g human rights international humanitarian law investment protection environmental regulation or institutional contexts including the Security Council the World Health Organization the International Labour Organization and the World Trade Organization This volume represents the culmination of a series of collaborative explorations by leading experts into the operation development and effectiveness of the modern law of treaties as viewed through these contrasting perspectives *The Treaty on Conventional Armed Forces in Europe* Mark Wilcox,2024-03-04 This work examines the CFE Treaty as a factor in Russia s foreign and security policy Moscow showed amazing persistence in their relationship with the cornerstone of European security Their approach to the treaty was a

genuine attempt to shape the security environment in Europe and the former USSR The treaty also enabled the dismantling of large conventional forces as they returned from Eastern Europe and transitioned into the armies of the newly independent states of the former USSR The CFE Treaty though proved ineffective at constraining the enlargement of NATO Simultaneously Moscow's foreign and security policy evolved from one that focused on the domestic development of the country to that of a more confident state reasserting itself as a great power Drawing extensively on primary sources and analyses by Russian authors this book employs two historical narratives case studies and a conceptual framework to show that while Moscow remained engaged with the CFE Treaty undesired effects on Russia's national interests gradually accrued at the expense of desired ones leading Vladimir Putin to withdraw Russia from the treaty as an act of decoupling from the collective West This book is relevant to scholars and policymakers who want to understand Russia's approach to arms control as an element of military security

Peter Wallensteen: A Pioneer in Making Peace Researchable Peter

Wallensteen, 2021-05-28 This book provides a broad overview of what peace research is all about by an author who has been involved in the field for more than half a century Among other things it gives a unique review of how peace research emerged in Sweden as the author was a key actor in the most crucial events during this formative period The book also portrays how the discipline has grown from an initial focus on alternatives to war to the comprehensive study of the many dimensions of a lasting and positive peace The author's own work covers causes of war sanctions conflict resolution conflict data mediation and quality peace They demonstrate the range of topics that have to be understood for a peace with quality This is exemplified by some of the author's writings specifically selected for this volume plus a few ones original to it Some accounts of the author's involvements in actual peace processes in the 1990s are also included This publication offers a substantial contribution to understanding the evolution of peace research as a field and is an important reading for scholars policy makers journalists students and any aspiring peace researcher as well as for the public at large Peter Wallensteen is a global pioneer of peace research due to his involvement in the creation of the Department of Peace and Conflict Research at Uppsala University a major center in the field He served as Head of Department from 1972 to 1999 Peter Wallensteen set up and directed the well known Uppsala Conflict Data Program UCDP the global resource for the study of armed conflicts and peace negotiations 1978-2015 Peter Wallensteen was the first holder of the Dag Hammarskjöld Chair in Peace and Conflict Research at Uppsala University 1985-2012 He was also the first holder of the position as the Richard G Starmann Sr Research Professor of Peace Studies at the Kroc Institute for International Peace Studies University of Notre Dame USA 2006-2018
