Becoming Miracle Workers Gale Miller, 2017-11-30 Brief therapy is a postmodern treatment mode that treats problems as social constructions encouraging those seeking treatment to replace personal troubles negative stories with new problem solving skills positive stories The significant differences discussed in this book do not involve sociologists and brief therapists The differences are between brief therapists on the one hand and practitioners of psychotherapy and family therapy on the other One indicator of these is brief therapists describing the people who seek their services as clients The terminology may be contrasted with the language of patients used by many other therapists At the very least this difference suggests how brief therapy departs from therapy approaches that are based on the medical model *Becoming Miracle Workers* takes the reader inside Northland Clinic one of the most innovative and important centers of brief therapy in the world Based on twelve years of research Miller's book discusses how brief therapy has evolved into its present postmodern form He describes the details of brief therapist client interactions and the behind the scenes discussions among brief therapists about their clients problems This readable account of the workings of brief therapy invites readers to sit in on brief therapy sessions provides them with new understandings of personal troubles as social constructions and shows how brief therapists help their clients develop new untroubled life stories

principles apply to those who as dearly beloved children are invited to imitate God's loving ways. God's manner of love defines the foundational basis from which the author derives and elaborates the propositions that guide the considerations pertaining to thoughts, feelings, motivations, and behaviors that enter into play in relational transactions. In terms of style, an architectural design permeates the content of this book, offering and encompassing a metacognitive view of God's covenantal ways, a top-down perspective that applies to bottom-up endeavors of relational nature. The challenges posed by our cultural postmodern trends, devoid of absolute principles and lacking a moral compass, are countered and addressed by the author in insightful fashion, offering theologically based guidelines integrated to sound psychological principles applicable to psychotherapeutic and counseling endeavors as well as to pastoral care.

Decisão: perspectivas interdisciplinares

Carlos Henggeler Antunes, 2007-07-01 Este livro revisita o ciclo de conferências sobre Decisão organizado pelo III UC INESC Coimbra e FEUC, cujas sessões tiveram lugar em Outubro e Novembro de 2005, que contaram com a participação de quatro cientistas de muito internacionalmente reconhecido: os Profs. Alexis Tsoukas (Paris), John Broome (Oxford), Ralph Keeney (Duke) e Paul Slovic (Oregon). Estes cientistas apresentaram quatro perspetivas diversas acerca do tema do ciclo: as da investigação operacional, da filosofia, da análise de decisões e da psicologia, respetivamente. Cada um dos artigos dos conferencistas convidados foi selecionado pelo seu autor como um dos que melhor representaria a perspetiva apresentada na sua palestra. O texto de Slovic descreve a importância que o afeto tem na determinação de juízos e decisões, defendendo que a confiança depositada nesses sentimentos pode ser caracterizada como uma heurística afetiva. O artigo de Tsoukas apresenta uma visão retrospectiva sobre a evolução da teoria da decisão para uma metodologia de ajuda à decisão, considerando o autor que todas as teorias da decisão partilham uma característica comum: a utilização de linguagens formais e abstratas e de um modelo de racionalidade, defendendo uma abordagem científica para a ajuda à decisão em problemas enfrentados por indivíduos e organizações. O texto de Keeney sintetiza algumas das principais ideias que preconiza para intervir em situações de decisão; neste caso, em situações de definição de políticas públicas, advogando e ilustrando a importância de basear a intervenção na elicitação dos valores do público e na sua modelação através de uma função de utilidade multiatributo. O texto de Broome pretende ilustrar os moldes em que o problema de tomada de decisões pode aparecer no âmbito da Filosofia, debruçando-se sobre um tema de longo debate: entre filósofos, pode um raciocínio culminar numa ação ou apenas pode culminar numa crença. Cada um destes artigos, traduzido para a língua portuguesa, é acompanhado por um comentário de um autor português, respetivamente Armando Mónica de Oliveira, Manuel Matos João Cláudio e António Manuel Martins. O livro inclui ainda um capítulo introdutório que oferece uma breve panorâmica das disciplinas que se entrecruzam na palavra Decisão.
