Skellig Island Outpost Of Europe Island Series Dublin Ireland:

Skellig Des Lavelle,1976 *Pilgrimage in Ireland* Peter Harbison,1995-06-01 The landscape of Ireland is rich with ancient carved stone crosses tomb shrines Romanesque churches round towers sundials beehive huts Ogham stones and other monuments many of them dating from before the 12th century The purpose and function of these artifacts have often been the subject of much debate Peter Harbison proposes in this book a radical hypothesis that a great many of these relics can be explained in terms of ecclesiastical pilgrimage He has constructed a fascination theory about the palace of pilgrimage in the early Christian period placing it right at the center of communal life The monuments themselves make much better sense if it looked at in this light as having come into existence not through the practices of ascetic monks but because of the activities of pilgrims He begins by searching the historical sources in detail for evidence of early pilgrimage sites By examining their monuments he projects the findings to other locations where pilgrimage has not been documented He goes on to describe monument types of every kind and to identify pilgrims in sculpture surviving from before AD 1200 The Dingle Peninsula in Kerry proves to be a microcosm of pilgrimage monuments enabling the author to reconstruct a tradition of maritime pilgrimage activity up and down the west coast of Ireland Indeed the famous medieval traveler s tale of the fabulous voyage of the St Brendan the Navigator can now be seen as the literary expression of a longstanding maritime pilgrimage along the Atlantic seaways of Ireland and Scotland reaching Iceland Greenland and even North America The Island in Imagination and Experience Barry Smith,2022-01-01 From Treasure Island to Robben Island from the paradise of Thomas More s Utopia to Napoleon s purgatory on Elba islands have proved irresistible to mankind s imagination since time immemorial Self confessed islomaniac Barry Smith explores how islands bewitch us so and examines the kind of human experiences that islands inspire Journeying all around the globe to take in the most fascinating stories of Earth s half a million islands this book considers the unique geography politics and economics of islands and their cultures It traces their singular place in literature religion and philosophy and disentangles the myths and the facts to reveal just why islands exert such an insistent grip on the human psyche Fascinating and wide ranging Island Review A fascinating survey of the interplay between those little dots of land and the human imagination Smith is excellent on the ways in which islands have always been pawns in geopolitical games witty Geographical Magisterial A harrowing enthralling piece of work that bears comparison with John Prebble s equally dense equally passionate classic *The Highland Clearances* A fascinating scrupulous angry scholarly book Jim Perrin *The Great Outdoors* **Ireland's Coastline** Richard Nairn,2005 This book provides a comprehensive account of the natural and human history of the Irish coastline The text is illustrated with aerial views and underwater photography of a largely unseen landscape Skellig Des Lavelle,1976-01-01 Wild Shores Richard Nairn,2022-03-24 Following the Irish coast in a clockwise direction acclaimed ecologist Richard Nairn travels by boat on foot and sometimes by air to visit the best remaining wild places including islands cliffs beaches and dunes The result is a unique

mix of nature history science and a reflection on the author's personal experiences of exploring Ireland's coast. By viewing the Irish coastline from the sea, Richard gains a unique perspective on the island. And along the way, he recalls a lifetime spent studying nature. An affectionate and timely celebration of Ireland's richly varied coastline. Bryan Dobson. A great read whatever part of the coast you visit. Anna N. Lamhna. A brilliant and timely odyssey around our precious, precarious shores. Professor John Brannigan, University College Dublin. An exhilarating journey right around our coastline. Paddy Woodworth. Journalist and author. An intimate, inspiring and lovely read about Ireland's shorelines, its places and spaces. Professor Robert Devoy, Lead Editor of *The Coastal Atlas of Ireland*.

Man & Environment in Valencia Island Frank Mitchell, 1989. A vivid study of Valencia Island from the arrival of Stone Age people to the present day, drawing on ten years of intensive field research. 85 illustrations, including colour and black and white photographs. The development of the island's archaeological record and the changes in the environment are assessed as part of an interwoven pattern. This small area shows in microcosm the archaeological complexity of the surviving evidence built up during the past nine thousand years of land exploitation in Ireland and will provide an excellent model for other research projects. For all those interested in our heritage, whether cultural or environmental, it is essential and rewarding reading. Eoin Grogan, *Archaeology Ireland*. The work, as one might expect of Frank Mitchell, is imbued with his characteristic enthusiasm and is rich with his experience, insights and anecdote. As a Quaternary scientist and naturalist. R. J. Devoy, *Irish Geography*.

Old Days, Old Ways Olive Sharkey, 1985. A book of old by-gones, the tools, vessels and gadgets in everyday use. Introduction.

Honey from Stone Chet Raymo, 2005-08-25. What is the relevance of traditional religion in the world described by contemporary science? Is scientific knowledge a satisfactory ground for the religious experience? Can the language of traditional religion constitute an appropriately modern language of praise? From *Honey from Stone*, framing his meditations as a Book of Hours. Scientist Chet Raymo exercises the languages of theology and science to express the majesty of Ireland's remote Dingle Peninsula. As he wanders the land year upon year, Raymo gathers the revelations embedded in the geological and cultural history of this wild and ancient place. When I called out for the Absolute, I was answered by the wind, Raymo writes. If it was God's voice in the wind, then I heard it. In poetic prose grounded in a mind trained to discover fact, *Honey from Stone* enters the wonder of the material world in search of our deepest nature.
