make conscious decisions to recall and to have emotional perceptual behavioral expressions and motor skills The genetically modified virus continues to be deceptively used as a conveyance to destroy the foundation of civilization by overseeing the alteration of human behavior using the psychology of fear and panic But reprehensible dictators always look for a more permanent solution than brain washing What if the division of cognitive neuroscience was exploited by a tyrannical techno scientist one who had authority to modernize the old lobotomy in essentially a noninvasive way reinventing it for the reason of conforming humanity's behavior This is why neuroscience is of interest to the engineers of artificial intelligence As there are already neural implants in use neuroethicists caution us that while hacking microchips is criminal violating a person is villainous It is a time of dark medicine of conjuring up potions profiting from pestilence and seeking prophets
