Living On The Edge Ken Paffrath, 2014-04 We all are Living on the Edge Sometimes we fall off the edge sometimes we decide to change edges Regardless life on the edge can be exciting and fraught with many perils Many times we stop Living on the Edge to contemplate where we have been and what lies ahead Ken Paffrath's life has experienced many ups and downs and is reflected in his poetry Poetry which is introspective suicidal humourous spiritual environmental thought provoking or nonsensical It is a chronicle of life in poetry dreams heartbreaks ups and downs In reading Living on the Edge it is hoped that you may identify in some small way with the author

My Driver Tulong M P Joseph, 2017-02-20 The author M P Joseph a Civil Servant from the distant Indian state of Kerala spent many delightful years in Cambodia working for the UN when the country had just morphed from a war torn Communist moth into a fascinating free market butterfly Through mesmerizing characters who personify the ancient soul of Cambodia and epitomize its modernizing mind the author conjures up a vision of contemporary Cambodia and its people Their lives and loves their joys and tribulations their hopes and their anguish and most of all their innocence is captured in these delightfully inter connected stories The characters come alive to etch a never before known Cambodia Written with a Maughamian touch the book delves deep into the soul of Cambodia a soul moulded by the ancient culture of Angkor and shaped by the more recent excesses of Pol Pot The fortitude of its people their pluck and their courage in the face of adversities their survival skills as well as Cambodia's Indian past both Hindu and Buddhist and its present Indo Chinese zest are woven seamlessly into the stories The book is an amusing essay into the modern soul of this ancient land Now populated by a GenNext who cannot yet forget their chilling past the book is a journey into the heart of its people A heart of innocence The authors Valentinian love for Cambodia his honed observation and delightful humour makes this fictional stretched travelogue a genre apart A must read for everyone whether a traveller or not interested in South East Asia Indo China or Cambodia

Mirror Worlds David Gelernter, 1993-01-28 Technology doesn't flow smoothly it's the big surprises that matter and Yale computer expert David Gelernter sees one such giant leap right on the horizon Today's small scale software programs are about to be joined by vast public software works that will revolutionize computing and transform society as a whole One such vast program is the Mirror World Imagine looking at your computer screen and seeing reality an image of your city for instance complete with moving traffic patterns or a picture that sketches the state of an entire far flung corporation at this second These representations are called Mirror Worlds and according to Gelernter they will soon be available to everyone Mirror Worlds are high tech voodoo dolls by interacting with the images you interact with reality Indeed Mirror Worlds will revolutionize the use of computers transforming them from mere handy tools to crystal balls which will allow us to see the world more vividly and see into it more deeply Reality will be replaced gradually piece by piece by a software imitation we will live inside the imitation and the surprising thing is this will be a great humanistic advance We gain control over our world plus a huge new measure of insight and vision In this

fascinating book part speculation part explanation Gelernter takes us on a tour of the computer technology of the near future Mirror Worlds he contends will allow us to explore the world in unprecedented depth and detail without ever changing out of our pajamas A hospital administrator might wander through an entire medical complex via a desktop computer Any citizen might explore the performance of the local schools chat electronically with teachers and other Mirror World visitors plant software agents to report back on interesting topics decide to run for the local school board hire a campaign manager and conduct the better part of the campaign itself all by interacting with the Mirror World Gelernter doesn't just speculate about how this amazing new software will be used he shows us how it will be made explaining carefully and in detail how to build a Mirror World using technology already available We learn about disembodied machines trellises ensembles and other computer components which sound obscure but which Gelernter explains using familiar metaphors and terms He tells us that a Mirror World is a microcosm just like a Japanese garden or a Gothic cathedral and that a computer program is translated by the computer in the same way a symphony is translated by a violinist into music Mirror Worlds offers a lucid and humanistic account of the coming software revolution told by a computer scientist at the cutting edge of his field

William Barnard,2012-04-01 Winner of the 2012 Godbey Authors Awards presented by the Godbey Lecture Series in Southern Methodist University's Dedman College of Humanities and Sciences Living Consciousness examines the brilliant but now largely ignored insights of French philosopher Henri Bergson 1859-1941 Presenting a detailed and accessible analysis of Bergson's thought G William Barnard highlights how Bergson's understanding of the nature of consciousness and in particular its relationship to the physical world remain strikingly relevant to numerous contemporary fields These range from quantum physics and process thought to philosophy of mind depth psychology transpersonal theory and religious studies Bergson's notion of consciousness as a ceaselessly dynamic inherently temporal substance of reality itself provides a vision that can function as a persuasive alternative to mechanistic and reductionistic understandings of consciousness and reality Throughout the work Barnard offers ruminations or neo-Bergsonian responses to a series of vitally important questions such as What does it mean to live consciously authentically and attuned to our inner depths Is there a philosophically sophisticated way to claim that the survival of consciousness after physical death is not only possible but likely The Last of Kal Will Mathison,2011-02-14 Written and illustrated by 11 year old Will Mathison The Last of Kal is the first book in a series about adventures in the land of Liolia Speilton is all alone after his village is destroyed Left with nothing but a small blue egg and instructions to go North into unknown lands he begins a journey that changes his life forever Along the way he meets challenges finds new friends and realizes he had more strength and courage than he could have ever imagined All proceeds from the sale of this book will be donated to Relay for Life

A Collection of Words Dustin Carr,2012-05-29 This book contains a mere collection of poetry letters and other works that have been compiled over time The author has written over time based on circumstance and feeling You will find that some of the pieces of works are dated and others are not never fear all that means is that the time was never recorded or simply the original was lost and I found a copy If there are any other dated pieces of works that are especially vague that just means that it was not labeled but I knew the general date when I wrote it Please keep in mind that the names have been changed to protect both myself and who they are written to for or about You may find some opinionated text about certain parties but such is the nature of the text that it is in There is not much else to say but the fact that as you read this book I hope you enjoy my life my thoughts my feelings but most of all I hope you enjoy the beautiful art of creative writing
