Rotberg, 2001 This collection looks at the many dimensions of the study of populations and population movements A Family Venture Joan E. Cashin, 1991-10-24 This book is about the different ways that men and women experienced migration from the Southern seaboard to the antebellum Southern frontier Based upon extensive research in planter family papers Cashin studies how the sexes went to the frontier with diverging agendas men tried to escape the family while women tried to preserve it On the frontier men usually settled far from relatives leaving women lonely and disoriented in a strange environment As kinship networks broke down sex roles changed and relations between men and women became more inequitable Migration also changed race relations because many men abandoned paternalistic race relations and abused their slaves However many women continued to practice paternalism and a few even sympathized with slaves as they never had before Drawing on rich archival sources Cashin examines the decision of families to migrate the effects of migration on planter family life and the way old ties were maintained and new ones formed **The Family System of the Paramaribo Creoles** Willem F.L. The Family in Past Perspective Ellen J. Kendall, Ross Kendall, 2021-05-30 This volume takes a more comprehensive view of past familial dynamics than has been previously attempted By applying interdisciplinary perspectives to periods ranging from the Prehistoric to the Modern it informs a wider understanding of the term family and the implications of family dynamics for children and their social networks in the past Contributors drawn from across the humanities and social sciences present research addressing three primary themes modes of kinship and familial structure the convergence and divergence between the idealised image and realities of family life and the provision of care within families These themes are interconnected as the idea and image of family shapes familial structure which in turn defines the type of care and protection that families provide to their members The papers in this volume provide new research to challenge assumptions and provoke new ways of thinking about past families as functionally adaptive socially connected and ideologically powerful units of society just as they are in the present A broad focus on the networks created by familial units also allows the experiences of historically underrepresented women and children to be highlighted in a way that underlines their interconnectedness with all members of past societies The Family in Past Perspective builds a much needed bridge across disciplinary boundaries The wide scope of the book makes important contributions and informs fields ranging from bioarchaeology to women's history and childhood studies

Routes of Remembrance Bayo Holsey,2008-09-15 Over the past fifteen years visitors from the African diaspora have flocked to Cape Coast and Elmina two towns in Ghana whose chief tourist attractions are the castles and dungeons where slaves were imprisoned before embarking for the New World This desire to commemorate the Middle Passage contrasts sharply with the silence that normally cloaks the subject within Ghana Why do Ghanaians suppress the history of enslavement And why is this history expressed so differently on the other side of the Atlantic *Routes of Remembrance* tackles these questions by analyzing the slave trade's absence from public versions of coastal Ghanaian family and community histories its troubled presentation in the country's classrooms and nationalist narratives and its elaboration by the transnational tourism industry Bayo Holsey discovers that in the past African involvement in the slave trade was used by Europeans to denigrate local residents and this stigma continues to shape the way Ghanaians imagine their historical past Today however due to international attention and the curiosity of young Ghanaians the slave trade has at last entered the public sphere transforming it from a stigmatizing history to one that holds the potential to contest global inequalities Holsey's study will be crucial to anyone involved in the global debate over how the slave trade endures in history and in memory

Family Or Freedom Emily West,2012-10-18 In the antebellum South the presence of free people of color was problematic to the white population Not only were they possible assistants to enslaved people and potential members of the labor force their very existence undermined popular justifications for slavery It is no surprise that by the end of the Civil War nine Southern states had enacted legal provisions for the voluntary enslavement of free blacks What is surprising to modern

sensibilities and perplexing to scholars is that some individuals did petition to rescind their freedom Family or Freedom investigates the incentives for free African Americans living in the antebellum South to sacrifice their liberty for a life in bondage Author Emily West looks at the many factors influencing these dire decisions from desperate poverty to the threat of expulsion and demonstrates that the desire for family unity was the most important consideration for African Americans who submitted to voluntary enslavement The first study of its kind to examine the phenomenon throughout the South this meticulously researched volume offers the most thorough exploration of this complex issue to date **The Family Treasury** William Arnot,2023-03-18 Reprint of the original first published in 1871 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost *Gaston County, North Carolina, in the Civil War* Robert C.
