Slovenia A Small Country In The Global Economy:

Slovenia Marjan Senjur, Centre for International Cooperation and Development (Slovenia), 1993 Small Countries in a Global Economy D. Salvatore, M. Svetlicic, J. Damijan, 2001-03-13 This book addresses the issues surrounding the prospects of small countries in an integrated globalized world The contributors support the thesis that the new global environment does not represent a twilight for small countries but recognise that the honeymoon has not been as comfortable as others had expected They demonstrate that by entering the global arena or by consolidating into regional alliances small countries do not lose and may even gain sovereignty in areas previously closed to them *Internationalization in Central and Eastern Europe* Marin Alexandrov Marinov, 2018-04-27 This title was first published in 2002 This is a unique volume among the existing variety of publications on foreign direct investment FDI in Central and Eastern Europe CEE because it focuses on the internationalization process taking place there It addresses the rapid changes of the business climate in the region that have led to intensive internationalization of companies businesses and national economies Existing FDI books have mostly taken the perspective of attracting inward FDI flows missing the aspect of FDI outflows from CEE countries While foreign investors face the specific context of a region that poses new requirements to their internationalization strategies approaches and practices domestic companies must strive to make their businesses international Consequently the book presents the features of internationalization in CEE from home and host company and country perspectives providing a fresh perspective on this major economic problem *Handbook on Small Nations in the Global Economy* D. van den Bulcke, Alain Verbeke, Wenlong Yuan, 2009 These studies of the international competitiveness of small open economies demonstrate the critical importance of foreign direct investment as an engine of economic development multinational enterprises are the key drivers of international competitiveness Alan M Rugman University of Reading UK Globalization has made every country small The global economic crisis has made sure that every country has increasingly realised that it is open and vulnerable as well This volume is both timely and relevant Small country studies should become mainstream for scholars in business economics and politics Rob van Tulder RSM Erasmus University the Netherlands This book provides a fresh and clear eyed view of the relationship between multinationals and location advantages of countries It is one of the first attempts to build a constructive bridge between the theory of international business and the outstanding contribution of Michael Porter about the drivers of competitiveness The authors address crucial issues demanding the attention of teachers researchers practitioners and political leaders Philippe Gugler University of Fribourg Switzerland This unique extensive Handbook illustrates that multinational enterprises can contribute substantially to the competitive advantage of small countries It advances the notion that small nations increasingly need to rely on both home grown and foreign multinational enterprises to achieve domestic economic success in industries characterized by international competition The expert contributors explore the roles of firms in a range of small successful open economies driven by such multinational enterprises across the globe

They juxtapose country data sets against Professor Michael Porter's paradigm of single diamond components and show that these single diamond components reflect merely a set of initial conditions which can be improved upon through both inward and outward direct investment. Concluding that multinational enterprises create resource linkages between the home and host environments in which they operate, this Handbook proves to be a fascinating read for academics, students and researchers with an interest in business and management, economics and international economics. **Who's who in**

International Business Education and Research William F. Shepherd, Iyanatul Islam, Sankaran Raghunathan, 1999-01-01. This work is recommended for corporate libraries whose companies are involved in international business and for academic libraries affiliated with colleges of business. Kay M. Stebbins' Choice. This project is distinctive in that it really is a Who's Who rather than a directory of all scholars engaged in international business education and research. *Back To Europe* Karen

Henderson, 2005-10-09. With post-communist states applying to join the European Union, this book examines the challenges of Eastern enlargement, focusing on international relations, European institutions, economics of integration and domestic politics.

From Dreams Of 'A Second Switzerland' To Capitalism Without A Human Face Aleksander Lorenčič, 2021. Tri desetletja samostojne države so vsekakor doba, ko lahko podamo mnenje o tranzicijskem procesu, ki se je na formalni ravni končal z vstopom v EU, tudi z zgodovinskega gledišča se je vse do formalnega zaključka slovensko gospodarsko tranzicijo označevalo zlasti kot zgodbo o uspehu, so po letu 2004 v ospredje vse bolj stopala vse prej kot pozitivna mnenja in ocene. Knjiga obravnava osrednje procese gospodarske tranzicije, ki so spremenili gospodarsko sestavo, jo uvrstili in posodobili do te mere, da je slovensko gospodarstvo lahko hitreje dohitevalo razviti svet. Cilji avtorjevega zgodovinskega iskanja in spravevanja so pot v tranzicijo, vstopanje Slovenije v različne mednarodne integracije, makroekonomska stabilizacija, privatizacija in prestrukturiranje gospodarstva. Osvetli tudi problematiko regionalnega razvoja in razloge zaradi katerih v obravnavanem obdobju ni prišlo do zmanjševanja medregionalnih razlik. Posebno pozornost namenja tudi gospodarski kriminaliteti, ki je tako posameznikom kot podjetjem in državi povzročala veliko škodo. Avtor v argumentirani pripovedi predstavi tudi značilnosti in dosežke procesa gospodarske preobrazbe v Srbiji ter na Hrvaškem in Madžarskem in Poljskem. **The World Economy**

Marjan Svetličič, 1996-08-12. The process of globalization can be seen in the increase of trade interdependence, the importance of global multinational corporations, mobility and volatility of capital flows with dangers demonstrated by the recent Mexican crisis. This globalization creates both dangers and new opportunities, both winners and losers. The parallel growth of regional blocs is equally hazardous, particularly for countries left outside the regional blocs. The book, with contributions by eminent experts, describes the impact of both globalization and regionalization and the relationship between these two dominant trends. **Management, Education and Competitiveness** Rolf Petter Amdam, 2013-04-15. Globally

two processes are striking about modern management education. Firstly, management education is changing rapidly to meet new challenges from business and governments and to improve competitiveness. Secondly, management education has

become one of the fastest growing areas in higher education Management Education and Competitiveness provides a wide overview including studies by scholars in nine countries in Europe Japan and the United States It examines how countries have developed different national courses in spite of strong influence from the American system of management education It also examines the links between education and business This collection of essays will be invaluable to managers and professionals in educational research and business administration
