Small Change Women Learning Patriotism 1750 1810:

Small Change Harriet Guest,2000-12 During the second half of the eighteenth century the social role of educated women and the nature of domesticity were the focus of widespread debate in Britain The emergence of an identifiably feminist voice in that debate is the subject of Harriet Guest s new study which explores how small changes in the meaning of patriotism and the relations between public and private categories permitted educated British women to imagine themselves as political subjects *Small Change* considers the celebration of learned women as tokens of national progress in the context of a commercial culture that complicates notions of gender difference Guest offers a fascinating account of the women of the bluestocking circle focusing in particular on Elizabeth Carter hailed as the paradigmatic learned and domestic woman She discusses the importance of the American war to the changing relation between patriotism and gender in the 1770s and 1780s and she casts new light on Mary Wollstonecraft s writing of the 1790s considering it in relation to the anti feminine discourse of Hannah More and the utopian feminism of Mary Hays

The Feminization Debate in Eighteenth-Century England E. Clery,2004-08-20 In the Eighteenth century critics of capitalism denounced the growth of luxury and effeminacy supporters applauded the increase of refinement and the improved status of women This pioneering study explores the way the association of commerce and femininity permeated cultural production It looks at the first use of a female author as an icon of modernity in the Athenian Mercury and reappraises works by Elizabeth Singer Rowe Mandeville Defoe Pope and Elizabeth Carter Samuel Richardson s novels represent the culmination of the English debate while contemporary essays by David Hume move towards a fully fledged enlightenment theory of feminization [Women Wanderers and the Writing of Mobility, 1784-1814](#) Ingrid Horrocks,2017-03-23 A history of the writing of mobility in the Romantic period through the work of major women writers

Women's History Hannah Barker,Elaine Chalus,2005 A wide ranging thematic survey of women s history in Britain in the 18th and early 19th centuries with chapters written by both well established writers and new and dynamic scholars in a thorough and well balanced selection

Ann Yearsley and Hannah More, Patronage and Poetry Kerri Andrews,2015-10-06 This study offers a timely and necessary reassessment of the careers of Ann Yearsley and Hannah More Making use of newly discovered letters and poems Andrews provides a full analysis of the breakdown of the two writers affiliation and compares it to other labouring class relationships based on patronage [Transnational Women Writers in the Wilmot Coterie, 1798-1840](#)

DR ALEXIS. WOLF,2024-10-29 Highlights the centrality of non canonical middle ranking women writers to the production of literature and culture in Britain Ireland Europe and Russia in the late eighteenth century The Irish writers and editors Katherine 1773 1824 and Martha Wilmot 1775 1873 left a unique record of middle ranking women s literary practices and experiences of travel in the late eighteenth and early nineteenth century Their manuscripts are notable for their vivid portrayal of the era s political conflicts capturing a flight from Ireland during the Irish Rebellion 1798 time spent in Paris during the Peace of Amiens 1801 03 and extended residences in Russia during the Napoleonic Wars However

in their accounts of these key European events the Wilmots manuscripts and published work showcase their participation in a startling range of self educating activities including travel writing biography antiquarianism early ethnographic observation language acquisition translation practices and editorial work Taking an interdisciplinary approach this book explores the collaborative relationships formed by women participating in cosmopolitan networks beyond the typical locations of the Grand Tour Across their travels the sisters met engaged with and learned from numerous key women of the time including Princess Ekaterina Dashkova Margaret King Lady Mount Cashell and Helen Maria Williams In this first full length study to focus on the literary and cultural exchanges surrounding the Wilmot sisters Wolf showcases how manuscript circulation coterie engagement and transnational travel provided avenues for women to engage with the intellectual discourses from which they were often excluded

Keats, Modesty and Masturbation Rachel Schulkins, 2016-04-22 Examining John Keats s reworking of the romance genre Rachel Schulkins argues that he is responding to and critiquing the ideals of feminine modesty and asexual femininity advocated in the early nineteenth century Through close readings of *Isabella or the Pot of Basil* *The Eve of St Agnes* *Lamia* and *La Belle Dame sans Merci* Schulkins offers a re evaluation of Keats and his poetry designed to demonstrate that Keats s sexual imagery counters conservative morality by encoding taboo desires and the pleasures of masturbation In so doing Keats presents a version of female sexuality that undermines the conventional notion of the asexual female Schulkins engages with feminist criticism that largely views Keats as a misogynist poet who is threatened by the female s overwhelming sexual and creative presence Such criticism Schulkins shows tends towards a problematic identification between poet and protagonist with the text seen as a direct rendering of authorial ideology Such an interpretation neither distinguishes between author protagonist text social norms and cultural history nor recognises the socio sexual and political undertones embedded in Keats s rendering of the female Ultimately Schulkins s book reveals how Keats s sexual politics and his refutation of the asexual female model fed the design plot and vocabulary of his romances

Feminism and Empire Clare Midgley, 2007-09-28 *Feminism and Empire* establishes the foundational impact that Britain s position as leading imperial power had on the origins of modern western feminism Based on extensive new research this study exposes the intimate links between debates on the woman question and the constitution of colonial discourse in order to highlight the centrality of empire to white middle class women s activism in Britain The book begins by exploring the relationship between the construction of new knowledge about colonised others and the framing of debates on the woman question among advocates of women s rights and their evangelical opponents Moving on to examine white middle class women s activism on imperial issues in Britain topics include the anti slavery boycott of Caribbean sugar the campaign against widow burning in colonial India and women s role in the foreign missionary movement prior to direct employment by the major missionary societies Finally Clare Midgley highlights how the organised feminist movement which emerged in the late 1850s linked promotion of female emigration to Britain s white settler colonies to a new ideal of independent English

womanhood This original work throws fascinating new light on the roots of later imperial feminism and contemporary debates concerning women's rights in an era of globalisation and neo imperialism **Napoleon and British Song, 1797-1822** Oskar Cox Jensen, 2015-10-12 This study offers a radical reassessment of a crucial period of political and cultural history By looking at some 400 songs many of which are made available to hear and at their writers singers and audiences it questions both our relationship with song and ordinary Britons relationship with Napoleon the war and the idea of Britain itself **Imagining women readers, 1789-1820** Richard Ritter, 2015-11-01 Imagining women readers reassesses the cultural significance of women's reading in the period 1789-1820 From the turbulent years following the French Revolution to the fiction of Jane Austen this book charts the rise of a self regulating reader who possesses both moral and cultural authority Rather than an unproductive leisure activity for the writers discussed in this study the act of reading is crucial to imagining forms of female participation in national life The book thus offers a unique perspective on the relationship between reading education and the construction of femininity shedding new light on the work of some of the most celebrated women writers of the period It will appeal to students and scholars interested in the history and representation of reading and in women's writing of this period more generally
