Smuggling Armageddon Rensselaer W. Lee, 2000-01-15 Smuggling Armageddon looks at one of the most troubling international concerns of the 1990s and beyond the illegal trade in nuclear materials that has erupted in the Newly Independent States NIS and Europe since the collapse of the former Soviet Union Rensselaer Lee raises the seldom asked question of whether such traffic poses a threat of consequence to international security and stability while showing readers a Russia beset with a variety of criminal proliferation channels increasingly sophisticated smuggling operations and nuclear stockpiles with breached security Smuggling Armageddon is sure to provoke

controversy and raise the specter of nuclear destruction once again **Will Terrorists Go Nuclear?** Brian Michael Jenkins, 2009-12-02 For more than 30 years Jenkins has been advising the military government and prestigious think tanks on the dangers of nuclear proliferation Now he goes beyond what the experts know to examine how terrorists themselves think about such weapons **Intelligence Briefing on Smuggling of Nuclear Material and the Role of International Crime Organizations, and on the Proliferation of Cruise and Ballistic Missiles** United States. Congress. Senate. Committee on Armed Services, 1995 Distributed to some depository libraries in microfiche Nuclear Energy David Bodansky, 2007-06-25 This second edition represents an extensive revision of the first edition though the motivation for the book and the intended audiences as described in the previous preface remain the same The overall length has been increased substantially with revised or expanded discussions of a number of topics including Yucca Mountain repository plans new reactor designs health effects of radiation costs of electricity and dangers from terrorism and weapons proliferation The overall status of nuclear power has changed rather little over the past eight years Nuclear reactor construction remains at a very low ebb in much of the world with the exception of Asia while nuclear power's share of the electricity supply continues to be about 75% in France and 20% in the United States However there is a sign of a heightened interest in considering possible nuclear growth In the late 1990s the U S Department of Energy began new programs to stimulate research and planning for future reactors and many candidate designs are now contending at least on paper to be the next generation leaders Outside the United States the commercial development of the Pebble Bed Modular Reactor is being pursued in South Africa a French German consortium has won an order from Finland for the long planned EPR European Pressurized Water Reactor and new reactors have been built or planned in Asia In an unanticipated positive development for nuclear energy the capacity factor of U S reactors has increased dramatically in recent years and most operating reactors now appear headed for 20 year license renewals
