The Gulf Cooperation Council Search For Unity In A Dynamic Region:

The GCC and the International Relations of the Gulf Matteo Legrenzi, 2015-07-31 The Gulf Cooperation Council GCC made up of Saudi Arabia Bahrain Kuwait Oman Qatar and the United Arab Emirates UAE is one of the most resilient sub regional organizations in the world and the most successful in the Arab world it has been the forum through which much security cooperation in this volatile sub region has taken place as well as the main representative for the UAE's territorial dispute with Iran over the Abu Musa and Tunbs islands the organization aims to enhance defence cooperation between its member states it also has significant potential to foster economic integration and to present an alternative form of leverage over the international oil markets Very little is known however about how the organization really works how decisions are actually taken as opposed to how this process is formally articulated in its charter and what the GCC's real impact on member states the Gulf and international relations is Drawing on cutting edge theoretical perspectives as well as unique firsthand access to GCC decision makers Matteo Legrenzi explains the mechanisms of Gulf cooperation and its limitations in the context of economic globalization diplomatic regionalization and the rise of Iran Combining historical context primary source investigations and theoretical analysis this is a comprehensive guide to the GCC and an indispensable resource for anyone concerned with the Gulf and the Middle East

The Gulf Cooperation Council Erik Roswell Peterson, 1988

Armies of Arabia Zoltan Barany, 2021 Armies of Arabia is the first book to comprehensively analyze the armed forces of the Gulf monarchies Zoltan Barany explains the conspicuous ineffectiveness of Gulf militaries with a combination of political structural and sociocultural factors Following a brief exposition on their historical evolution he explores the region's six armies of the region comparatively through the lenses of military politics sociology economics and diplomacy The book's themes come together in the last chapter that critically evaluates the Saudi and Emirati armed forces record in the ongoing war in Yemen

Arab Regional Organizations, 1992-01-01 Over the past four decades the Arab nations have exercised an enormous political and economic influence on world events Much of that impact has been exerted not through the direct actions of individual governments but collectively or indirectly through pan Arab organizations economic associations such as OPEC or through international agencies including the United Nations and the International Monetary Fund Arab Regional Organizations is a fully annotated bibliographic guide to the functions infrastructures and effectiveness of Arab organizational activity The organizations covered in this volume have grown in importance in lockstep with developments in the Middle East This is particularly so in the areas of economics and energy where there has been the establishment of national control over the oil industry and a consequent economic boom Institutions such as the Gulf Cooperation Council have also become vital to the continued political stability of the member states and to the strategic importance of the region as illustrated by the Iran Iraq war and the Persian Gulf War The book also takes note of the special economic importance of organizations such as the Kuwait Saudi and Abu Dhabi Funds These perform a major role among developing nations because

of their project aid and technical assistance programs Arab Regional Organizations covers a variety of subjects but concentrates on economics energy politics and development subjects A lengthy introductory section is designed to provide readers with the background of each organization and to direct them to other sources of information A supplementary section deals with the effects of the Iraqi invasion of Kuwait and the Gulf War Researchers librarians economists political scientists and Middle East specialists will find this volume an invaluable guide to the literature of the region The A to Z of the Gulf Arab States Malcolm C. Peck,2010-04-12 The A to Z of the Gulf Arab States comes at a time when the world's attention is riveted on the Middle East The small states covered in this volume Bahrain Kuwait Oman Qatar and the United Arab Emirates UAE possess about 20 percent of the world's total oil reserves Beyond the strategic and economic importance conferred upon them by their vast oil reserves the Gulf Arab states are worthy of attention for the inherent interest of their history and culture No area of the world has yielded more revealing and exciting archaeological finds in the past few decades than these states Investigations have brought to light extensive evidence of an important culture as old as Egypt of the Pharaohs or ancient Babylon which was virtually unknown previously except through rare references in the records of other civilizations The A to Z of the Gulf Arab States is a paperback reprint of the Historical Dictionary of the Gulf Arab States This edition covers the history of the five countries through a chronology broken down by country a list of acronyms and abbreviations an introductory essay a bibliography and several hundred cross referenced dictionary entries on important persons places and events of each country Everything from the Abbasids to Zubarah is covered in this essential reference on this increasingly important region of the world *The Making of Southeast Asia* Amitav Acharya,2013-02-22 Developing a framework to study what makes a region Amitav Acharya investigates the origins and evolution of Southeast Asian regionalism and international relations He views the Association of Southeast Asian Nations ASEAN from the bottom up as not only a U S inspired ally in the Cold War struggle against communism but also an organization that reflects indigenous traditions Although Acharya deploys the notion of imagined community to examine the changes especially since the Cold War in the significance of ASEAN dealings for a regional identity he insists that imagination is itself not a neutral but rather a culturally variable concept The regional imagination in Southeast Asia imagines a community of nations different from NAFTA or NATO the OAU or the European Union In this new edition of a book first published as *The Quest for Identity* in 2000 Acharya updates developments in the region through the first decade of the new century the aftermath of the financial crisis of 1997 security affairs after September 2001 the long term impact of the 2004 tsunami and the substantial changes wrought by the rise of China as a regional and global actor Acharya argues in this important book for the crucial importance of regionalism in a different part of the world Asian Yearbook of International Law, Volume 1 (1991) Sik Ko Swan,J.J.G. Syatauw,M.C.W. Pinto,2019-07-22 The Asian Yearbook of International Law is the first publication primarily dedicated to international law as seen from an Asian perspective It provides a forum for the publication of articles in the field of

international law written by experts from the region and also other articles relating to Asian topics Its aim is twofold to promote the dissemination of knowledge of international law in Asia and to provide an insight into Asian views and practices which will be especially useful to a non Asian readership As a rule each volume of the Asian Yearbook will contain Articles Notes State Practice a Chronicle of Events and Incidents United Nations Activities with Special Relevance to Asia a Survey of Activities of the Asian African Legal Consultative Committee a Bibliography and a Documents section

Industrialization in the Gulf Jean-Francois Seznec,Mimi Kirk,2010-09-13 In recent years we have witnessed huge economic and socio political change in the Gulf This book examines the rapid industrialization of the region and how local economies are starting to diversify away from petroleum exploring how this transformative process is starting to impact on the region s economy and social make up With contributions from some of the top scholars and practitioners in the area this book discusses crucial topics related to the region s transformation from issues of economic development and relations with Iran to foreign labour and women s education and work outside the home Chapters explore how in addition to the massive growth in investments and products such as oil gas chemicals metals and cement this growth has triggered numerous societal changes such as labour migration educational reforms declining natality and shifting gender roles Covering in detail a broad range of issues this book will appeal not only to Middle East experts particularly those with an interest in the Persian Gulf but also to development experts and political scientists

Diplomacy and Defense Policy of the United Arab Emirates William Rugh,2002-11-27 Since the establishment of the UAE in 1971 the country s foreign and defense policies have largely been driven by UAE President HH Sheikh Zayed bin Sultan Al Nahyan From the beginning Sheikh Zayed identified four objectives namely the establishment of good relations with immediate neighbors peaceful settlement of disputes solidarity with the Arab and Islamic worlds and fruitful cooperation with all nations Despite major challenges to foreign policy such as the two Gulf wars the Arab Israeli conflict and the dispute with Iran over the occupation of the three UAE islands in the Gulf Sheikh Zayed has been able to adhere to the UAE s foreign policy objectives and steer its defense policy accordingly This approach has ensured that the UAE which in 1971 had been a weak fledgling state facing hostile neighbors and almost no friends by 2001 had established strong alliances in the Gulf and the Arab world strategic ties with the United States and the West and a position of widespread respect and influence

Challenging Environmental Issues ,2021-11-22 This volume is the result of the co author s keen interest in better understanding the environmental problems faced by all countries in the Middle East It is also the result of the co authors deep commitment to urge Middle Eastern citizens and their leaders to work together for better protection of their precious and fragile environment so that it may be saved for the enjoyment and safety of future generations In the Middle East geography and arid and simi arid climatic conditions have led to a concentration of people in coastal zones and river valleys with acute water shortages water and air pollution increasing soil erosion and intensifying desertification all creating serious environmental challenges All these issues are addressed by eight leading scholars in eight

chapters which include Jordan Oman Lebanon Israel Sudan the Arabian Gulf Iran Syria Contributors are Badria A Al Awadhi Joseph G Jabra Nancy W Jabra Jamil E Jreisat Joseph A Keckichian Alon Tal Rania Masri Damazo Dut Majak Gloria Ibrahim Saliba and Seid M Zekavat **Iran and the Arab World** Hooshang Amirahmadi, Nader Entessar, 1993-01-15 The Middle East has been the arena of three cataclysmic events since 1979 the Iranian Revolution the Iran Iraq War and the Gulf War All of these have brought about major changes in the inter regional politics and relations between Middle East countries and the outside world This book seeks to analyze the impact of these events on Iranian Arab relations The authors examine Iran s relations with the Arab states of the Gulf in detail and sheds light on the changing patterns of Iranian Egyptian and Lebanese relations *The Future of Money* Benjamin J. Cohen, 2018-06-05 Is globalization leading us toward a world of fewer and fewer currencies and consequently simplified monetary management Many specialists believe this is the case as the territorial monopolies national governments have long claimed over money appears to be eroding In *The Future of Money* Benjamin Cohen argues that this view which he calls the Contraction Contention is wrong Rigorously argued written with extraordinary clarity and thoroughly up to date this book demonstrates that the global population of currencies is set to expand greatly not contract making monetary governance more difficult not less At the book s core is an innovative theoretical model for understanding the strategic preferences of states in monetary management Should governments defend their traditional monetary sovereignty or should they seek some kind of regional consolidation of currencies The model offers two broad advances First whereas most scholarly work evaluates strategic options individually or in comparison to just one other alternative this model emphasizes the three dimensional nature of the decisions involved Second the model emphasizes degrees of currency regionalization as a central determinant of state preferences Cohen also systematically explores the role of the private sector as an alternative source of money The book concludes with two key policy proposals First fiscal policy should be resurrected as a tool of macroeconomic management to offset the present day erosion in the effectiveness of monetary policy Second the International Monetary Fund should more actively help coordinate the decentralized strategic decision making of governments The future of money will be perilous But by mapping out the alternative policies countries can follow *The Future of Money* shows it need not be chaotic Oman, Culture and Diplomacy Jeremy Jones, 2013-03-10 This book is a cultural history offering an historical account of the formation of a distinctive Omani culture arguing that it is in this unique culture that a specific conception and practice of diplomacy has been developed *With United Strength* The Emirates Center for Strategic Studies and Research, 2004-03-09 Visionary statesmen who have created an enduring state edifice through purposeful consensus and persuasion remain a historical rarity The formation of the United Arab Emirates on December 2 1971 under the inspiring leadership of its founding father H H Shaikh Zayid Bin Sultan Al Nahyan is a unique example of the building of a prosperous nation that has earned its founder his rightful place among the outstanding statesmen of all time Against the backdrop of the British withdrawal from the Arabian Gulf region it was H H Shaikh Zayid

who accomplished the complex task of unifying the erstwhile Trucial States creating the only thriving federal state in the Middle East While fulfilling his personal destiny as the chosen leader H H Shaikh Zayid strengthened the nation by uniting disparate tribal groups and sustained it against formidable challenges He pioneered the modernization of the country and ultimately realized his dream of an effective framework for collaboration with neighboring Gulf states The UAE has since become a constructive force within the region and beyond exemplifying the principles of national unity regional solidarity international cooperation and religious tolerance This book adopts a scholarly approach in analyzing the UAE s unique federal experience its phenomenal achievements and H H Shaikh Zayid s far sighted policies It is an in depth study of the birth of a progressive nation and the pivotal role of its leader based largely on unpublished historical records and documents The factual foundation of the book and its meticulous documentation make it a valuable record covering an important era in the contemporary history of the Arab Gulf region

From Alliance to Union Joseph A. Kéchichian, 2016-05-24 After the conservative Arab Gulf Monarchies Bahrain Kuwait Oman Qatar Saudi Arabia and the United Arab Emirates UAE joined forces on 25 May 1981 within the Gulf Co operation Council GCC few fathomed that security requirements on and around the Arabian Peninsula would be so precarious and for so long To answer their search for permanent stability Arab Gulf rulers erected a regional alliance that sought to integrate internal and regional defences as well as strengthen their existing socio economic ties Several of the monarchies even hoped that co ordination on foreign policy issues over which near unanimity existed could eventually lead to a full fledged union as envisaged in the organisation s founding charter Between 1981 and 2015 these Arab Gulf monarchies experienced major socio political transformations resulting from upheavals throughout the Arab and Muslim worlds The perceived necessity to bring about a full fledged union has come into conflict with entrenched viewpoints from regimes that value traditional military political roles and norms In this new study Joseph A Kechichian provides an evaluation of GCC States military institutions to better evaluate whether a stable alliance is capable of enduring over the next few decades and how civilian leaders perceive the role and influence of their military officers for the task Kechichian raises fundamental questions over internal regional and international threats including an existential challenge emanating from the Islamic revolutionary government of Iran and assesses how GCC professionals may be preparing to tackle them He further elucidates on the best methods to meet security challenges not only to secure political survival but also to determine whether conservative Arab Gulf regimes can flourish outside an effective alliance The volume concludes with an examination of evolving civil military relations in the GCC States

Hong Kong's Economic And Financial Future Y. F. Luk, 2019-04-12 SIGNIFICANT ISSUES SERIES papers are written for and published by the Center for Strategic and International Studies The series will present the insights of prominent East Asian analysts and draw conclusions about complementarities or divergences that may exist Those insights in tum will serve in the aggregate as the basis for a richer cross

Saudi Arabia and the Gulf Arab States Today Sebastian Maisel, John A. Shoup, 2009-02-17 This extremely timely

and helpful ready reference will familiarize all students and readers with the Gulf region and Saudi Arabia Bahrain Dubai the UAE Kuwait Oman Yemen and Qatar These states are bound by the desert culture the Gulf new oil economy and Islam to name some commonalities Most Americans know something about the region such as oases dates camels oil Bedouin tribes and the legends of Lawrence of Arabia to Osama bin Laden Islamic concepts and practices are still unfamiliar On one extreme Saudi Arabia the cradle of Islam has been largely closed off to Western tourists On the other extreme Dubai courts tourist dollars as it constructs modern architectural showcases This is the first A Z encyclopedia to focus on the Gulf illuminating the land people religion culture and traditions institutions economy and much more for general readers The more than 200 essay entries have a current focus with historical context as necessary The breadth of coverage means that this resource will be of use for a wide range of researchers and browsers Besides individual entries on each state major cities and regions are also profiled The natural environment and human adaptation to it receives significant space Islamic customs and rules and various interpretations are clearly explained Essays on topics such as key public figures institutions major events politics and state structures some based on sources often not available in English make this two volume set the first choice resource for accurate information Suggestions for further reading accompany most entries a chronology selected bibliography and photos also complement the text

Syria and Saudi Arabia Sonoko Sunayama, 2007-06-29 Syrian Saudi relations have been a paradox in inter Arab politics during the oil era Commentators and analysts have questioned why the two states pursued mutually conflicting aims in almost every major regional or international foreign policy issue and often propagated contrasting ideological banners over the past thirty years while both acting as though some form of an alignment existed between them Here Sonoko Sunayama explores the logic behind the paradoxical longevity of this cooperative relationship and argues that what ultimately makes Saudis and Syrians so indispensable to each other is the perception and the historical appeal of shared identities be they Arabism or Islam

Terrorism, Security and the Power of Informal Networks David Martin Jones, Ann Lane, Paul Schulte, 2010-01-01 This innovative work examines the concept of the informal network and its practical utility within the context of counterterrorism Drawing together a range of practitioner and academic expertise it explores the character and evolution of informal networks addressing the complex relationship between kinship groups transnational linkages and the role that globalization and new technologies play in their formation and sustainability By analysing the informal branch of networked organization in the context of security policy making the chapters in this book seek to address three questions how do informal networks operate which combination of factors draws individuals to form such networks what are their structures Informal networks are necessarily elusive owing to their ad hoc development amorphous structures and cultural specificity but they are nonetheless pivotal to the way organizations conduct business Identifying and manipulating such networks is central to effective policy making *Terrorism Security and the Power of Informal Networks* argues that informal networks are important to policy makers and their mastery is critical to success

both in tackling the challenges of hostile networks and in the processes of organizational reform currently preoccupying governments Practitioners policy makers and researchers in the fields of international politics international relations history and political science will find much to interest them in this timely resource

Historical Dictionary of International Organizations in Africa and the Middle East Terry M. Mays, 2015-06-18 The Historical Dictionary of International Organizations in Africa and the Middle East focuses on international organizations in Africa And the Middle East This makes sense for political cultural and geographical reasons North African countries and many located in the Sahel region are members of not only African but also Middle Eastern international organizations due to their cultural and religious heritage as well as geographic location between Sub Saharan Africa and the Middle East A limited number of global organizations are also included in this book when they have major programs focusing on Africa and or the Middle East This volume emphasizes intergovernmental organizations but many non governmental organizations are also included This is done through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities thematic topics and major international issues affecting the region This book is an excellent access point for students researchers and anyone wanting to know more about this subject
