

Functions of Hair

Anagen/growth phase

During this particular phase, the majority of the hair will be grown. This period lasts for many years for each individual hair.

Catagen/transitional phase

The length of time that the hair takes to develop and the size of the hair follicle both slow down at this time

Telogen/resting phase

The process of new hair development is halted for a number of months, during which time the older hairs get detached from the hair follicles.
