The Bohemians Ben Tarnoff, 2015-02-24 An extraordinary portrait of a fast changing America and the Western writers who gave voice to its emerging identity At once an intimate portrait of an unforgettable group of writers and a history of a cultural revolution in America The Bohemians reveals how a brief moment on the far western frontier changed our culture forever Beginning with Mark Twain s arrival in San Francisco in 1863 this group biography introduces readers to the other young eccentric writers seeking to create a new American voice at the country s edge literary golden boy Bret Harte struggling gay poet Charles Warren Stoddard and beautiful haunted Ina Coolbrith poet

and protector of the group Ben Tarnoff's elegant atmospheric history reveals how these four pioneering writers helped spread the Bohemian movement throughout the world transforming American literature along the way Tarnoff's book sings with the humor and expansiveness of his subjects prose capturing the intoxicating atmosphere of possibility that defined for a time America's frontier The New Yorker Rich hauls of historical research deeply excavated but lightly borne Mr Tarnoff's ultimate thesis is a strong one strongly expressed that together these writers helped pry American literature away from its provincial origins in New England and push it into a broader current Wall Street Journal

Corporate Social Responsibility

and Natural Resource Conflict Kylie McKenna, 2015-10-23 This book examines the possibilities and limitations of corporate social responsibility in minimising the violent conflict often associated with natural resource exploitation Through detailed and penetrating empirical analysis the author skilfully asks why previous corporate social responsibility practices have not always achieved their aims This theme is explored through an analysis of two of the most complex and protracted conflicts linked to natural resources in the Asia Pacific region Bougainville Papua New Guinea and West Papua Indonesia Drawing on first hand accounts of corporate executives and communities affected by resource conflict this book documents the translation of global corporate social responsibility into local peace Covering topics as diverse as post colonialism law

revenue distribution security the environment and customary reconciliation this ambitious text reveals how and why current corporate social responsibility initiatives may be unable to assist extractive companies avoid social conflict The study concludes that this is attributable to the failure of extractive companies to respond to the social and environmental issues of most concern to local host communities The idea is that extractive companies could actively contribute to peace building if they were to engage with the interdependencies between business activity and the root causes of conflict What sets this book apart is that it offers a holistic framework for extractive companies to engage with the complexity of resource conflict Interdependent Engagement is an integrated model of corporate social responsibility that encourages extractive companies to deal with the underlying causes of resource conflict rather than applying solutions or critiques of their symptoms

Invented History, Fabricated Power Barry Wood,2020-11-16 Invented History Fabricated Power begins with an examination of prehistoric beliefs in spirits souls mana orenda that provided personal explanation and power through ritual and shamanism among tribal peoples On this foundation spiritual power evolved into various kinds of divine sanction for kings and emperors Sumerian Egyptian Greek Roman Indian Chinese and Japanese As kingships expanded into empires fictional histories and millennia long genealogies developed that portrayed imperial superiority and greatness Supernatural events and miracles were attached to religious founders Hebrew Hindu Buddhist Christian Islamic A unique variation developed in the Roman Church which fabricated papal power through forgeries in the first millennium CE and the later doctrine of discovery which authorized European domination and conquest around the world during the Age of Exploration Elaborate fabrications continued with epic histories and literary cycles from the Persians Ethiopians Franks British Portuguese and Iroquois Indians Both Marxists and Nazis created doctrinal texts which passed for economic or political explanations but were in fact self aggrandizing narratives that eventually collapsed The book ends with the idealistic goals of the current liberal democratic way of life pointing to its limitations as a sustaining narrative along with numerous problems threatening its viability over the long term

Pamphlets on Forestry in Hawaii ,1911 The Politics of Controlling Organized Crime in Greater China Sonny Shiu-Hing Lo,2015-12-14 In China the central government has the political will to control organized crime which is seen as a national security threat The crux of the problem is how to control local governments that have demonstrated lax enforcement without sufficient regulation from the provincial governments The development of prostitution underground gambling and narcotics production has become so serious that the central government has to rely on anti crime campaigns to combat these three evils This book explores the specific role of government institutions and agencies notably the police in controlling organised and cross border crime in Greater China Drawing heavily on original empirical data it compares the both the states of the People s Republic of China and Taiwan as well as city states Hong Kong and Macao This region has become increasingly economically integrated and human interactions have been enhanced through improved trade relations tourism and increased individual freedom The book

argues that the regime capacity of crime control across Greater China has been expanded through regional and international police cooperation as well as anti crime campaigns It suggests that a strong central state in China is necessary to rein in the local states and to prevent the risk of deteriorating into a political criminal nexus Focusing on regime capacity in crime control regime autonomy from crime groups and regime legitimacy in the fight against organized crime this thought provoking book will be of great interest to students and scholars of Chinese politics and criminology more broadly **A**

Japanese-Mongolian Relations, 1873-1945 James Boyd,2010-12-17 This book offers the first in depth examination of Japanese Mongolian relations from the late nineteenth century through to the middle of the twentieth century and in the process repositions Mongolia in Sino Japanese and Russo Japanese relations Beginning in 1873 with the intrepid journey to Mongolia by a group of Buddhist monks from one of Kyoto s largest orders the relationship later included groups and individuals from across Japanese society with representatives from the military academia business and the bureaucracy Throughout the book the interplay between these various groups is examined in depth arguing that to restrict Japan s relationship with Mongolia to merely the strategic and as an adjunct to Manchuria as has been done in other works neglects important facets of the relationship including the cultural religious and economic It does not however ignore the strategic importance of Mongolia to the Japanese military The author considers the cultural diplomacy of the Zenrin ky kai a Japanese quasi governmental humanitarian organization whose activities in inner Mongolia in the 1930s and 1940s have been almost completely ignored in earlier studies and whose operations suggest that Japanese Mongolian relations are quite distinct from other Asian peoples Accordingly the book makes a major contribution to our understanding of Japanese activities in a part of Asia that figured prominently in pre war and wartime Japanese strategic and cultural thinking
