Bloom,Waldo C. Klein,2013-12-01 There is a near universal folk saying that everyone wishes to live a good long life but no one wishes for old age More contemporarily the rock and roll band Little Feat sang You know that you re over the hill when your mind s making promises your body can t fill This book is about the good long life It is a book about primary prevention strategies in the aging process it is not about preventing that process It is not about being old Instead it is about the things that individuals and the helping professionals who provide them with counsel and assistance can do to prevent the preventable problems of advancing age and to better manage those changes in functioning that cannot be prevented In short it is about extending all our capacities to the fullest so that we can better keep all those promises that we make to ourselves and others Aging is a life long process We focus here on the changes that are taking place in our selves and in our society as we age In particular we focus on what we can do to affect these changes by the choices we make and how we live This book offers primary prevention strategies for mature and older adults with the recognition that mature adulthood starts as soon as we are old enough to truly appreciate our active role in our own aging processes     The Complete Guide to Green Building

& Remodeling Your Home Martha Maeda,2011 In today s economy and socially conscious environment regarding the environment many people cannot afford not to start considering ways they can build or remodel their home to ensure it is green With scientific sources such as the UN council on global warming making statements about the degradation of ice flow and environmental conditions by 2050 and the likelihood that crude oil sources will be used up within the next fifty years it is especially necessary for young families to consider the implications of re examining their homes and living situations to be more green This book will guide you and your family through the process of learning more about and implementing the necessary changes and perspectives needed to change your home or build a new home that is environmentally conscious and prepared for the changing economic and environmental climate in the coming decades You will learn why people have started to build green and how it can be done in today s regulatory and cost conditions quickly and inexpensively You will learn how to remodel with green in mind and how to start working with building professionals that can provide the necessary materials plans and paperwork you need to proceed You will learn which materials are best for green building by lifespan and how to choose between various green materials You will learn how to not only use green materials but to make sure the construction process is green as well You will learn the basics of framing your building natural building methods the energy systems you might use and the heating cooling options at your disposal Construction and environmental experts have been
