Gilbert,1973      London, a Social History Roy Porter,1998 An extraordinary city London grew from a backwater in the Classical Age into an important medieval city and significant Renaissance urban center to a modern colossus full of a free people ever evolving Roy Porter touches the pulse of his hometown and makes it our own capturing London s fortunes people and imperial glory with vigor and wit 58 photos      *The Heart of the Empire* Charles Frederick Gurney Masterman,2013-09 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book      *The Heart of the Empire; Discussions of Problems of Modern City Life in England, with an Essay on Imperialism* Hardpress,2012-08 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy      *The Heart of the Empire* ,2015-07-14 Excerpt from *The Heart of the Empire Discussions of Problems of Modern City Life in England With an Essay on Imperialism* The Victorian Era has definitely closed For many years it was manifest that the forces characteristic of that period had become expended and that new problems were arising with a new age But during the latter years of the nineteenth century men were content to confront the evils of national life with the old remedies There had indeed been some modification in the general tendency

of opinion but this had by no means kept pace with the altered conditions of the world The rapidity of social and economic change will perhaps be more easily realised now that the death of the Queen and of the century have reminded us all that nature and time spare nothing however customary honoured and secure The present can never take refuge behind the past Foremost among the changes which have taken place has been the stupendous growth of cities Vast herds of human beings are penned into small areas from which nature is excluded and there live breed and die The aspect of life has by that fact been altered no longer brought into direct contact with the forces of nature man has carved out for himself new and artificial conditions The cities which we have to day are different not merely in degree but in character from the large towns of former years the City population is cut off from the country in a manner previously unknown It has developed sympathies and passions of its own differing in essential characteristics from those of a bygone age About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**Britain and Its Empire in the Shadow of Rome** Sarah J. Butler, 2012-10-11 Drawing on new primary source evidence this volume evaluates ancient Rome's influence on an English intellectual tradition from the 1850s to the 1920s as politicians scientists economists and social reformers addressed three fundamental debates of the period Empire Nation and City These debates emerged as a result of political economic and social change both in the Empire and Britain and coalesced around issues of degeneracy morality and community As ideas of political freedom were subsumed by ideas of civilization best preserved by technocratic governance the political and historical focus on Republican Rome was gradually displaced by interest in the Imperial period of the Roman emperors Moreover as the spectre of the British Empire and Nation in decline increased towards the turn of the nineteenth century the reception of Imperial Rome itself was transformed By the 1920s following the end of World War I Imperial Rome was conjured into a new framework echoing that of the British Empire and appealing to the surging nationalistic mood

**The Idea of the City in Nineteenth-Century Britain** B.I. Coleman, 2012-12-06 In nineteenth century Britain ahead of the rest of the world in economic development many towns and cities grew to a size that only London had attained before This volume focuses on the intellectual and controversial response of the period's leading men and women to the key issues of urbanization and its surrounding social problems The extracts selected date from 1785 to 1909 and are drawn from the writings reports and speeches of admirers of city life and its most passionate critics optimists and alarmists advocates of back to the land panaceas and reformers who aspired to control and reform cities Contemporaries quoted include Dickens Cobbett Carlyle Disraeli Engels Mrs Gaskell Ruskin Joseph Chamberlain William

Morris Charles Booth H G Wells and Seebom Rowntree In a valuable introduction the editor indicates the main preoccupations of the debate about the city proposes a periodization for it and shows its connections with other controversies and issues as Victorian Britain found itself entering an age of great cities This book was first published in 1973 **Bulletin ... of Books Added to the Public Library of Detroit, Mich** ,1908 *Bulletin ... of Books Added to the Public Library of Detroit, Mich* Detroit Public Library,1909 **Cities of Affluence and Anger** Peter Kalliney,2015-10-29 Providing a compact literary history of the twentieth century in England *Cities of Affluence and Anger* studies the problematic terms of national identity during England's transition from an imperial power to its integration in the global cultural marketplace While the countryside had been the dominant symbol of Englishness throughout the previous century modern literature began to turn more and more to the city to redraw the boundaries of a contemporary cultural polity The urban class system paradoxically still functioned as a marker of wealth status and hierarchy throughout this long period of self examination but it also became a way to project a common culture and mitigate other forms of difference Local class politics were transformed in such a way that enabled the English to reframe a highly provisional national unity in the context of imperial disintegration postcolonial immigration and later globalization Kalliney plots the decline of the country house novel through an analysis of Forster's *Howards End* and Waugh's *Brideshead Revisited* each ruthless in its sabotage of the trope of bucolic harmony The traditionally pastoral focus of English fiction gives way to a high modernist urban narrative exemplified by Woolf's *Mrs Dalloway* and later to realists such as Osborne and Sillitoe through whose work Kalliney explores postwar urban expansion and the cultural politics of the welfare state Offering fresh new readings of Lessing's *The Golden Notebook* and Rushdie's *The Satanic Verses* the author considers the postwar appropriation of domesticity the emergence of postcolonial literature and the renovation of travel narratives in the context of globalization Kalliney suggests that it is largely one city London through which national identity has been reframed How and why this transition came about is a process that *Cities of Affluence and Anger* depicts with exceptional insight and originality *Women drinking out in Britain since the early twentieth century* David Gutzke,2016-05-16 Given recent media coverage of women's drinking habits it is surprising that a topic of such interest has not produced a comprehensive examination This book provides not just a survey spanning a century of momentous change but integrates diverse sources with concepts to offer a new understanding of the changing nature of women's drinking patterns It challenges traditional assumptions and offers original interpretations about the diverse factors influencing women's consumption of alcohol including advertising moral panics sexism legislative initiatives employment age ethnicity technology new drinking venues and marketing strategies What most influenced how women transformed their consumption of alcohol What beverages did they drink To what extent did women themselves act as agents of change These and other questions serve as the basis for analysing women's drinking patterns from a social and cultural perspective Close attention is also paid to the image of drinking projected in advertising the mass media and films *A History of Drink and*
