The Hellenistic Aesthetic Wisconsin Studies In Classics:

The Hellenistic Aesthetic Barbara Hughes Fowler, 1989 Fowler's own insights are apparent throughout and they seem to distill the personal appreciation and understanding of a scholar who has devoted much of her career to both contemplating and enjoying Hellenistic poetry. This book would make an excellent background text for courses in later Greek and Roman art and it can be read with profit by anyone interested in exploring the character of Hellenistic culture. J. J. Pollitt, *American Journal of Archaeology*. Outstanding is the range of examples discussed both in poetry and art. Theocritus, Callimachus, Appollonius, the epigrammatists and others that is the major figures of the time are considered at length and in several different contexts. Passages are quoted in the original Greek translated and analyzed. Fowler's sensitivity to poetic forms evident in her other published writings is again evident here. In addition, however, the philosophical context is not overlooked. Also highly commendable are the liberal references to works of art. Sculpture in the round and in relief, portraits, terracotta figurines, original paintings, grave stelai and Campanian murals, mosaics, gold and silver vessels and jewelry are introduced at various points. Every work of art discussed is illustrated in astonishingly clear photographs which are interspersed in the body of the text. Christine Mitchell Havelock, *The Hellenistic Aesthetic* provides classicists with their first thorough discussion of the aesthetic unity found in Hellenistic art and literature. Fowler examines parallels both in subject matter and in artistic approach among a diverse group of literary genres and artistic forms. In twelve chapters, *The Hellenistic Aesthetic* surveys Alexandrian epigrams, pastorals, epics, sculptural groups, mosaics, paintings and jewelry to supply a convincing and frequently unexpected picture of a unified aesthetic vision. Jeffrey Buller, *Classical Outlook*.

This handsome newly designed addition to The Metropolitan Museum of Art's symposia series furthers the study of one of the most influential but less known periods of Greek art and culture. It is based on papers given at a two-day scholarly symposium held in conjunction with the award-winning exhibition *Pergamon and the Hellenistic Kingdoms of the Ancient World* on view at the Metropolitan in 2016. The twenty diverse essays exemplify the international scope of the Hellenistic arts which cover the three centuries between the death of Alexander the Great in 323 B.C. and the suicide of Cleopatra in 30 B.C. Subjects range from twenty-first-century approaches to museum displays of archaeological material to the circulation of artists and works of art throughout the Mediterranean and the influence of Hellenistic art and its legacy in the ancient Roman world. Among the topics discussed are aspects of royal self-presentation and important elements of iconography and style in coins, gems, mosaics, sculpture, vessels and wall paintings in mediums including bronze, faience, glass, marble, silver and terracotta.

Authored by a number of internationally renowned scholars the essays in this volume highlight the holdings of the Metropolitan and markedly demonstrate the artistic innovations and technical mastery of Hellenistic artists offering new insights into the vitality and complexity of Hellenistic art p p1 margin 0 0px 0 0px 0 0px font 14 0px Verdana

Greek Art and Aesthetics in the Fourth Century B.C. William A. P. Childs, 2018-04-10 Greek Art and Aesthetics in the Fourth Century B C analyzes the broad character of art produced during this period providing in depth analysis of and commentary on many of its most notable examples of sculpture and painting Taking into consideration developments in style and subject matter and elucidating political religious and intellectual context William A P Childs argues that Greek art in this era was a natural outgrowth of the high classical period and focused on developing the rudiments of individual expression that became the hallmark of the classical in the fifth century As Childs shows in many respects the art of this period corresponds with the philosophical inquiry by Plato and his contemporaries into the nature of art and speaks to the contemporaneous sense of insecurity and renewed religious devotion Delving into formal and iconographic developments in sculpture and painting Childs examines how the sensitive expressive quality of these works seamlessly links the classical and Hellenistic periods with no appreciable rupture in the continuous exploration of the human condition Another overarching theme concerns the nature of style as a concept of expression an issue that becomes more important given the increasingly multiple styles and functions of fourth century Greek art Childs also shows how the color and form of works suggested the unseen and revealed the profound character of individuals and the physical world

Kallimachos Rudolf Blum, 2011-06-01 The famous library of Alexandria founded around 295 BCE by Ptolemaios I housed the greatest collection of texts in the ancient world and was a fertile site of Hellenistic scholarship Rudolf Blum s landmark study originally published in German in 1977 argues that Kallimachos of Kyrene was not only the second director of the Alexandrian library but also the inventor of two essential scholarly tools still in use to this day the library catalog and the biobibliographical reference work Kallimachos expanded the library s inventory lists into volumes called the Pinakes which extensively described and categorized each work and became in effect a Greek national bibliography and the source and paradigm for most later bibliographic lists of Greek literature Though the Pinakes have not survived Blum attempts a detailed reconstruction of Kallimachos s inventories and catalogs based on a careful analysis of surviving sources which are presented here in full translation

Rhetoric and Innovation in Hellenistic Art Kristen Seaman, 2020-04-16

Hellenistic artworks are celebrated for innovations such as narrative characterization and description The most striking examples are works associated with the Hellenistic courts Their revolutionary appearance is usually attributed to Alexander the Great s conquest of the Near East the start of the Hellenistic kingdoms and Greek Eastern interactions In *Rhetoric and Innovation in Hellenistic Art* Kristen Seaman offers a new approach to Hellenistic art by investigating an internal development in Greek cultural production notably advances in rhetoric Rhetorical education taught kings artists and courtiers how to be Greek giving them a common intellectual and cultural background from which they approached art Seaman explores how rhetorical techniques helped artists and their royal patrons construct Hellenism through their innovative art in the scholarly atmospheres of Pergamon and Alexandria Drawing upon artistic literary and historical evidence this interdisciplinary study will be of interest to students and scholars in art and archaeology Classics and ancient history

Theocritus' Pastoral Analogies Kathryn J. Gutzwiller, 1991 In a book as beautifully written as the poetry it celebrates Kathryn Gutzwiller uses the famous Idylls of Theocritus to show us the formative processes at work in the creation of a literary genre the pastoral and how the very structure of a genre both shapes and limits judgments about it Gutzwiller argues that Theocritus position as first pastoralist has haunted critical assessments of him Was he merely a beginner whose simple descriptions of country life were reworked by Vergil into poems of imagination and tender feeling Or was he a genius of great creative ability who first found the way to encapsulate in humble detail a metaphysical vision of man s emotional core Examining Theocritus from the point of view of beginnings Gutzwiller succeeds in placing him both within his native Greek intellectual tradition and within the tradition of critical commentary on pastoral As she points out beginnings are hard to pin down the thing begun did not exist before and yet its composite parts were already somewhere in existence Gutzwiller provides an analysis of the herdsman figure in pre Hellenistic Greek literature showing that the simple shepherd or goatherd had long been used as a figure of analogy for characters of higher rank Theocritus was the first poet to focus on the shepherd himself and bring the analogies down into the pastoral world Through her careful analyses of the seven pastoral Idylls Gutzwiller demonstrates that in turning the focus on the shepherd Theocritus created a group of literary works with an inner structure so unique that later readers considered it a new genre In her conclusion Gutzwiller explores subsequent controversies about the pastoral from ancient to modern times revealing how they continue to reflect the structural pattern that originated in Theocritus s poetry
