The Evolution of Individuality Leo W. Buss, 2014-07-14 Leo Buss expounds a general theory of development through a simple hierarchical extension of the synthetic theory of evolution He perceives innovations in development to have evolved in ancestral organisms where the germ line was not closed to genetic variation arising during the course of ontogeny Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**Universitas** Thomas E. Boudreau, 1998-05-12 Believing that current educational policies and practices in American institutions of higher learning contribute to an incoherent disjunctive and wasteful four year experience for many undergraduates the author provides a sense of new direction to aid in the restructuring and reform of undergraduate education in America The primary question of the work is How can the years of undergraduate education empower the student with the knowledge and integrated set of skills needed for a lifetime of learning and productive work Boudreau focuses on the primary responsibility of all institutions of higher learning to provide a superior undergraduate education All other functions of a university should be secondary to this commitment Unfortunately this basic premise seems lost today This work argues that universities must undergo significant reform and renewal especially at the undergraduate level if they are to prepare students successfully for the future

*Transforming Human Culture* Jay Earley, 1997-01-01 The next step in social evolution Earley argues is to take conscious charge of our future by integrating the ground qualities with the emergent qualities so that they can continue to evolve but in a healthy way

**The Fantasy Principle** Michael Vannoy Adams, 2004 The Fantasy Principle makes a strong case for a new school of psychoanalysis the school of imaginal psychology It radically affirms the centrality of imagination and emphasizes the transformative impact of images

Trials of the Visionary Mind John Weir Perry, 1999-01-01 A comprehensive summary of the author's revolutionary approach to psychosis

**Choices of Love** Dorothy Maclean, 1998-12 Based on a talk at the New York Open Center in 1999 this book on the identity of John speaks of Christian initiation in a new way one whose time has come What Smith has to say is both extraordinarily suggestive and remarkably conclusive Covering a lot of ground in a way that is accessible the author masterfully supplies us with a range of collateral materials that is always interesting and

illuminates the larger picture Because this small book began its life as a talk to a general audience it is blessedly jargon free and reader friendly It contains both sophistication or bite while working a quiet but profound revolution in the field of study that it addresses New Testament scholars as well as those concerned in any way with the future of Christianity ought to sit up and take note Anyone seeking to understand the mystery of Jesus Christ and his beloved disciple will find true food for the mind and heart

**The War Hotel** Arlene Audergon, 2004-12-10 Human Nature is the fuel of violent conflict The War Hotel looks at how we get aroused and how we get silenced into violent conflict We are pulled apart in the name of justice and loyalty Past trauma is triggered into a replay Out of love and longing to step beyond the ordinary world we sacrifice ourselves and others Dehumanizing the enemy disinformation torture stirring fear in order to crack down these terror tactics too are based in psychology The manipulation of psychological dynamics to create violent conflict is distressing But if our emotions and behaviour are the fuel then our awareness can impact world events There is something truly hopeful here Awareness makes a difference Examples draw particularly from the author's work in the Balkans Other examples include Nazi Germany Rwanda the Israeli Palestinian conflict Communism and its fall in Europe South Africa the treatment of Native Americans and African Americans in the USA Vietnam and the war on terror

Vijayanagara Voices William J. Jackson, 2016-03-03 The Vijayanagara Empire flourished in South India between 1336 and 1565 Conveying the depth and creativity of Hindu religious and literary expression during that time Vijayanagara Voices explores some of the contributions made by poets singer saints and philosophers Through translations and discussions of their lives and times Jackson presents the voices of these cultural figures and reflects on the concerns of their era looking especially into the vivid images in their works and their legends He examines how these images convey both spiritual insights and physical experiences with memorable candour The studies also raise intriguing questions about the empire's origins and its response to Muslim invaders its Hinduness and reasons for its ultimate decline Vijayanagara Voices is a book about patterns in history literature and life in South India By examining the culture's archetypal displays by understanding the culture in its own terms and by comparing associated images and ideas from other cultures this book offers unique insights into a rich and influential period in Indian history

**The Call of Spiritual Emergency** Emma Inc. Bragdon, 2012-08-16 A feast of revealing narratives expose the amazing story of how people deal with critical points in personal transformation also known as spiritual emergency With the increase of interest in yoga meditation mental health recovery and recovery from addiction there is renewed interest in care that is not based on medication as much as empathy and compassionate companionship This book helps anyone who doesn't have a language to understand intense inner experiences and confuses them with mental illness If you have felt disoriented by intense spiritual experiences this book will help you understand where you are and where you may be heading It is a map of the journey of spiritual awakening written by a psychologist who knows the territory well Reading it may make the difference between heading off to the hospital to get drugs to stop the symptoms or staying home and knowing you are OK Just because you have

had a conversation with your spirit guide or talked to the spirit of someone who has passed away doesn't mean you are having a breakdown. It could mean you are having a breakthrough to a higher level of functioning. The author is a psychologist and knows the territory. **Depth Psychology** Dennis Patrick Slattery, 2004-10. Developed in the spirit of C. G. Jung and extended by the work of James Hillman. Depth Psychology Meditations in the Field grows directly from the soil of the Romantic Movement of the 19th century itself, a rebellion against the legacy of Enlightenment fundamentalism which emphasized the literal reality of the world and feasted on measurement and the quantification of all knowledge.

Communication and Lonergan Thomas J. Farrell, Paul A. Soukup, 1993. Essays about communication and the thought of Canadian Jesuit philosopher and theologian Bernard Lonergan. **Jung and the Human Psyche** Mary Ann Mattoon, 2020-03-24. Jung and the Human Psyche: An Understandable Introduction presents a comprehensive introduction to Jungian theory, taking the reader through the major themes of Jung's work in a clear way, relating such concepts to individual experience. Drawing on her extensive experience in practicing and teaching Jungian psychology, Mary Ann Mattoon succeeds in making the fundamental insights of Jung's work accessible. The major topics of Jungian psychology are presented in a manner that is clear, emotionally engaging, well illustrated, and non-dogmatic. Areas covered include: The visible psyche, ego, persona, typology, The hidden psyche, self, shadow, unconscious, archetypes, instincts, Becoming who we are, early development, gender, Obstacles and helps to growth, complexes, projection, psychopathology, Helps from the psyche, psychic energy, self-regulation, compensation, symbol, synchronicity, creativity. Jung and the Human Psyche provides an original and imaginative introduction to Jung's work and will appeal to students of Jungian psychology, those considering training in Jungian analysis, and anyone interested in Jungian psychology. **Facing the Dragon** Robert L. Moore, 2003. Structured around a series of lectures presented at the Jung Institute of Chicago in a program entitled Jungian Psychology and Human Spirituality: Liberation from Tribalism in Religious Life, this book-length essay attacks the related problems of human evil, spiritual narcissism, secularism, and ritual and grandiosity. Robert Moore dares to insist that we stop ignoring these issues and provides clear, sighted guidance for where to start and what to expect. Along the way, he pulls together many important threads from recent findings in theology, spirituality, and psychology and brings us to a point where we can conceive of embarking on a corrective course. Traditional doctrinal and historical interpretation both rely heavily on rational analysis. But from the disciples at Emmaus to the beginnings of the present century, it has been the impact of scripture upon the human heart that has changed human lives. In recent decades, this impact has been strengthened by advances in linguistic and literary theory, by such disparate influences as feminism, structuralism, Jungianism, deconstructionism, the analysis of archaic imagery and myth, the recovery of Gnostic texts, and finally, an openness to pluralism, whether ethnic, geographic, religious, or interpretive. All of these factors are treated here with a brevity and comprehensiveness which convincingly show that the reader of scripture has a creative and not merely passive role. If you would understand the deepest roots of terrorism, greed, and

religious fanaticism read *Facing the Dragon* But be forewarned you may find some offshoots in your own garden June Singer Jungian analyst author of *Boundaries of the Soul* Robert Moore Phd was an internationally recognized psychotherapist and consultant in private practice in Chicago He was considered one of the leading therapists specializing in psychotherapy with men because of his discovery of the Archetypal Dynamics of the Masculine Self King Warrior Magician Lover He served as Distinguished Service Professor of Psychology Psychoanalysis and Spirituality at the Graduate Center of the Chicago Theological Seminary and has served as a Training Analyst at the C G Jung Institute of Chicago He is Co founder of the Chicago Center for Integrative Psychotherapy

*Corporations, Businesses, and Families* Roma S. Hanks, Marvin B. Sussman, 1990 *Corporations Businesses and Families* offers a comprehensive look at the relationship between family systems and work organizations Discussions ranging from work family issues of the past such as the decline of the role of the family in the workplace during the rise of labor unions to current trends toward increased corporate provision of child care introduce a historical overview of the changes in work family relationships from various perspectives Special topics of interest include methodological strategies for researchers investigating work family issues within the corporation perspectives of minority families in corporate work settings and family responsiveness in military organizations In addition to examining the relationship between the corporation and the families of its employees the authors explore the systems of management and succession in family run corporations and businesses and the family business aspects of teleministries Researchers students human resource managers and business policymakers will benefit from the information in this authoritative new book The trends and issues identified in this illuminating volume will be useful in planning corporate initiatives that affect families and in training students in business and social science programs where work family issues are of interest

*The Adult Years* Frederic M. Hudson, 1999-06-29 Drawing widely from psychology and adult development theories the revised edition of the bestselling guide to the adult years presents a compelling vision of maturity as an opportunity for renewal reorientation and positive change

*A History of Sculpture* George Henry Chase, Chandler Rathfon Post, 1924

*Bergson and History* Leon ter Schure, 2019-09-27 Henri Bergson is famous for his explorations of time as duration yet he rarely referred to history in his writings Simultaneously historians and philosophers of history have generally disregarded Bergson's ideas about the nature of time Modernity has brought change at an ever accelerating rate and one of the results of this has been a tendency toward presentism Only the here and now matters as past and future have been absorbed by the omnipresent present of the digital age In highlighting the role of history in the work of Bergson Bergson and History shows how his philosophy of life allows us to revise the modern conception of history Bergson's philosophy situates history within a broader framework of life as a creative becoming allowing us to rethink important topics in the study of history such as historical time the survival of the past and historical progress
