Sino-American Economic Relations, 1944-1949 C. X. George Wei, 1997 The economic relationship between the U S and China during the 1940s has long been neglected with few scholarly works focusing on the period This era was overshadowed by the political and diplomatic changes during and after the failure of the Nationalists in 1949 Without a close and insightful look into the reconstruction of China with American involvement during the late 1940s one cannot identify the problems which led to the Nationalists failure nor can one answer the questions dealing with the impact of American economic policy toward China during that time

Sino-British Negotiations and the Search for a Post-War Settlement, 1942-1949 Zhaodong Wang, 2022-03-21 The book is a systematic study of the China Britain relationship during the 1942 1949 period with a particular focus on the two countries discussions over both the 1943 Sino British treaty and the discarded Sino British commercial treaty the future of Hong Kong and the political status of Tibet These were dominated by two underlying themes the elimination of the British imperialist position in China and the establishment of an equal and reciprocal bilateral relationship The negotiations started promisingly in 1942 1943 but by 1949 had failed to reach a satisfactory settlement Behind the failure lay a complex set of domestic considerations and external factors including the powerful influence of the United States Even after seven decades the failure still has a contemporary impact Recent Sino British disputes over the Hong Kong Anti Extradition Law Amendment Bill Movement and incessant Indo Chinese conflicts and skirmishes over their unsettled borders all attest to the enduring legacy of the years 1942 1949 as setting the scene for subsequent Sino British and Sino Indian relations From this perspective the history has never left us

Macao and U.S.-China Relations Yufan Hao, Jianwei Wang, 2010-12-22 In this collection of essays edited by Jianwei Wang and Yufan Hao the contributors explore the driving factors that lie behind Macao's increased visibility including the rapid economic development and growth the one country two system administration under which they operate the influx of foreign investment and the role of Macao in China's foreign policy especially as it relates to the United States Macao underwent tremendous growth in various spheres during its evolution from a minor colonial power into a global player with increasing influence on the world stage Their enhanced international profile is largely a result of their economic and political development over the 20th century culminating with their handover to China in 1999 With more than 60 countries that have established consular services in Macao and their membership in several international organizations WTO UNESDO and the World Tourism Organization Macao continues to play an important role in the Eastern hemisphere Macao's entrance into the world market improved their reputation in East Asia and led to spectacular economic growth but it also attracted foreign investment especially from the United States that changed the cultural landscape American influence has grown steadily in Macao and with their increased exposure to international economics and politics Macao's role as a buffer between China and United States is increasingly important Macao and U S Chinese Relations uses a local perspective to analyze the complicated relationship between these two world superpowers and Chinese foreign policy as a whole

A History of Sino-American Official Relations, 1840-1990 董建華, Daren Liu, 1992

Re-examining the Cold War Robert S. Ross, Changbin Jiang, 2001 The twelve essays in this volume underscore the similarities between Chinese and American approaches to bilateral diplomacy and between their perceptions of each other's policy making motivations Much of the literature on U S China relations posits that each side was motivated either by ideologically informed interests or by ideological assumptions about its counterpart But as these contributors emphasize newly accessible archives suggest rather that both Beijing and Washington developed a responsive and tactically adaptable foreign policy Each then adjusted this policy in response to changing international circumstances and changing assessments of its counterpart's policies Motivated less by ideology than by pragmatic national security concerns each assumed that the other faced similar considerations

American Editor in Early Revolutionary China Neil O'Brien, 2004-03 This is a study of Sino American relations and the editorial policy of the China Weekly Review China Monthly Review published in Shanghai by John William Powell during the Chinese Civil War and the Korean War The Review supported US attempts in early 1946 to avert civil war through the creation of a coalition government By 1947 it reflected growing disillusionment with Guomindang policies and increasing sympathy for the demands of impoverished students and faculty for multi party democracy and peace As the Civil War shifted

in favour of the Communists in late 1948 Powell and the Review counseled US businessmen to remain in Shanghai and urged the US government to establish working relations with the Communists and later to recognize the new regime Staying in Shanghai to report changes engendered by the Communist victory the Review s staff accomodated themselves to the new orthodoxy and to the regime s coordination of the press During the Korean War the Review opposed the expanding US air war becoming the foremost American purveyor of Chinese and North Korean allegations of American use of bacteriological weapons The Review was also utilized for the political indoctrination of US prisoners of war by the Chinese and North Koreans After closing the Review in July 1953 and returning to the United States Powell his wife Sylvia Campbell and assistant editor Julian Schuman were put on trial for sedition As the government narrowed its focus to the bacteriological warfare issue Powell and his lawyers countered by trying to prove the veracity of the charges seeking witnesses in China and North Korea Adverse publicity led to a mistrial in January 1959 and limitations in both the sedition and treason statutes ended plans to renew prosecution Powell and the Review had insisted that positive diplomatic and economic relations between China and the United States were both possible and desirable The gradual normalization of trade investment and political relations since the 1970s seemed to validate this belief In the post Cold War age when Sino American relations are often strained and tempestuous this book serves as a reminder of the value of making the extra effort to achieve understanding

Decisive Encounters Odd Arne Westad, 2003 Though the book highlights the military aspects of the war it also shows how these took place alongside profound changes in Chinese politics society and culture changes that ultimately contributed as much to the character of today s China as did the major battles By analyzing the war as an international and not simply a domestic conflict the author explains why so much of the present legitimacy of the Beijing government derives from its successes during the late 1940s and reveals how the antagonism between China and the United States so important to current international affairs was born
