Tibetan Rituals of Death Margaret Gouin, 2012-09-10 This book describes and analyses the structure and performance of Tibetan Buddhist death rituals and situates that performance within the wider context of Buddhist death practices generally Drawing on a detailed and systematic comparative survey of existing records of Tibetan funerary practices including historical travel accounts anthropological and ethnographic literature Tibetan texts and academic studies it demonstrates that there is no standard form of funeral in Tibetan Buddhism although certain elements are common The structure of the book follows the twin trajectories of benefiting the deceased and protecting survivors in the process it reveals a rich and complex panoply of activities some handled by religious professionals and others by lay persons This information is examined to identify similarities and differences in practices and the degree to which Tibetan Buddhist funeral practices are consistent with the mortuary rituals of other forms of Buddhism A number of elements in these death rites which at first appear to be unique to Tibetan Buddhism may only be Tibetan in their surface characteristics while having roots in practices which pre date the transmission of Buddhism to Tibet Filling a gap in the existing literature on Tibetan Buddhism this book poses research challenges that will engage future scholars in the field of Buddhism Tibetan Buddhism and Anthropology

This new thoroughly updated edition of Bradt's Tibet encompasses the wider region of ethnic Tibet with more detailed coverage of the Amdo and Kham regions than is found in other guides. It also includes essential information on new border openings and is particularly strong on map data which is extremely difficult to find in Tibet itself, including new theme maps covering a range of topics from Tibetan regions to the Three Parallel Rivers, UN World Heritage Sites, sacred landscapes, permafrost, and major river sources. Bradt's Tibet benefits from years of consistent research. Michael Buckley has been visiting and researching Tibet for more than 30 years and has a raft of books to his name. Thanks to his knowledge and expertise, Bradt's Tibet offers a more extensive language appendix than is found in other guidebooks, plus essential guidelines on cultural etiquette, including a special section on hand gestures to use, local customs, and travelling with minimum impact on Tibet's culture and environment. There is also an appendix on fauna and an extensive list of recommended further resources, including books, music, films, and even virtual reality.
