Sand & Steel Peter Caddick-Adams, 2019 Part of a trilogy covering the last year of fighting in the European theater of World War II and in time for the 75th anniversary of D Day Sand and Steel gives us the full story of the Allied invasion of France

D-Day Nicholas A. Veronico, 2019-06-01 Those who witnessed it never forgot it the great armada of Allied ships that filled the English Channel on D Day June 6 1944 From battleships cruisers and destroyers down to the much smaller landing ships and landing craft these nearly 7 000 vessels bombarded the Normandy coast ferried men tanks and equipment across the channel and landed 150 000 troops under withering German fire on Omaha Utah Gold Juno and Sword beaches in a single day In numbers and scope it was the largest seaborne invasion in history Meanwhile some 12 000 aircraft flew above the sea a dizzying assortment of fighters and bombers transports recon craft and gliders Taking off from air fields in England they dropped thousands of paratroopers and even vehicles bombed roads and German positions miles inland provided vital intelligence and attacked any German planes that were able to take to the skies It was the largest single day aerial operation in history And yet these important and impressive aspects of D Day haven't received the coverage they deserve having been overshadowed by the fighting on the beaches Veronico assembles photos of both the air and sea components of the D Day invasion giving the sailors and airmen their due and giving modern readers a vivid sense of what this monumental day was like in the air and at sea
