Slide Rule:

The Slide Rule Applied to Commercial Calculations R. M. Shireby,1922 *Slide Rules* Peter M. Hopp,1999-05-01 In the hopes of preserving these delightful devices for future generations this collector of slide rules covers everything one could possibly want to know about this crude form of analog computer from its invention in the 17th century to manufacturers retailers 1850 1998 and the Oughtred Society for collectors Includes a glossary with biographies patent data component specs dating and valuing care historical milestones and illustrations **How Do You Use a Slide Rule ?** Arthur A. Merrill,1961 **The Slide Rule** Charles Pickworth,2018-09-05 From the Introduction The slide rule may be defined as an instrument for mechanically effecting calculations by logarithms Those familiar with logarithms and their use will recognize that the slide rule provides what is in effect a concisely arranged table of logarithms together with a simple and convenient means for adding and subtracting any selected values Those however who have no acquaintance with logarithms will find that only an elementary knowledge of the subject is necessary to enable them to make full use of the slide rule It is true that for simple slide rule operations as multiplication and division a knowledge of logarithms is unnecessary indeed many who have no conscious understanding of logarithms make good use of the instrument Slide Rule Robert Riddell,2002-03-20 Once more Astragal Press has rescued an old and rare book from obscurity allowing for the broad circulation of information previously limited to the select few who could afford access This book first published in 1881 was written about the use of the first standard slide rule made in the United States a Mannheim type slide rule made by Stephens Co a major rule manufacturer Included in Riddell s book aimed primarily at carpenters and joiners is a wealth of fascinating instruction on the use of the slide rule in everything from making the calculations necessary for constructing circular porches and spiral stairways to calculating wages owed or the cost of hauling lumber Included as well are lovely plates illustrating various geometric and trigonometric calculations used in construction As a source book it should be of great interest and value to tool collectors slide rule enthusiasts and woodworkers **Treatise on the circular, multi-index, spiral slide rule** Thomas Dixon (engineer.),1881 **Elementary Slide Rule Manual** Herman Ritow,1925 **The Slide Rule and Logarithmic Tables, Including a Ten-place Table of Logarithms** John Jesse Clark,1921 **The Slide Rule Simplified** George Washington Richardson,1912 *Spiral Slide Rule* George Fuller,1878 Calculating on Slide Rule and Disc I. J. Schuitema,H van Herwijnen,2003-04-10 Author IJzebrand Schuitema owns one of the largest slide rule collections in the world In the course of his collecting he came upon rules that were unknown to him and that excited his curiosity This book is a compilation of the articles he wrote about these wonderful slide rules each one made for a specific and unique use and about the men who designed and manufactured them There is the slide rule that computes road curvature one that calculates for sewerage applications one that provides navigational information for flyers one for brewers that computes barley malt water hops and yeast and then takes into account time temperature and pressure and there are many more Ir

Schuitema was fortunate to have as his associate in this enterprise Herman van Herwijnen who describes himself as a slide rule collector and computer freak He has compiled a marvelous CD designed for the PC and included with the book featuring an enormous number of photographs in full color and from all sides and angles of all the rules mentioned in the book as well as a great many additional ones Each rule is accompanied by a description material it is made of size name etc Each picture can be enlarged several times so that every detail is seen The disc can be searched browsed its index can be used to take the reader to a particular slide rule maker or to a particular slide rule and individual pictures can be printed or copied it is a treasure chest of information
