An Industrial Epic

Sloss Furnaces And The Rise Of The Birmingham District

Mary Lynn Bayliss

Sloss Furnaces And The Rise Of The Birmingham District:

Sloss Furnaces and the Rise of the Birmingham District W. David Lewis, 1994-10-30 *Sloss Furnaces and the Rise of the Birmingham District* contradicts earlier interpretations of southern industrialization by showing that Birmingham which became a leading symbol of the New South was in fact deeply rooted in the antebellum plantation system and its peculiar institution slavery As Lewis demonstrates southern businessmen pursued their own indigenous model of economic growth and were selective in how they imported capital machinery and technical expertise from outside the region The racial crises that erupted in Birmingham during the 1960s can be traced in part to labor intensive developmental strategies that were present from the birth of a city that might have become a bastion of industrial slavery if the South had won the Civil War

Segregation in the New South Carl V. Harris, 2022-11-09 Carl V Harris s *Segregation in the New South* completed and edited by W Elliot Brownlee explores the rise of racial exclusion in late nineteenth century Birmingham Alabama In the 1870s African Americans in this crucial southern industrial city were eager to exploit the disarray of slavery s old racial lines assert their new autonomy and advance toward full equality However most southern whites worked to restore the restrictive racial lines of the antebellum South or invent new ones that would guarantee the subordination of Black residents From Birmingham s founding in 1871 color lines divided the city and as its people strove to erase the lines or fortify them they shaped their futures in fateful ways Social segregation is at the center of Harris s history He shows that from the beginning of Reconstruction southern whites engaged in a comprehensive program of assigning social dishonor to African Americans the same kind of dishonor that whites of the Old South had imposed on Black people while enslaving them In the process southern whites engaged in constructing the meaning of race in the New South

Race, Class, and Power in the Alabama Coalfields, 1908-21 Brian Kelly, 2001 In this lucid and supremely readable study Brian Kelly challenges the prevailing notion that white workers were the main source of resistance to racial equality in the Jim Crow South Kelly explores the forces that brought the black and white miners of Birmingham Alabama together during the hard fought strikes of 1908 and 1920 He examines the systematic efforts by the region s powerful industrialists to foment racial divisions as a means of splitting the workforce preventing unionization and holding wages to the lowest levels in the country He also details the role played by Birmingham s small but influential black middle class whose espousal of industrial accommodation outraged black miners and revealed significant tensions within the African American community

Seeing Historic Alabama Virginia Van der Veer Hamilton, Jacqueline A. Matte, 1996-06-30 Revised and Updated 1996 Edition *The Meanest and 'Damnest' Job* Michael P. Rucker, 2019-08-01 Most Civil War histories focus on the performance of top level generals However it was the individual officers below them who actually led the troops to enact the orders Some of these were remarkably effective One such officer was Edmund Winchester Rucker He was a force to be reckoned with both during the Civil War and in his post war business ventures He was courageous tough and resourceful and achieved significant

results in every assignment During the campaign by the United States Army to capture the upper Mississippi River Rucker and his faithful Confederate artillerists with only three operable cannons held off the entire Federal fleet which possessed 105 heavy guns Later in East Tennessee Rucker's duties included punishing saboteurs and conscripting unwilling local citizens into the Confederate Army He described these assignments as The meanest and damnest sic duty a soldier had to perform Following the battles for Chattanooga he served with General Nathan Bedford Forrest as a cavalry brigade commander earning high merits for his performance Rucker's leadership was a major factor in the Confederate victory in the Battle of Brices Cross Roads which has been called History's Greatest Cavalry Battle Subsequent to the Battle of Nashville Rucker was wounded and captured although his left arm was amputated this did not impede his future achievements After the war Colonel Rucker and General Forrest became business partners in a railroad building project Rucker did well from this venture and became one of the wealthiest early entrepreneurs in Birmingham In recognition of his many accomplishments Fort Rucker Alabama was named in his honor This first biography on his life examines at a fast moving pace the military and business accomplishments of this outstanding leader who left his mark on both the Civil War and Southern industry of the time History of Technology Volume 16 Graham Hollister-Short, Frank James, 2016-09-30 The technical problems confronting different societies and periods and the measures taken to solve them form the concern of this annual collection of essays Volumes contain technical articles ranging widely in subject time and region as well as general papers on the history of technology In addition to dealing with the history of technical discovery and change History of Technology also explores the relations of technology to other aspects of life social cultural and economic and shows how technological development has shaped and been shaped by the society in which it occurred *The Dooleys of Richmond* Mary Lynn Bayliss, 2017-05-15 The Dooleys of Richmond is the biography of two generations of a dynamic and philanthropic immigrant family in the urban South While most Irish Catholic immigrants who poured into the region in the nineteenth century were poor and illiterate John and Sarah Dooley were affluent and well educated They brought sophistication and capital to Virginia where John established one of the largest hat manufacturing companies in the United States Noted for their business acumen and community service the Dooleys became leaders in business education culture and politics in Virginia A bellwether of the South during these tumultuous times the Dooleys fortunes would rise and fall and rise again Mary Lynn Bayliss recounts the family's history during their prosperous antebellum years John and his sons service in the Confederate army John's exploits as leader of the Richmond Ambulance Committee and the loss of the entire Dooley retail and manufacturing operations during the final days of the Civil War After the war the Dooleys son James a leading Richmond lawyer and philanthropist devoted half a century to developing railroad networks across the United States and became a key figure in the industrialization of the New South He and his wife Sallie built Maymont the famed Gilded Age estate that remains a major attraction in Richmond The story of the Dooleys is a fascinating window on southern society and the people
