analytical results should be confirmed by the numerically observed solution behavior      Advances in Information and Communication Kohei Arai, 2025-03-04 This book comprises the proceedings of the Future of Information and Communication Conference FICC 2025 held on 28-29 April 2025 in Berlin Germany The conference brought together leading researchers industry experts and academics from across the globe to discuss the latest advancements challenges and opportunities in the rapidly evolving field of information and communication technologies The conference received an impressive 401 submissions of which 138 high quality papers were selected after a rigorous peer review process These contributions span a diverse range of topics including artificial intelligence cybersecurity data science networking human computer interaction and more FICC 2025 provided an engaging platform for collaboration and knowledge exchange highlighting state of the art research and practical solutions to global challenges This proceedings book serves as a valuable resource for researchers practitioners and innovators seeking insights into the future of information and communication technologies      American Men of Science ,1967      *Proceedings of International Joint Conference on Computational Intelligence* Mohammad Shorif Uddin, Jagdish Chand Bansal, 2020-05-22 This book gathers outstanding research papers presented at the International Joint Conference on Computational Intelligence IJCCI 2019 held at the University of Liberal Arts Bangladesh ULAB Dhaka on 25-26 October 2019 and jointly organized by the University of Liberal Arts Bangladesh ULAB Bangladesh Jahangirnagar University JU Bangladesh and South Asian University SAU India These proceedings present novel contributions in the areas of computational intelligence and offer valuable reference material for advanced research The topics covered include collective intelligence soft computing optimization cloud computing machine learning intelligent software robotics data science data security big data analytics and signal and natural language processing      *University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles* University of California (System).
