Small Church At Large Thinking Local In A Global Context:

The Small Church at Large Robin J. Trebilcock, 2002-12-31 Written for small church leaders especially in rural and pent urban settings The Small Church at Large blends creative storytelling with practical principles This book is about thriving small churches as they confront the changes of our times and engage the people in their communities who were born after 1965 Gen Xers Millennials in worship and mission There is hope for the small church but only if the small church surrenders organizational models worship patterns stewardship assumptions leadership expectations and minority self interests that have come to be more precious to small churches than the gospel itself The competition that challenges the future of the small church is not the influence of other major religions nor is it the influence of deified cultural forms of sports success profit or politics The real competition comes from within the small church itself It is the smallness of its vision the smallness of its inclusivity and the smallness of its heart Robin John Trebilcock proves that neither the lack nor the abundance of resources will be decisive for the future of the small church Imagination sensitivity leadership and sheer undiluted faithfulness will win out every time Revitalizing Practice Malcolm L. Warford, 2008 Revitalizing Practice is designed to help theological faculties engage a common set of challenges particularly in the areas of diversity formation and institutional identity These are not technical problems but are instead the very stuff out of which teaching and learning are practiced Yet addressing such issues requires intentional strategies and collaborative work Revitalizing Practice offers four such intentional strategies A New Ecology Model An Improvisational Model An Appreciative Inquiry Model and A World Caf Model Each of these models provides a thorough and practical framework based on sound theoretical concepts designed to help faculties revitalize their practices of theological teaching and learning **American Book Publishing Record**, 2007

Nature and the Environment in Amish Life David L. McConnell, Marilyn D. Loveless, 2018-11-01 The Amish relationship to the environment is much more complicated than you might think The pastoral image of Amish communities living simply and in touch with the land strikes a deep chord with many Americans Environmentalists have lauded the Amish as iconic models for a way of life that is local self sufficient and in harmony with nature But the Amish themselves do not always embrace their ecological reputation and critics have long questioned the portrayal of the Amish as models of environmental stewardship In Nature and the Environment in Amish Life David L McConnell and Marilyn D Loveless examine how this prevailing notion of the environmentally conscious Amish fits with the changing realities of their lives Drawing on 150 interviews conducted over the course of 7 years as well as a survey of household resource use among Amish and non Amish people they explore how the Amish understand nature in their daily lives and how their actions impact the natural world Arguing that there is considerable diversity in Amish engagements with nature at home at school at work and outdoors McConnell and Loveless show how the Amish response to regional and global environmental issues such as watershed pollution and climate change reveals their deep skepticism of environmentalists They also demonstrate that Amish

households are not uniformly lower in resource use compared to their rural non Amish neighbors though aspects of their home economy are relatively self sufficient The first comprehensive study of Amish understandings of the natural world this compelling book complicates the image of the Amish and provides a more realistic understanding of the Amish relationship with the environment Teaching Mission in a Global Context Patricia Lloyd-Sidle, Bonnie Sue Lewis, 2001-01-01 This book

is a collection of eleven essays about the practice of mission The first section titled Feet First is about the way in which Christian practices many of them taken for granted shape mission The next section deals with the issue of transformation in mission work and the related concerns of mutuality solidarity and marginality The third section takes up the situation of the relation of Christianity to other religions Finally the last four essays take up spirituality as an inward and outward event doing mission in the context of North America and finally the development of a new theological identity based on the image of God as a missionary God *Church for Every Context* Michael Moynagh, 2014-04-15 The first comprehensive textbook on

the theology and methodology of Fresh Expressions one of the most important developments within the contemporary church

No Sense of Entitlement Heather Thomson, 2023-09-25 How might we keep alive the interests and concerns of protest theologies and the constructive contributions they make Feminist liberation and postcolonial theologies offer guiding questions for this task What is the purpose of theology Whose interests are being served What might be the public effects of this theology This book attends to these questions through a collection of publications over the lifetime of one feminist theologian Growing up in Australia as these new protest theologies were emerging Thomson recalls the influences that went into forming her as the theologian she became She specialized in hermeneutics looking for stars and compasses that might guide her theology into these new territories with a willingness to listen to the Christian tradition for its life giving words and a willingness to critique it for the ideologies it carried This double hermeneutic can be seen throughout her work The chapters in this book are divided thematically into five parts Theology and Teaching Public Theology The Church The Atonement and Being Human Her interests in feminist and liberation theologies inform each theme so that she might pass on theology better than she received it National Culture and the New Global System Frederick Buell, 1994-09 The three

worlds theory is perhaps still the basis for our dominant assumptions about geopolitical and geocultural order writes Frederick Buell but its hold on our imagination and faith is passing fast In its place a startlingly different model the notion that the world is somehow interconnected into a single system has emerged expressing the perception that global relationships constitute not three separate worlds but a single network In the wake of disillusionment with anticolonial nationalism and in response to a wide variety of economic political demographic and technological changes Buell argues we have come increasingly to view the world as complexly interconnected In *National Culture and the New Global System* he considers how the notion of national culture has been conceived and reconceived in the postwar period For much of the period the three world theory provided economic political and cultural models for mapping a world of nation states More

recently new notions of interconnectedness have been developed ones that have had profound and sometimes startling effects on cultural production and theory Surveying recent cultural history and theory Buell shows how our understanding of cultural production relates closely to transformations in models of the world order An Intercultural Worship Handbook Ian Collinge, 2025-04-29 Many church leaders are aware of cultural diversity in their congregations and on their doorsteps but recognize cultural imbalances in their worship practices How then can we move from welcoming worshippers to join us in how we do worship here to become a culturally diverse fellowship of equals where all express their voice and play their part This book aims to fill the gap between aspiration and actuality It is a practical handbook rooted in decades of experience It provides solid foundations from the Bible theology and cross cultural mission as well as tested principles from ethnodoxology It gives advice from practitioners examples from a host of contexts and a suite of tools for church leaders to use at different times to guide their congregations to become intercultural in their worship not just multicultural in their numbers New Ministries William R. Burrows, 2006-05-01 This is an exciting informed thoughtful and ground breaking book on one of the most vital and threatening issues facing the contemporary church Father Burrows seeks effectively to show that the older forms of church and clerical life developed in the West are both irrelevant and stultifying when transferred in to the Third World and that as a consequence new forms of church and clerical life forms still within the Catholic heritage to which he affirms must be developed if the church is long to survive in that new world Frankly admitting that his suggestions are only the beginning and by no means final Burrows nevertheless makes crystal clear the need for more open attitudes towards the forms of church and the need for more open attitudes towards the forms of church and clergy if the newer churches are to become genuinely creative forces in the Third World rather than lingering embassies from the First World I found the work exceedingly stimulating the approach fresh and open and his suggestions more than worthy of careful thought by all those concerned with the Church in a global context Langdon Gilkey Shailer Mathews Professor of Theology University of Chicago Divinity School New Ministries deals with topics of vital concern for the Christian churches and it does so in a way that will catch and keep the reader's interest Burrows handles this rather explosive topic with personal sensitivity and with scholarly care Paul F Knitter Professor of Theology Xavier
