Modality and Explanatory Reasoning Boris Kment, 2014-09-18 Since the ground breaking work of Saul Kripke David Lewis and others in the 1960s and 70s one dominant interest of analytic philosophers has been in modal truths which concerns the questions of what is possible and what is necessary However there is considerable controversy over the source and nature of necessity In Modality and Explanatory Reasoning Boris Kment takes a novel approach to the study of modality that places special emphasis on understanding the origin of modal notions in everyday thought Kment argues that the concepts of necessity and possibility originate in a common type of thought experiment counterfactual reasoning that allows us to investigate explanatory connections This procedure is closely related to the controlled experiments of empirical science Necessity is defined in terms of causation and other forms of explanation such as grounding the relation that connects metaphysically fundamental facts to non fundamental ones Therefore contrary to a widespread view explanation is more fundamental than modality The study of modal facts is important for philosophy not because these facts are of much metaphysical interest in their own right but because they provide evidence about explanatory relationships In the course of developing this position the book offers new accounts of possible worlds counterfactual conditionals essential truths and their role in grounding and a novel theory of how counterfactuals relate to causation and explanation Routledge Library Editions: Virginia Woolf Various

"Pete" Peters, 2007-06 What Christian hasn't questioned their faith in God at some point during their lives Most people accept their faith blindly as children due to parental influence and Pete Peters was no exception An automobile accident at age sixteen changed everything Peters was speeding in a hilly area when his 1951 Ford convertible careened off a steep cliff and crashed one hundred feet below causing his younger brother David to suffer fatal injuries And so began Peters first question How can there be a God that allows innocent people to suffer and die for no reason In later years he witnessed family trauma senseless war famine two divorces and other atrocities From his point of view there was no God to care A self proclaimed

intellectual atheist Peters still read about and discussed faith and over the years devoted much thought as to why he felt God logically could not exist After many small miracles eventually occur in his life Peters finally realizes that faith is a gift that is only given to those ready to accept it Peters tells his story in such a compelling and personal way that he will help anyone who is spiritually confused find their way back to God
