Small Towns in Recent American Crime Fiction David Geherin, 2014-12-04 Small towns have long been a commonplace setting in cozy mysteries but in recent years writers of realistic crime fiction have discovered fresh possibilities in small town settings There they can take

advantage of distinct facets of small town life a sense of community slower pace of life proximity to nature and yet deal with social economic and environmental issues Because crimes in small communities hit closer to home the human element can better be emphasized This book focuses on the work of ten contemporary authors who have placed small towns like
 Rocksbury Pennsylvania K C Constantine West Table Missouri Daniel Woodrell Niniltna Alaska Dana Stabenow Aurora
 Minnesota William Kent Krueger Paradise Michigan Steve Hamilton Millersburg Ohio P L Gaus Heartsdale Georgia Karin
 Slaughter Millers Kill New York Julia Spencer Fleming Durant Wyoming Craig Johnson and a number of national parks

 Constant, 2013-12-01 The purpose of this book is to provide graduate students professional engineers military officers and
 weapons systems planners with a comprehensive grounding in the technology evolution functions costs impacts on society
 utility and limitations of modern strategic weapons systems Since the subject is often left to the specialists this work should
 introduce the general reader to the fundamentals of such systems in an informed manner Nowadays the intense interaction
 of means and ends symbolized by strategic weapons has stimulated a changing discipline in which new missile systems and
 the intricate logic of nuclear force and counterforce hold the stage alongside the truths of conflict alliances fears games and
 subtle gains and losses Many readers with new personal interest or public responsibility in this complex field will require an
 overall guide to it This book will not prepare the reader to become an expert in the vast subject of strategic weapons systems
 It will however enable him to understand evaluate and form reasonable opinions about these systems their capabilities and
 effectiveness The subject is dealt with more from the viewpoint of the user investor rather than the architect systems
 engineer and builder design engineer While the user will be concerned with both political as well as technical options which
 may be available to solve a problem the systems and design engineers are concerned with analyzing and building
 technological weapons devices once their requirements are generally known **Left to Tell** Immaculée
 Ilibagiza, 2014-04-07 Immaculee Ilibagiza grew up in a country she loved surrounded by a family she cherished But in 1994
 her idyllic world was ripped apart as Rwanda descended into a bloody genocide Immaculee's family was brutally murdered
 during a killing spree that lasted three months and claimed the lives of nearly a million Rwandans Incredibly Immaculee
 survived the slaughter For 91 days she and seven other women huddled silently together in the cramped bathroom of a local
 pastor while hundreds of machete wielding killers hunted for them It was during those endless hours of unspeakable terror
 that Immaculee discovered the power of prayer eventually shedding her fear of death and forging a profound and lasting
 relationship with God She emerged from her bathroom hideout having discovered the meaning of truly unconditional love a
 love so strong she was able seek out and forgive her family's killers The triumphant story of this remarkable young woman's
 journey through the darkness of genocide will inspire anyone whose life has been touched by fear suffering and loss
