and physician who sees no acceptable alternative to a rational debate on philosophical and especially moral issues is aware that at the end of such a debate there are no absolute truths but well founded value judgements as presented here in a wide range of topics The Belief of an Unwilling to believe constantly balances on the edge between systematic philosophical treatise and personal confession measuring itself against the current state of thought This book attempts to summarise the philosophical criticism of ideologies taking into account the world view developed by modern science while at the same time offering orientation and help for life on the basis of philosophical thought adequate to modernity

The Heart of the Good Institution Howard Harris, Gayathri Wijesinghe, Stephen McKenzie, 2012-12-14 This book addresses the question how can institutions develop and maintain a good purpose And how can managers contribute to this endeavour Twelve contributions explore this question using MacIntyrean inquiry as a basis for exploring four main themes Can management be considered a practice in the MacIntyrean sense What is the role of specific virtues in the development of a virtuous institution What are management vices and what are the conditions in which they flourish And can we use MacIntyrean ideas to consider the management of all forms of institutions The volume is an international and multidisciplinary collection with contributions from well known writers in the field of management ethics and innovative contributions that use MacIntyrean inquiry as a lens to examine fields such as hospitality user generated music content and social sustainability The papers are unified by their concern for the achievement of organizational excellence and integrity through ethical management Unlike single author texts this edited volume brings together multiple perspectives on the topic of virtue ethics in management In doing so it explores the topic both more deeply and more widely than a single author can do Because of its breadth this book has the potential to become a turn to research tool for those interested in virtue theory s relevance to other academic interests such as organizational behavior including motivation theory and social psychology literature contemporary social issue criticism and business management Editors Harris Wijesinghe and McKenzie have crafted a tight slim and thematically consistent volume that will be indispensable to scholars and students with twin interests in business and virtue ethics In particular those working with MacIntyre s ideas will find the thorough and complimentary explorations and applications of his ideas to serve overall as a cornerstone for their own work Brenden E Kendall 2014 Harris H Wijesinghe G McKenzie S Eds 2013 The Heart of the Good Institution Virtue Ethics as a Framework for Responsible Management Dordrecht The Netherlands Springer in Michael Schwartz Howard Harris ed Achieving Ethical Excellence Research in Ethical Issues in Organizations Volume 12 Emerald Group Publishing Limited pp 155 161
