The Works of Jeremy Bentham Jeremy Bentham, 1842 **Collecting the Now** Michael Maizels, 2022-08-09 Collecting the Now offers a new in depth look at the economic forces and institutional actors that have shaped the outlines of postwar art history with a particular focus on American art 1960 1990 Working through four case studies Michael Maizels illuminates how a set of dealers and patrons conditioned the iconic developments of this period the profusions of pop art the quixotic impossibility of land art the dissemination of new media and the speculation fueled neo expressionist painting of the 1980s This book addresses a question of pivotal importance to a swath of art history that has already received substantial scholarly investigation We now have a clear nuanced understanding of why certain evolutions took place why pop artists exploded the delimited parameters of aesthetic modernism why land artists further strove against the object form itself and why artists returned to neo traditional painting in the 1980s But remarkably elided by extant scholarship has been the question of how How did conditions coalesce around pop so that its artists entered into museum collections and scholarly analyses at pace unprecedented in the prior history of art How when seeking to transcend the delimited gallery object were land artists able to create monumental and by extension monumentally expensive interventions in the extreme wilds of the Western deserts And how did the esoteric objects of media art come eventually to scholarly attention in the sustained absence of academic interest or a private market The answers to these questions lie in an exploration of the financial conditions and funding mechanisms through which these works were created advertised distributed and preserved **The Works of Jeremy**

Bentham, Now First Collected Jeremy Bentham, 1842 **Understanding Art Markets** Iain Robertson, 2015-10-30 The global art market has recently been valued at close to 50bn a rise of over 60% since the global financial crisis These figures are driven by demand from China and other emerging markets as well as the growing phenomenon of the artist bypassing dealers as a market force in his her own right This new textbook integrates updates and enhances the popular aspects of two well regarded texts Understanding International Arts Markets and The Art Business Topics covered include Emerging markets in China East Asian South East Asian Brazilian Russian Islamic and Indian art Art valuation and investment Museums and the cultural sector This revitalized new textbook will continue to be essential reading for students on courses

Jeremy Bentham,1843 **The Consumerist Manifesto** Martin P. Davidson,2013-09-27 Advertising is no longer on the defensive It has survived the snobbery of the 50s the conspiracy theories of the 60s and the semiology of the 70s to be embraced and apotheosised by the 80s The Consumerist Manifesto is the first book to examine the advertising process from within the agency itself and from the wider perspective of advertising s dual relationship as both consumer and object with contemporary cultural theory Martin Davidson follows the creation of successful campaigns and explores how advertising has succeeded in setting the tone for even larger aspects of our material and personal lives With the impact of postmodernism and popular culture and the subsequent collapse of the old anti advertising critique the books reveals how advertising came to be embraced as the idiom of the enterprise culture and how it became central to the decades assault on traditional notions of political and cultural value Martin Davidson explores the wider implications of advertising s dominance for cultural theory art anthropology and language Finally Martin Davidson asks how this new critique will have to develop if the industry s new credibility is to be maintained **The Artist as Economist** Sophie Cras,Cécile Whiting,2019-11-05 This groundbreaking examination of the intersection between artistic practice and capitalism in the 1960s explores art s capacity to reflect on and reimagine economic systems and our place within them Chambers's Journal of Popular Literature, Science and Arts ,1879
