Smoke In Their Eyes Lessons In Movement Leadership From The Tobacco Wars:

Smoke in Their Eyes Michael Pertschuk, 2001 The classic American struggle between the public interest and corporate interests is perhaps nowhere better illustrated than in the decades long struggle between the tobacco industry and advocates for public health The failure of the global settlement legislation is now viewed by many public health experts as an historic missed opportunity and in this extraordinary book *Smoke in Their Eyes* Michael Pertschuk brilliantly describes the forces brought to bear A lifelong public health leader and tobacco control advocate Pertschuk provides uncommon insight into the movement and its opposition Questions that reveal themselves here can be applied to public advocacy as a whole how can movement leaders gauge and best employ popular support Who has legitimacy to speak on behalf of a particular public cause And perhaps most crucially how is it possible for those whose cause is a moral one to strike political compromise With a narrative as compelling as the issues it raises *Smoke in Their Eyes* will be of great interest to everyone from students of public advocacy and political science to general readers

The Moralization of the Markets Christoph Henning, 2017-07-12 Nothing affects the modern economy and society more than decisions made in the market place especially but not only decisions made by consumers Although it is not startling to suggest that decisions made in production are affected by choices consumers make consumers have long been viewed not only by academic economists as individual isolated rational actors that make or refrain from purchases purely on the basis of narrow financial considerations Markets are not and never were morally neutral Market relations have always had an often taken for granted moral underpinning The moralization of the markets refers to the dissolution and replacement of the conventional moral underpinnings of market conduct for example in the music market financial markets and corporate governance It further implies not only the heightened importance of new ethical precepts but the significant change in the role of moral ideals in market behavior These profound transformations of economic conduct are accompanied and co determined by societal conflicts The moralization of markets represents thus a new stage in the social evolution of markets The book is divided into four parts in which the twelve chapters written by contributors from different social science disciplines deal with the context of the moralization of the markets the major social institutions and present case studies that examine European and American attitudes and behavior towards tobacco and GMO expansion of the private and ethics in business and how workers respond to the new corporate norms This volume will be of interest to sociologists economists social scientists and the general consumer alike

Ending the Tobacco Problem Institute of Medicine, Board on Population Health and Public Health Practice, Committee on Reducing Tobacco Use: Strategies, Barriers, and Consequences, 2007-10-27 The nation has made tremendous progress in reducing tobacco use during the past 40 years Despite extensive knowledge about successful interventions however approximately one quarter of American adults still smoke Tobacco related illnesses and death place a huge burden on our society *Ending the Tobacco Problem* generates a blueprint for the nation in the struggle to reduce

tobacco use The report reviews effective prevention and treatment interventions and considers a set of new tobacco control policies for adoption by federal and state governments Carefully constructed with two distinct parts the book first provides background information on the history and nature of tobacco use developing the context for the policy blueprint proposed in the second half of the report The report documents the extraordinary growth of tobacco use during the first half of the 20th century as well as its subsequent reversal in the mid 1960s in the wake of findings from the Surgeon General It also reviews the addictive properties of nicotine delving into the factors that make it so difficult for people to quit and examines recent trends in tobacco use In addition an overview of the development of governmental and nongovernmental tobacco control efforts is provided After reviewing the ethical grounding of tobacco control the second half of the book sets forth to present a blueprint for ending the tobacco problem The book offers broad reaching recommendations targeting federal state local nonprofit and for profit entities This book also identifies the benefits to society when fully implementing effective tobacco control interventions and policies

Law's Allure Gordon Silverstein, 2009-02-09 *Law's Allure* explains how when and why America's reliance on legal rules and judicial decisions shapes constrains saves and sometimes even kills politics

ASSIST, 2005 Just as the American Stop Smoking Intervention Study for Cancer Prevention ASSIST was a major shift in the National Cancer Institute's NCI's tobacco prevention and control research and dissemination efforts this monograph is a significant departure from NCI's previous tobacco control monographs For many the ASSIST project represented a logical progression of NCI's phased research approach to reducing tobacco use For others it represented a controversial and overly ambitious leap in a new direction Similarly this monograph departs from the traditional quantitative evidence review format to emphasize instead the practical hands on experience of program implementation Traditional research investigators who defend the sanctity of the randomized clinical trial many of whom were uncomfortable with ASSIST at its outset will also be uncomfortable with the personal and anecdotal flavor of this monograph Public health practitioners on the other hand as well as those investigators who have immersed themselves in the untidy world of implementation research will appreciate the detailed historical accounts of the complexities politics and outright opposition encountered by the ASSIST team The collective experiences described in this monograph provide a rich understanding of the gritty struggle against the powerful forces of the tobacco industry and its allies For students in public health training programs this work also provides a unique view of the world outside of academia where commercial political and public health interests collide in a struggle to define the policies norms and practices that will affect the health of generations page viii

The Expert Consumer Alain Chatriot, Marie-Emmanuelle Chessel, 2017-09-29 Recent work has focused on the politics of consumption and its manifestation in a number of situations This volume extends these debates providing a tighter focus and contributing to a noticeable gap in the field that numerous scholars are beginning to turn towards that is organizations of consumers themselves who have chosen to speak for all consumers and similar such bodies of experts which act on behalf of consumers

The volume is fortunate in drawing upon a number of scholars who are about to publish major works on the subject but who are happy to provide summary versions of their work for the volume. The book pays particular attention to specific moments in consumer mobilization and expertise capturing the range of types of expert consumers across the twentieth century from ethical consumer groups at the beginning to intellectuals, housewives, economists and public officials. It addresses questions on the nature of consumer organizing, which bodies can speak for consumers, whether one consumer voice can ever be identified and the relationship between consumption and citizenship. Overview pieces demonstrate the larger narratives involved in the study of the expert consumer whilst more comparative essays set out the nature of transatlantic exchanges. Other contributions point to the similarities across seemingly different consumption regimes while case studies of specific organisations and key historical moments draw out the particularities of consumer expertise. *Tobacco Industry and*

Smoking Fred C. Pampel, Fred C. Pampel, 2009. Praise for the previous edition: *The DeMarco Factor* Michael Pertschuk, 2025-05-20. Vinny DeMarco might be a latter day Don Quixote except that he tilts his lance at real obstacles to social justice: lobby, locked state legislatures and Congress stonewalling the public will. And he makes impossible dreams come true. In twenty years of organizing campaigns in Maryland, he has led successful efforts to pass gun control laws against the National Rifle Association, opposition to hike cigarette taxes to prevent youth smoking and to extend health care to hundreds of thousands of low income workers. He has also built a unique alliance of mainstream and conservative faith groups which helped secure rare bipartisan votes in Congress for the enactment in July 2009 of landmark FDA regulation of tobacco manufacture and marketing. DeMarco's unique strategic template developed over two decades of serial campaigning includes momentum building, stages over a multiyear campaign, unrelenting, skillful access to the media for engaging public support, coalitions of hundreds even thousands of faith, community, labor, public health and business groups and a hard press on candidates to support legislation before elections rather than after they are comfortably in office. As an organizer leader, Demarco also succeeds in his campaigns through force of personality, his unquenchable exuberance and idiosyncrasies delight and madden his opponents, sometimes his allies too. Michael Pertschuk himself, a veteran advocate, here chronicles three of DeMarco's campaigns, each facing a different obstacle course. His deep analysis draws out strategic and leadership lessons that engaged citizens and advocates for popular causes stonewalled by powerful lobbies can put to immediate and practical use. *Unlucky Strike: Private Health and the Science, Law and Politics of Smoking* John Staddon, David

Hockney, 2014-01-10. Remember fifty years ago when everyone smoked. Since tobacco found its way into Europe in the sixteenth century, smoking has been a controversial issue. Fifty years ago, almost everyone smoked and fifty years before that, smokers were in the doghouse up until the early twentieth century. Cigarettes were illegal in a number of U.S. states. Needless to say, smoking has always been a ready source of revenue. It has also been a source of health concerns, both real and imagined. This mixture of pleasure, money and risk that comes with the act of smoking means that it's rarely treated fairly by

politicians health professionals or the public Nowadays tough anti smoking laws are to be obeyed in most corners of the globe The misinformation about and unreasoning hostility directed at smoking and smokers is one of the major concerns of this book After all smoking has no public cost Isn't it just the individual smokers who are at risk Prompted by this burgeoning fascination Staddon looks further into the facts And the more he looks the weaker the case against smoking as a public health issue becomes Is ETS really dangerous to children And if so how can science prove it And if smoking has no public cost and the medical case for third party harm is weak why are smokers still being victimised In this provocative thought provoking book Staddon is determined to uncover the truth about smoking But the truth is not always pretty **Up in Smoke** Martha A. Derthick, 2011-07-26 In recent years tobacco politics has been a multi layered issue fraught with significant legal commercial and public policy implications From the outset Martha A Derthick's Up in Smoke took a nuanced look at tobacco politics in a new era of adversarial legalism and the consequences both intended and unintended of the MSA Master Settlement Agreement Now with a brand new 3rd edition the book returns to ordinary politics and the passage of the Family Smoking Prevention and Tobacco Control Act which gave the FDA broad authority to regulate both the manufacture and marketing of tobacco products Derthick shows our political institutions working as they should even if slowly with partisanship and interest group activity playing their part in putting restraints on cigarette smoking
