Each chapter is complete with a historical overview, types of facilities, planning and interior design elements, design applications, a summary, references, and Web sites. New design applications covered include spas in hotels, bed and breakfast inns, coffee shops, gift stores, and salons; courthouses and courtrooms; and golf clubhouses. In keeping with the times, there are new chapters focusing on senior living facilities and on restoration and adaptive use. A chapter on project management has been revised and includes everything from proposals and contracts to scheduling and documentation. Throughout the book, design application discussions, illustrations, and photographs help both professionals and students solve problems and envision and implement distinctive designs for commercial interiors.
