The Heart An Analysis Of Human And Divine Affectivity:

The Sacred Heart Dietrich Von Hildebrand, 1965 *The Heart* Dietrich Von Hildebrand, 1965 *One of the Trinity Has Suffered: Balthasar's Theology of Divine Suffering in Dialogue* Joshua R. Brotherton, 2020-01-01 Hans Urs von Balthasar's discourse on the descent of Christ into hell and its implications for the Triune God have been disputed for half a century. One of the Trinity has Suffered evaluates and revises von Balthasar's theology of divine suffering in a way that interacts with and significantly enriches contemporary Catholic theology. In this book Joshua R. Brotherton engages twentieth century Thomistic theology as well as the thought of Pope Emeritus Benedict XVI Joseph Ratzinger and Pope St John Paul II. Drawing from the vast secondary literature on von Balthasar, Brotherton offers a balanced assessment of his work on the topic of divine suffering, both critical and appreciative. Recognizing von Balthasar's laudable attempt to integrate mystical spirituality and systematic theology, Brotherton seeks to distinguish valid insights from confused mixtures of metaphorical, meta-symbolic and philosophical metaphysical discourse on God, particularly with respect to the classical problem of how the Creator who willed to become incarnate may be said to suffer. Truly, One of the Trinity has suffered, and yet this mystery of faith must be carefully explained and understood in conformity with sustained Catholic reflection on divine immutability and simplicity, the dual nature and unique personhood of Christ, the Trinity of divine subsistent relations, the freedom of God in creating and becoming man, the analogy of being, the problem of evil, and the immensity and infinite value of Christ's redemptive suffering.

I Am With You Always Benedict C.F.R. Groeschel, 2011-02-18 A Study of the History and Meaning of Personal Devotion to Jesus Christ for Catholic, Orthodox and Protestant Christians. The devotional life of Christians over the two millennia since Jesus' birth has been one of motion, changing and growing in response to the challenges presented to the Church: the temperaments of newly baptized nations and controversies about how we can and should relate to God. And yet the core of authentic Christian devotion has not changed; it remains today as it was in the time of the Church Fathers: the trusting and personal encounter with Christ that is both open and foundational to the life of all Christian believers. In this book, the well-known spiritual writer and teacher Fr. Benedict Groeschel, C.F.R., surveys the development and trials of Christian devotion from the days of the martyrs until the twentieth century. Tracking it through the centuries and among sadly divided branches of Christianity, he finds a commonality of experience and even of language that is constantly ignored among Christians themselves. By observing what image of Christ the canvas of common devotion portrays, he hopes we will move not to discredit this image but to sharpen it and make it more consistent with the New Testament and the ancient Church. Though the devotional life is sometimes brushed off as unimportant in comparison to a theological understanding of Christ, Groeschel warns that such dismissal threatens to make distant, unknown and obscure the Savior who said, "I am with you always." The answer, instead, is to draw near to Jesus in devotion and with authentic expressions of that devotion which themselves help paint the image of Christ found concretely in revelation onto the minds and daily life of the devout. Begun on a pilgrimage to

the Holy Land and the result of years of preparation and a whole life of guiding people as priest public preacher psychologist and spiritual director this book will help Catholic Orthodox and Protestant believers gain not only a comprehensive view of how pious Christians over the centuries have lived out their devotion to God but the examples and perspective they need to live more devoutly today *Theological Anthropology at the Beginning of the Third Millennium* Kevin Wagner, Peter John McGregor, M. Isabell Naumann, 2022-04-29 *Theological Anthropology at the Beginning of the Third Millennium* is the third volume of the *Theology at the Beginning of the Third Millennium* series Bringing together Catholic and Orthodox scholars of diverse disciplines this work sheds new light on the question what does it mean to be a human person Beginning with an overview on the state of the discipline in our time the book brings theological anthropology into dialogue with epistemology Christology science spiritual theology and pedagogy It explores how human persons who are created in God's image and likeness can come to knowledge of the self and the other such that the individual person can know love and be united to the God and Father of Jesus Christ **The Catholic Reception of Continental Philosophy in North America** Gregory P. Floyd, Stephanie Rumpza, 2020-01-29 This volume by leading philosophers and theologians explores the reception of continental philosophy in North America and its ongoing relation to Catholic institutions What has prompted so many North American Catholics to support this particular school of thought Why do so many Catholics continue to find continental philosophy attractive and why do so many continental philosophers work in Catholic departments The establishment of the relationship between continental philosophy and Catholicism was not obvious nor was it easy Many of the contributors to this volume have played important roles in its development and in these pages they take a stance on this evolving relationship and demonstrate that the engagement is far from over Exploring the mutual interests that made this alliance possible as well as the underlying tensions the volume provides for the first time an extended reflection on the historical institutional and intellectual relationship between Catholicism and continental philosophy on North American soil up to the present day

Rationality within Modern Psychological Theory James A. Harold, 2016-06-15 Rationality within Modern Psychological Theory examines the rational and irrational dimensions of human nature and of the psyche and logos Harold combines the traditionally divided views of classical philosophy's affirmation of the existence of intellect and modern psychology's emphasis on immanent psychological factors over rational transcendent relations By accepting the power of being in an adequate relation to reality while still admitting the manifold ways that people evade truth and reality psychologists will be able to emphasize the power of an individual to establish a truthful relation with reality This book is recommended for scholars of psychology and philosophy

Thomas Acklin, 2017 The need for spiritual direction or the accompaniment of a spiritual guide is becoming more prominent in a world where so many are suffering from so many wounds With a harmonious integration of both timeless spiritual wisdom from the Catholic Church's tradition of prayer and direction and the insight of the psychological sciences Fathers Thomas Acklin and Boniface Hicks offer a comprehensive guide for all who provide or seek spiritual direction Spiritual Direction A Guide for Sharing the Father's Love fortifies priests religious and lay faithful who embrace the ministry of spiritual direction and accompany the wounded assist men and women in hearing the voice of God and model the love and mercy of the Father for the many who are seeking Him but do not know Him or have false images of Him This book also shows how various aspects of the spiritual life can emerge from and be fostered by a one on one relationship with a spiritual director Together with concrete guidelines and numerous examples from personal experience this book refers extensively to Sacred Scripture as the foundation for spiritual direction Furthermore since the practice of spiritual direction goes back to the first centuries of the Church the authors turn for guidance to the Doctors of the Church the writings of the saints and the papal magisterium in developing and supporting their insights Spiritual Direction will call spiritual directors to deeper holiness even as they assist others in growing closer to the Father through His loving gaze of mercy

Conservatism and Grace Sebastian Morello, 2023-02-10 This book offers a systematic and detailed examination of the conservative case for religion by establishment In doing so the author demonstrates that the conservative political tradition is rooted in an inescapably religious worldview and in turn shows what the future of conservatism might be The author begins the book by analysing the thought of prominent proponents of secular conservatism chiefly examining the work of Roger Scruton The author develops a case to show that Scruton's arguments on the privatisation of religion are in tension with his basing of a conservative political settlement on transcendent bonds The author then examines alternatives to secular conservatism especially the chief religious and metaphysical commitments of early conservatives Edmund Burke and Joseph de Maistre Finally in seeking to establish a foundational argument for religion by establishment within the conservative tradition and more broadly to unify the diverse commitments and objections of conservatives the author develops a case that draws on Scruton's personalism as well as the thought of Martin Buber Andrew Pinsent and Robert Spaemann In the course of developing his foundational argument the author incorporates findings from experimental psychology and themes from contemporary theology The result is a convincing argument in favour of establishmentarian conservatism as well as the role of religious ideas in our self understanding as individuals and as a political community Conservatism and Grace will appeal to scholars and advanced students interested in political philosophy philosophy of religion theology and the history of conservatism

The Philosophical Diseases of Medicine and their Cure Josef Seifert, 2012-11-02 At all times physicians were bound to pursue not only medical tasks but to reflect also on the many anthropological and metaphysical aspects of their discipline such as on the nature of life and death of health and sickness and above all on the vital ethical dimensions of their practice For centuries almost for two millennia however those who practiced medicine lived in a relatively clearly defined ethical and implicitly philosophical or religious world order within which they could safely turn to medical practice knowing right from wrong or at least being told what to do and what not to do Today however the situation has radically changed mainly due to three quite different reasons First and most obviously physicians today are faced with a tremendous development of new possibilities and techniques which allow previously unheard of medical interventions such as cloning cryo conservation genetic interference etc which call out for ethical reflection and wise judgment but regarding which there is no legal and medical ethical tradition Traditional medical education did not prepare physicians for coping with this new brave world of modern medicine Secondly there are the deep philosophical crises and the philosophical diseases of medicine mentioned in the preface that lead to a break down of firm and formative legal and ethical norms for medical actions

The Spiritual Formation of Seminarians James

Keating,2025-05-16 In this book Deacon James Keating provides an opportunity for one spiritual director to introduce his mind to the minds of other directors with the hope that his ideas may season their own already developed method of direction The book does not attend to all the possible realities a director may encounter within his or her training or within the daily execution of this ministry The author wishes to share his approach to directing seminarians by reflecting upon themes and experiences which regularly appear within direction sessions Spiritual direction certainly has some universal components to it All directors want their directees to internalize a habit of prayer to choose a life of remaining with God to suffer the vulnerability necessary to know divine love and to then embody that love as heralds of the Gospel But each director approaches his or her directees from within their own skin from within a personality that is unique and by way of a formation that reflects the unique attractions of each director and his or her own sufferings failures and fidelities These unique embodiments no one writer can know or capture in a book And so this book simply begins a conversation that the author invites other directors to enter and add to according to their own insights The spiritual life of those in seminary occupies the integrating center of a projected life of priestly ministry Time needed to secure an interior life of prayer is one of the key reasons the Church demands years of formation before the celibate state is entered Such a state in life is entered as a testimony to the reality that God lives and loves In light of such love a man enters seminary to discern if he desires to surrender his whole life in response to God sharing His own To live as a cleric without a vital interior life leaves a man in a state of meaninglessness Instilling the virtue of prayer during priestly formation can help assure that celibate priesthood retains its inspiration and meaning throughout the life of a priest Spiritual directors minister to assist a future priest to secure a lifetime habit of prayer so as to secure his commitment to communicate with the living God *The Common Good: Chinese and American Perspectives* David Solomon,P.C. Lo,2013-11-19 This book addresses the Confucian philosophy of common good and deals with the comparative philosophy on eastern and western understandings of common good The common good is an essentially contested concept in contemporary moral and political discussions Although the notion of the common good has a slightly antique air especially in the North Atlantic discussion it has figured prominently in both the sophisticated theoretical accounts of moral and political theory in recent years and also in the popular arguments brought for particular political policies and for more general orientations toward policy It has been at home both in the political arsenal of the left and the right and has had special significance in ethical and political debates in modern and modernizing cultures This text will be of interest to philosophers interested in Chinese philosophy and issues related to individualism and communitarianism ethicists and political philosophers comparative philosophers and those in religious studies working on Chinese religion *The Catholic Church and Liberal Democracy* Bernt Oftestad,2018-12-07 The Roman Catholic Church s critical stance towards liberalism and democracy following the French Revolution and through the 19th century was often entrenched but the Second Vatican Council of the 1960s saw a shift in the Church s attitude towards democracy In recent

years a conflict has emerged between Church doctrine and modern liberalism under Popes John Paul II and Benedict XVI. This book is a comprehensive overview of the Catholic Church's relationship to modern liberal democracy from the end of the 18th century until today. It is a connection that is situated within the context of the history of ideas itself. Phenomenology and Virtue Ethics Kevin Hermberg, Paul Gyllenhammer, 2013-10-10. The correlation between person and environment has long been a central focus of phenomenological analysis. While phenomenology is usually understood as a descriptive discipline showing how essential features of the human encounter with things and people in the world are articulated, phenomenology is also based on ethical concerns. Husserl himself, the founder of the movement, gave several lecture courses on ethics. This volume focuses on one trend in ethics: virtue ethics and its connection to phenomenology. The essays explore how phenomenology contributes to this field of ethics and clarifies some of its central issues such as flourishing and good character traits. The volume initiates a conversation with virtue ethicists that is underrepresented in the current literature. Phenomenology and Virtue Ethics offers contributions from prominent phenomenologists who explore the following issues: how phenomenology is connected to the ancient Greek or Christian virtue tradition; how phenomenology and its foundational thinkers are oriented toward virtue ethics; and how phenomenology is itself a virtue discipline. The focus on phenomenology and virtue ethics in a single volume is the first of its kind. A Belief in Humanity: The Untold Story of Conciliar Humanism Thomas D. Carroll, 2024-09-12. I believe in a new humanity. Evocative words spoken by Pope Francis to the assembled young people in Kraków, Poland, during the final mass for World Youth Day on July 31, 2016. What was he thinking about? Where did this idea come from? This book answers these questions and examines for the first time an original way of thinking about our shared humanity, a way that was intimated sixty years ago and is still to be explored.
