Gmirkin, 2022-05-02 *Plato's Timaeus and the Biblical Creation Accounts* argues that the creation of the world in Genesis 1 and the story of the first humans in Genesis 2-3 both draw directly on Plato's famous account of the origins of the universe mortal life and evil containing equal parts science theology and myth This book is the first to systematically compare biblical Ancient Near Eastern and Greek creation accounts and to show that Genesis 1-3 is heavily indebted to Plato's *Timaeus* and other cosmogonies by Greek natural philosophers It argues that the idea of a monotheistic cosmic god was first introduced in Genesis 1 under the influence of Plato's philosophy and that this cosmic Creator was originally distinct from the lesser terrestrial gods including Yahweh who appear elsewhere in Genesis It shows the use of Plato's *Critias* the sequel to *Timaeus* in the stories about the Garden of Eden the intermarriage of the sons of God

and the daughters of men and the biblical flood This book confirms the late date and Hellenistic background of Genesis 1 11 drawing on Plato's writings and other Greek sources found at the Great Library of Alexandria This study provides a fascinating approach to Genesis that will interest students and scholars in both biblical and classical studies philosophy and creation narratives

Bernal, 2012-10-04 J D Bernal's monumental work Science in History was the first full attempt to analyse the reciprocal relations of science and society throughout history from the perfection of the flint hand axe to the hydrogen bomb In this remarkable study he illustrates the impetus given to and the limitations placed upon discovery and invention by pastoral agricultural feudal capitalist and socialist systems and conversely the ways in which science has altered economic social and political beliefs and practices In this first volume Bernal discusses the nature and method of science before describing its emergence in the Stone Age its full formation by the Greeks and its continuing growth probably influenced from China under Christendom and Islam in the Middle Ages Andrew Brown Bernal's biographer with a nice sense of paradox has said of him he was steeped in history in part because he was
