Subversive Spirituality L. Paul Jensen, 2009-08-01 Subversive Spirituality links the practice and study of Christian

spirituality with Christian mission It develops a twofold thesis grace spiritual disciplines and mission practices are inseparably linked in the mission of Jesus of the early church and of several historical renewal movements as well as in a contemporary field research sample and amidst the collapse of space and time evidenced by our culture s increasingly hurried pace of life more time and space are needed for regular solitary and communal spiritual practices in church mission and leadership structures if Christian mission is to transform people and culture in our time This requires a subversion of the collapsed spatial and temporal codes that have infected our Christian institutions Jensen employs methods and approaches from a variety of academic disciplines to explore both spirituality in terms of space and time and mission in terms of deed and word Specifically Jensen examines the spirituality and mission of Jesus the early church the apostolic fathers Origen the Devotio Moderna the early Jesuits David Brainerd and several women in 19th century Protestant missions He considers the spirituality and mission that have arisen within the postmodern generations born after 1960 Based on the theological historical cultural and field analyses of this study a model for spirituality and mission is proposed The model addresses the contemporary collapse of space and time and appears to have widespread applicability to diverse cultures and eras Jensen s model is applied to the pluralistic and postmodern milieu of North America with recommendations for spirituality and mission in church mission and educational structures A derivative model for teaching and practicing spirituality and mission in the academy which also has application for non formal leadership development structures is also proposed

*Science and Politics* Brent S. Steel, 2014-04-21 Recent partisan squabbles over science in the news are indicative of a larger tendency for scientific research and practice to get entangled in major ideological divisions in the public arena This politicization of science is deepened by the key role government funding plays in scientific research and development the market leading position of U S based science and technology firms and controversial U S exports such as genetically modified foods or hormone injected livestock This groundbreaking one volume A to Z reference features 120 150 entries that explore the nexus of politics and science both in the United States and in U S interactions with other nations The essays each by experts in their fields examine Health environmental and social cultural issues relating to science and politics Concerns relating to government regulation and its impact on the practice of science Key historical and contemporary events that have shaped our contemporary view of how science and politics intersect *Science and Politics An A to Z Guide to Issues and Controversies* is a must have resource for researchers and students who seek to deepen their understanding of the connection between science and politics

**Chemical Risk Governance** Adam D.K. Abelkop, Lucas Bergkamp, Lynn L. Bergeson , Bethami Auerbach, 2023-03-20 This incisive volume of the Elgar Encyclopedia of Environmental Law offers a broad analysis of the foundations main concepts and substantive and procedural requirements of selected chemical law regimes as they pertain to the environment Featuring contributions from more than 40 expert scholars and practitioners in the field the volume focuses on chemical regulatory systems from representative jurisdictions including the EU and the US to provide a coherent overview

of this expansive and often fragmented area of law Divided into five thematic parts the volume first examines the fundamental concepts of chemical law addressing topics including risk assessment nomenclature environmental justice and animal testing Entries then discuss types of chemicals and exposures regulation of chemicals in products and manufacturing and waste and contamination as well as covering liability rules as they apply to chemicals This volume will be an essential resource for scholars and students looking for a clear understanding of chemicals regulation and governance from environmental and public health perspectives at both national and international levels Its insights into policy developments and liability issues will also be of interest to policymakers and practitioners
