Global Risk Agility and Decision Making Daniel Wagner, Dante Disparte, 2016-08-12 In Global Risk Agility and Decision Making Daniel Wagner and Dante Disparte two leading authorities in global risk management make a compelling case for the need to bring traditional approaches to risk management and decision making into the twenty first century Based on their own deep and multi faceted experience in risk management across numerous firms in dozens of countries the authors call for a greater sense of urgency from corporate boards decision makers line managers policymakers and risk practitioners to address and resolve the plethora of challenges facing today's private and public sector organizations Set against the era of manmade risk where transnational terrorism cyber risk and climate change are making traditional risk models increasingly obsolete they argue that remaining passively on the side lines of the global economy is dangerous and that understanding and actively engaging the world is central to achieving risk
