Slavery A Problem In American Institutional And Intellectual Life:

Slavery Stanley M. Elkins, 2013-08-16 This third edition of Stanley M. Elkins's classic study offers two new chapters by the author. The first, *Slavery and Ideology*, considers the discussion and criticism occasioned by this controversial work. Elkins amplifies his original purpose in writing the book and takes into consideration the substantial body of critical commentary. He also attempts a prediction on the course of future research and discussion. Slavery: a Problem in American Institutional and Intellectual Life. 2nd Ed Stanley Maurice ELKINS, 1968 *Slavery A Problem in American Institutional and Intellectual Life* Stanley M. Elkins, 1963 The Birth of African-American Culture Sidney Wilfred Mintz, 1992-07-01 This compelling look at the wellsprings of cultural vitality during one of the most dehumanizing experiences in history provides a fresh perspective on the African American past. The Atlantic Slave Trade Jeremy Black, 2022-12-30 Originally published as a collection in 2006, this volume discusses the development of the Atlantic slave trade in the seventeenth century, looking at issues such as how African societies reacted to the trade, the economic origins of black slavery in the British West Indies, and the growth of plantations responding to changes in European diet, particularly the rise of the sugar economy. The volume also has an introduction by the editor commenting on the contribution each essay makes. **Longman Companion to Slavery, Emancipation and Civil Rights** Harry Harmer, 2014-06-11 This Companion provides the essential background to the defining fate of the African diaspora in the Americas and the Caribbean from the 15th to the 20th centuries. Central to the book are detailed chronologies on the development and decline of the slave trade, slavery in colonial North and South America, the Caribbean, and the United States; movements for emancipation and the progress of black civil rights. Separate sections look at the long-running resistance against slavery and the black civil rights movements in the Americas and the Caribbean, with a comparative chronology of apartheid in South Africa. Supported by biographies of over 100 key individuals and a full glossary providing definitions of crucial terms, expressions, ideas, and events, this is required reading for anyone interested in the historical experience of slavery. **Critical White Studies** Richard Delgado, Jean Stefancic, 1997-06-29 This work, drawn from sociology, law, history, cultural studies, and literature, presents an analysis of the emerging field of whiteness studies as the next step of critical race theory. It investigates what it means to be white from both a nonwhite and a white perspective. The Background to Ethnic Conflict (=IJCS XX, 1-2) William Petersen, 2022-04-25 **Handbook Global History of Work** Karin Hofmeester, Marcel van der Linden, 2017-11-20 Coffee from East Africa, wine from California, chocolate from the Ivory Coast: all those everyday products are based on labour, often produced under appalling conditions but always involving the combination of various work processes we are often not aware of. What is the day-to-day reality for workers in various parts of the world, and how was it in the past? How do they work today, and how did they work in the past? These and many other questions comprise the field of the global history of work, a young discipline that is introduced with this handbook. In 8 thematic chapters, this book discusses these aspects of work in a global and long-term perspective, paying

attention to several kinds of work Convict labour slave and wage labour labour migration and workers of the textile industry but also workers organisation strikes and motivations for work are part of this first handbook of global labour history written by the most renowned scholars of the profession *Writing the History of Slavery* David Stefan Doddington, Enrico Dal Lago, 2022-01-13 Exploring the major historiographical theoretical and methodological approaches that have shaped studies on slavery this addition to the Writing History series highlights the varied ways that historians have approached the fluid and complex systems of human bondage domination and exploitation that have developed in societies across the world The first part examines more recent attempts to place slavery in a global context touching on contexts such as religion empire and capitalism In its second part the book looks closely at the key themes and methods that emerge as historians reckon with the dynamics of historical slavery These range from politics economics and quantitative analyses to race and gender to psychohistory history from below and many more Throughout examples of slavery and its impact are considered across time and place in Ancient Greece and Rome Medieval Europe colonial Asia Africa and the Americas and trades throughout the Atlantic and Indian Oceans Also taken into account are thinkers from Antiquity to the 20th century and the impact their ideas have had on the subject and the debates that follow This book is essential reading for students and scholars at all levels who are interested in not only the history of slavery but in how that history has come to be written and how its debates have been framed across civilizations
