Slow Walks in Berlin Michael Leitch, 1993 Language vs. Reality N. J. Enfield, 2024-03-05 A fascinating examination of how we are both played by language and made by language the science underlying the bugs and features of humankind s greatest invention Language is said to be humankind s greatest accomplishment But what is language actually good for It performs poorly at representing reality It is a constant source of distraction misdirection and overshadowing In fact N J Enfield notes language is far better at persuasion than it is at objectively capturing the facts of experience Language cannot create or change physical reality but it can do the next best thing reframe and invert our view of the world In *Language vs Reality* Enfield explains why language is bad for scientists who are bound by reality but good for lawyers who want to win their cases why it can be dangerous when it falls into the wrong hands and why it deserves our deepest respect Enfield offers a lively exploration of the science underlying the bugs and features of language He examines the tenuous relationship between language and reality details the array of effects language has on our memory attention and reasoning and describes how these varied effects power narratives and storytelling as well as political spin and conspiracy theories Why should we care what language is good for Enfield who has spent twenty years at the cutting edge of language research argues that understanding how language works is crucial to tackling our most pressing challenges including human cognitive bias media spin the post truth problem persuasion the role of words in our thinking and much more **Slight Exaggeration** Adam Zagajewski, 2025-09-23 A new essay collection by the noted Polish poet For Adam Zagajewski one of Poland s great poets the project of writing whether it be poetry or prose is an occasion to advance what David Wojahn has characterized as his restless and quizzical quest for self knowledge *Slight Exaggeration* is an autobiographical portrait of the poet arranged not chronologically but with that same luminous quality that distinguishes Zagajewski s spellbinding poetry an affinity for the invisible In a mosaic like blend of criticism reflections European history and aphoristic musings Zagajewski tells the stories of his life in glimpses and reveries from the Second World War and the occupation of Poland that left his family dispossessed to Joseph Brodsky s funeral on the Venetian island of San Michele interspersed with intellectual interrogations of the writers and poets D H Lawrence Giorgos Seferis Zbigniew Herbert Paul Val ry composers and painters Brahms Rembrandt and modern heroes Helmuth James Graf von Moltke who have influenced his work A wry and philosophical defense of mystery *Slight Exaggeration* recalls Zagajewski s poetry in its delicate negotiation between the earthbound and the ethereal between brief explosions of meaning and patient wandering through the plains of ordinary days With an enduring inclination to marvel Zagajewski restores the world to us necessarily incomplete and utterly astonishing **On Slowness** Lutz Koepnick, 2014-10-07 Speed is an obvious facet of contemporary society whereas slowness has often been dismissed as conservative and antimodern Challenging a long tradition of thought Lutz Koepnick instead proposes we understand slowness as a strategy of the contemporary a decidedly modern practice that gazes firmly at and into the present s velocity

As he engages with late twentieth and early twenty first century art photography video film and literature Koepnick explores slowness as a critical medium to intensify our temporal and spatial experiences Slowness helps us register the multiple layers of time history and motion that constitute our present It offers a timely and untimely mode of aesthetic perception and representation that emphasizes the openness of the future and undermines any conception of the present as a mere replay of the past Discussing the photography and art of Janet Cardiff Olafur Eliasson Hiroshi Sugimoto and Michael Wesely the films of Peter Weir and Tom Tykwer the video installations of Douglas Gordon Willie Doherty and Bill Viola and the fiction of Don DeLillo Koepnick shows how slowness can carve out spaces within processes of acceleration that allow us to reflect on alternate temporalities and durations Neural Basis of Behavioural Adaptations Franz Huber,1994 *Restoration of*
