The Handbook of Political Behavior Samuel Long, 2013-11-11 In the writing of prefaces for works of this sort most editors report being faced with similar challenges and have much in common in relating how these challenges are met They acknowledge that their paramount objective is to provide more than an overview of topics but rather to offer selective critical reviews that will serve to advance theory and research in the particular area reviewed The question of the appropriate audience to be addressed is usually answered by directing material to a potential audience of social scientists graduate students and occasionally advanced undergraduate students Editors who are confronted with the problem of structuring their material often explore various means by which their social science discipline might be subdivided then generally conclude that no particular classification strategy is superior In elaborating on the process by which the enterprise was initiated editors typically resort to a panel of luminaries who provide independent support for the idea and then offer both suggestions for topics and the authors who will write them Editors usually concede that chapter topics and content do not reflect their original conception but are a compromise between their wishes and the authors' expertise and capabilities Editors report that inevitable delays occur authors drop out of projects and are replaced and new topics are introduced Finally editors frequently confess that the final product is incomplete with gaps occurring because of failed commitments by authors or because authors could not be secured to write certain chapters **The Religious Question in Modern China**

Vincent Goossaert, David A. Palmer, 2011-04-15 Recent events from strife in Tibet and the rapid growth of Christianity in China to the spectacular expansion of Chinese Buddhist organizations around the globe vividly demonstrate that one cannot understand the modern Chinese world without attending closely to the question of religion. *The Religious Question in Modern China* highlights parallels and contrasts between historical events, political regimes and cultural movements to explore how religion has challenged and responded to secular Chinese modernity from 1898 to the present. Vincent Goossaert and David A. Palmer piece together the puzzle of religion in China not by looking separately at different religions in different contexts but by writing a unified story of how religion has shaped and in turn been shaped by modern Chinese society. From Chinese medicine and the martial arts to communal temple cults and revivalist redemptive societies, the authors demonstrate that from the nineteenth century onward as the Chinese state shifted, the religious landscape consistently resurfaced in a bewildering variety of old and new forms. *The Religious Question in Modern China* integrates historical, anthropological and sociological perspectives in a comprehensive overview of China's religious history that is certain to become an indispensable reference for specialists and students alike.

Chinese Ethics in a Global Context Karl-Heinz Pohl, Anselm Müller, 2022-04-19 How do Chinese and Western ethical traditions interact today? In this collection of articles, both Chinese and Western scholars carefully examine the issue, one of fundamental importance for the mutual understanding between China and the West. The volume is the result of the second symposium which focused on a dialogue between China and the West on questions of ethics, in particular concerning their commensurability and a possible common ground. The first part of the book discusses general problems of ethics in a cross-cultural context, followed by articles on ethical bases of Chinese and Western societies respectively. Further topics range from moral traditions in the context of social transformation in China today to developments in Western societies, politics, education and religion. The last part deals with controversial issues such as human rights vs. human duties and medical ethics.
