Smoking Gun:

The Ultimate Sales Machine Chet Holmes, 2007 A no nonsense book of business advice from acclaimed corporate trainer and motivational expert Chet Holmes His advice starts with one simple concept pigheaded focus His book helps readers focus on 12 critical areas for improvement one at a time and get great results by spending just one hour a week on an area to be improved Holmes offers proven strategies for management marketing and sales One of the top 20 change experts in the USA Industry Week magazine

The American Political Scandal David R. Dewberry, 2015-08-13 In this holistic examination of political scandal in the United States David Dewberry argues convincingly that such scandals follow a consistent narrative centered largely on media coverage and politician performance rather than the actual corruption or ethics violation committed In making this argument he also provides an analytical framework for understanding the patterns underlying scandals regardless of their unique political contexts Dewberry dissects four major examples Teapot Dome Watergate Iran Contra and Clinton Lewinsky and explores the roles of various constituencies involved in creating reacting to and mediating the scandal What is the true role of journalism within the context of scandal What persuasive techniques do politicians employ to develop and perpetuate scandals What motives and values bring scandals to a close In addition to the core cases Dewberry incorporates briefer examples from contemporary and ongoing controversies including Anthony Weiner s sexting scandal money and sex in Congress how cover ups have gone digital and Chris Christie s Bridgegate The result is a fascinating and thoughtful look at the relationships among political discourse free speech and democracy

The Smoking Gun William Bastone, Daniel Green, Barbara Glauber, 2004-01-01 Take a wild ride on the paper trail paved by misbehaving celebrities benighted bureaucrats the perpetrators of unusual crimes The creators of www.thesmokinggun.com bring to their first book the same eye for quirky hilarious details that has made their Web site so extraordinarily popular more than 500 000 visitors per month This outrageously entertaining collection of previously unpublished documents court transcripts FBI files morgue police reports patent applications etc uncovers the real story behind some of the most important scandalous bizarre news stories of recent years The documents are shown in their original format Anyone with a yen for dirt will be in hog heaven

The Smoking Gun Gerry Spence, 2004-06-29 Known for his work on the cases of Karen Silkwood and Randy Weaver at Ruby Ridge the renowned attorney and New York Times bestselling author offers the true account of a trial that exposes the unrelenting power of the state that so often crushes all who come before the bar of justice guilty or innocent

The Quality of the Archaeological Record Charles Perreault, 2019-09-16 Paleobiology struggled for decades to influence our understanding of evolution and the history of life because it was stymied by a focus on microevolution and an incredibly patchy fossil record But in the 1970s the field took a radical turn as paleobiologists began to investigate processes that could only be recognized in the fossil record across larger scales of time and space That turn led to a new wave of macroevolutionary investigations novel insights into the evolution of species and a growing prominence for the field among

the biological sciences In *The Quality of the Archaeological Record* Charles Perreault shows that archaeology not only faces a parallel problem but may also find a model in the rise of paleobiology for a shift in the science and theory of the field To get there he proposes a more macroscale approach to making sense of the archaeological record an approach that reveals patterns and processes not visible within the span of a human lifetime but rather across an observation window thousands of years long and thousands of kilometers wide Just as with the fossil record the archaeological record has the scope necessary to detect macroscale cultural phenomena because it can provide samples that are large enough to cancel out the noise generated by micro scale events By recalibrating their research to the quality of the archaeological record and developing a true macroarchaeology program Perreault argues archaeologists can finally unleash the full contributive value of their discipline

[The Smoking Gun](#) William Bastone, Barbara Glauber, Daniel Eric Green, 2001 Using material from their Website *The Smoking Gun* have compiled a collection of official documents surrounding some of the most embarrassing events in celebrity news It includes Hugh Grant's arrest papers information on JFK's assassination and the psychological evaluation of Mike Tyson

[Interpreting Figurative Meaning](#) Raymond W. Gibbs, Jr, Herbert L. Colston, 2012-04-16 *Interpreting Figurative Meaning* critically evaluates the recent empirical work from psycholinguistics and neuroscience examining the successes and difficulties associated with interpreting figurative language There is now a huge often contradictory literature on how people understand figures of speech Gibbs and Colston argue that there may not be a single theory or model that adequately explains both the processes and products of figurative meaning experience Experimental research may ultimately be unable to simply adjudicate between current models in psychology linguistics and philosophy of how figurative meaning is interpreted Alternatively the authors advance a broad theoretical framework motivated by ideas from dynamical systems theory that describes the multiple interacting influences which shape people's experiences of figurative meaning in discourse This book details past research and theory offers a critical assessment of this work and sets the stage for a new vision of figurative experience in human life

End Times Alexander Cockburn, Jeffrey St. Clair, 2007 *Muckrakers pronounce corporate journalism dead* Read all about it

Lawyers on Trial Christopher Whelan, 2024-11-14 Whelan has written a book that anyone interested in the law should queue to buy *The Times* of the 1st edition A classic work Michael Beloff KC Former President Trinity College Oxford Treasurer Gray's Inn *Lawyers* are universally unpopular but is that justified Aren't lawyers necessary for justice This book uses real world examples case studies and commentary from practitioners to answer this question and to reveal the many and varied strategies American and English lawyers use to protect clients It shows how lawyers tackle their conflicting duties and highlights the choices lawyers everywhere routinely make through their power of decision What emerges are new ways of understanding the critical role lawyers play in society and their professional responsibilities This new edition considers the litigation surrounding Donald Trump and the role played by his lawyers It includes a new chapter on SLAPPs and the way the law is used to advance clients interests This book presents a unique and

fascinating account of what happens when lawyers duties to clients conflict with their duties to the legal system and looks in detail at the ethical codes and laws that regulate their conduct

Causal Case Study Methods Derek Beach, Rasmus Brun Pedersen, 2016-08-25 In this comprehensive reconstruction of causal case study methods Derek Beach Rasmus Brun Pedersen and their coauthors delineate the ontological and epistemological differences among these methods offer suggestions for determining the appropriate methods for a given research project and explain the step by step application of selected methods Causal Case Study Methods begins with the cohesive logical foundations for small n comparative methods congruence methods and process tracing then delineate the distinctive types of causal relationships for which each method is appropriate Next the authors provide practical instruction for deploying each of the methods individually and in combination They walk the researcher through each stage of the research process starting with issues of concept formation and the formulation of causal claims in ways that are compatible with case based research They then develop guidelines for using Bayesian logic as a set of practical questions for translating empirical data into evidence that may or may not confirm causal inferences Widely acclaimed instructors the authors draw upon their extensive experience at the graduate level in university classrooms summer and winter school courses and professional workshops around the globe

Ethnicity and Party Politics in Turkey Berna Öney, 2019-07-12 Delving into Turkey s political playing field this book examines how an ethnic party increased its vote shares The case study looks at the rise of the Kurdish party in Turkey s 2011 national elections in relation to the mainstream political parties strategies The research explores the strategy of the dominant Justice and Development Party that garnered the majority in three consecutive elections introduced a new political issue and even initiated an opening process Investigating the reasons behind why such a dominant party would put itself at risk with this bold strategy and why it still lost votes to the ethnic party in the process the book traces Turkey s handling of the Kurdish issue Combining a detailed analysis of election results speeches and social survey findings the volume offers a novel approach and a rare example of the application of process tracing methodology Additionally the study is one of the first to utilize unsupervised model of scaling texts on the ethnic issue dimension As the first systematic analysis of the Kurdish opening process the book will be of interest to students and scholars researching in qualitative methodology text analysis ethnic and party politics Turkey and the Middle East

Designing Case Studies J. Blatter, M. Haverland, 2012-05-30 The authors explore three ways of conducting causal analysis in case studies They draw on established practices as well as on recent innovations in case study methodology and integrate these insights into coherent approaches They highlight the core features of each approach and provide advice on each step of the research process

Causation, Evidence, and Inference Julian Reiss, 2015-05-22 In this book Reiss argues in favor of a tight fit between evidence concept and purpose in our causal investigations in the sciences There is no doubt that the sciences employ a vast array of techniques to address causal questions such as controlled experiments randomized trials statistical and econometric tools causal modeling and thought experiments But how do these different methods relate to each other and to the causal inquiry at hand Reiss argues that there is no gold standard in settling causal issues against which other methods can be measured Rather the various methods of inference tend to be good only relative to certain interpretations of the word cause and each interpretation in turn helps to address some salient purpose prediction explanation or policy analysis but not others The main objective of this book is to explore the metaphysical and methodological consequences of this view in the context of numerous cases studies from the natural and social sciences
