Temple Of Apollo Hylates At Kourion And The Restoration Of Its Southwest Corner:

The Sanctuary of Apollo Hylates at Kourion Diana Buitron-Oliver,1996 Greco-Roman Cities at the Crossroads of Cultures: The 20th Anniversary of Polish-Egyptian Conservation Mission Marina el-Alamein Grazyna Bakowska-Czerner,Rafal Czerner,2019-03-11 Papers present research from different regions ranging from ancient Mauritania through Africa Egypt Cyprus Palestine Syria as well as sites in Crimea and Georgia Topics include topography architecture interiors and d cor religious syncretism the importance of ancient texts pottery studies and conservation **THE TEMPLE OF HATSHEPSUT - THE SOLAR COMPLEX** Janusz Karkowski,2003-01-01 **A Study of the Circulation of Ceramics in Cyprus from the 3rd Century BC to the 3rd Century AD** John Lund,2015-10-26 This is the first monograph devoted solely to the ceramics of Cyprus in the Hellenistic and Roman Periods The island was by then no longer divided into kingdoms but unified politically first under Ptolemaic Egypt and later as a province in the Roman Empire Submission to foreign rule was previously thought to have diluted if not obliterated the time honoured distinctive Cypriot character The ceramic evidence suggests otherwise The distribution of local and imported pottery in Cyprus points to the existence of several regional exchange networks a division that also seems reflected by other evidence The similarities in material culture exchange patterns and preferential practices are suggestive of a certain level of regional collective self awareness From the 1st century BC onwards Cyprus became increasingly engulfed by mass produced and standardized ceramic fine wares which seem ultimately to have put many of the indigenous makers of similar products out of business or forced them to modify their output Also the ceramic record gradually became less diverse during the Roman Period than before developments which we today might be inclined to view as symptoms of an early form of globalisation A Research Guide to the Ancient World John M. Weeks,Jason de Medeiros,2014-11-25 The archaeological study of the ancient world has become increasingly popular in recent years A Research Guide to the Ancient World Print and Electronic Sources is a partially annotated bibliography The study of the ancient world is usually although not exclusively considered a branch of the humanities including archaeology art history languages literature philosophy and related cultural disciplines which consider the ancient cultures of the Mediterranean world and adjacent Egypt and southwestern Asia Chronologically the ancient world would extend from the beginning of the Bronze Age of ancient Greece ca 1000 BCE to the fall of the Western Roman Empire ca 500 CE This book will close the traditional subject gap between the humanities Classical World Egyptology and the social sciences anthropological archaeology Near East in the study of the ancient world This book is uniquely the only bibliographic resource available for such holistic coverage The volume consists of 17 chapters and seven appendixes arranged according to the traditional types of library research materials bibliographies dictionaries atlases etc The appendixes are mostly subject specific including graduate programs in ancient studies reports from significant archaeological sites numismatics and paleography and writing systems These extensive author and subject indexes help facilitate ease of use A Companion to the Archaeology of the

Roman Empire, 2 Volume Set Barbara Burrell, 2024-03-13 A one of a kind exploration of archaeological evidence from the Roman Empire between 44 BCE and 337 CE In A Companion to the Archaeology of the Roman Empire distinguished scholar and archaeologist Professor Barbara Burrell delivers an illuminating and wide ranging discussion of peoples institutions and their material remains across the Roman Empire Divided into two parts the book begins by focusing on the unifying factors institutions and processes that affected the entire empire This ends with a chapter by Professor Greg Woolf Ronald J Mellor Professor of Ancient History at UCLA which summarizes and enlarges upon the themes and contributions of the volume Meanwhile the second part brings out local patterns and peculiarities within the archaeological remains of the City of Rome as well as almost every province of its empire Each chapter is written by a noted scholar whose career has focused on the subject Chronological coverage for each chapter is formally 44 BCE to 337 CE but since material remains are not always so closely datable most chapters center on the first three centuries of the Common Era plus or minus 50 years In addition the book is amply illustrated and includes new and little known finds from oft ignored provinces Readers will also find A thorough introduction to the peoples and operations of the Roman Empire including not just how the center affected the periphery Romanization but how peripheral provinces operated on their own and among their neighbors Comprehensive explorations of local patterns within individual provinces Contributions from a diverse panel of leading scholars in the field A unique form of organization that brings out systems across the empire such as transport across sea rivers and roads monetary systems pottery and foodways the military construction and technology Perfect for graduate and advanced undergraduate students of archaeology and the history of the Roman Empire A Companion to the Archaeology of the Roman Empire will also earn a place in the libraries of professional archaeologists in other fields including Mayanists medievalists and Far Eastern scholars seeking comparanda and bibliography on other imperial structures
